MONA MAGHRABY

Ain Shams University
University College for Women
(Arts, Science, and Education)
Department of Mathematics

QUANTUM ENTROPY FOR A NON-LINEAR INTERACTION SYSTEMS.

A THESIS

SUBMITTED IN PARTIAL FULFILLMENT OF REQUIREMENTS
FOR THE DEGREE OF
MASTER OF SCIENCE (M.Sc.)
(APPLIED MATHEMATICS)

BY

Esraa Salem Abdel-Hameed Salem Elkhoully

Department of Mathematics
University College for Women
Ain Shams University

SUPERVISORS

Prof. Dr. Mohamed Mohamed Ali Ahmed

Professor Emeritus of Applied Mathematics
Faculty of Science
Al-Azhar University

Prof. Dr. Safaa Sadik Beshai

Professor Emeritus of Applied Mathematics
Faculty of Women (Science)
Ain Shams University

Prof. Dr. Abdel-Hameed Abdel-Reheem Eied Ahmed

Professor of Applied Mathematics
Faculty of science, Al-Azhar University

(2021)

Ain Shams University
University College for Women
(Arts, Science, and Education)
Department of Mathematics

M.Sc. Thesis
(APPLIED MATHEMATICS)

Title of Thesis:

QUANTUM ENTROPY FOR A NON-LINEAR INTERACTION SYSTEMS.

Thesis supervisors:

Prof. Dr. Mohamed Mohamed Ali Ahmed

Professor Emeritus of Applied Mathematics
Faculty of Science
Al-Azhar University

Prof. Dr. Safaa Sadik Beshai

Professor Emeritus of Applied Mathematics
Faculty of Women (Science)
Ain Shams University

Dr. Abdel-Hameed Abdel-Reheem Eied Ahmed

Professor of Applied Mathematics
Faculty of science
Al-Azhar University

Ain Shams University
University College for Women
(Arts, Science, and Education)
Department of Mathematics

COURSES

The student has passed the following courses in partial fulfillment of requirement for M. Sc. degree:

1. Quantum Theory.	3h per week
2. Complex Analysis.	3h per week
3. Numerical Analysis.	3h per week
4. Writing Scientific Research.	3h per week
5. Partial Differential Equations.	3h per week
6. Relativity Quantum mechanics .	3h per week
7. Computational Methods in Applied Mathematics.	3h per week
8. Ethics of Scientific Research.	3h per week

Head of Mathematics Department

Dedicated to

To my paradise, happiness and the closest to my heart, my father and my mother, they were help and support for me, and their blessed supplications had the greatest influence on my reaching this stage.

To my dear sisters, may Allah grant them success in their academic journey.

To everyone who taught me a letter, word, or sentence that increased my educational achievement.

I dedicate to you the result of my effort.

May , 2021..... *ESRAA. S. ELKHOULY*

Acknowledgment

In the beginning, all praises and gratitude be to Allah the most merciful, who granted me the blessings and gave me the ability to complete this thesis.

I would love to thank my beloved father and precious mother, who supported and encouraged me to complete my study. Thanks for making everything possible, and thanks for your patience, prayers and understanding of everything that I have been through the graduate program.

I would like to take this opportunity to thank all those who helped me, and contributed in many different ways.

To begin with, special and great thanks go to **Prof. Abdel-Shafy Fahmy Obada**, department of mathematics, faculty of science, Al-Azhar university, for his precious advice, comments, constant support during my research and the process of thesis. I am grateful to him for introducing me to the scientific world and gave me splendid knowledge.

Heartfelt thanks to it is rather fitting to acknowledge someone without whom this wouldn't have been possible. These are my supervisors **Prof. Mohamed Mohamed Ali Ahmed** and **Prof.**

Abdel-Hameed Abdel-Raheem Eied, department of mathematics, faculty of science, Al-Azhar university, for suggesting the investigation culminating to this thesis. It has been a pleasure to work with them, his expertise and guidance have proven invaluable. That helped me to make the journey of the last five years very worthwhile indeed. Without them assistance, valuable discussions and critical reading of the manuscript, this work could not have been accomplished. I would like to thank them for there excellent supervision of my master degree, introducing me into this interesting field. they taught me a lot in the branch of my study and show me the way how the problems could be solved.

I would like to express my appreciation and thanks to my advisor **Prof. Safaa Sadik Beshay**, department of mathematics, faculty of woman for arts, science, and education, Ain Shams university. He is highly appreciated and never refused my requests for the discussion. I was all the time fully satisfied with his method of teaching me and pushing me ahead.

Furthermore, I would like to express my thanks to all members of department of mathematics, faculty of woman for arts, science, and education , Ain Shams university for their constant help.

May , 2021..... *ESRAA. S. ELKHOULY*
