**MONA MAGHRABY**

# **The Role of Diffusion Weighted MRI in Differentiation of Intra-axial Cystic Brain Lesions**

*Thesis*

Submitted for Partial Fulfilment of  
Master Degree in **Diagnostic Radiology**

*By*

***Amna Abdulwahhab Hayder***

*M.B.B.Ch. Basrah University-Iraq*

*Under Supervision of*

**Prof. Dr. Yasser Abd El Azim**

*Professor of Diagnostic Radiology  
Faculty of Medicine, Ain Shams University*

**Dr. Eman Ahmed Fouad Darwish**

*Lecturer of Diagnostic Radiology  
Faculty of Medicine, Ain Shams University*

*Faculty of Medicine  
Ain Shams University*

**2021**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالَ

لَسْبَدَانِكَ لَا عِلْمَ لَنَا  
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ  
الْعَلِيمُ الْعَظِيمُ

صدق الله العظيم

سورة البقرة الآية: ٣٢

# Acknowledgments

*First and foremost, I feel always indebted to **Allah** the Most Beneficent and Merciful.*

*I wish to express my deepest thanks, gratitude and appreciation to **Prof. Dr. Yasser Abd El Azim**, Professor of Diagnostic Radiology, Faculty of Medicine, Ain Shams University, for his meticulous supervision, kind guidance, valuable instructions and generous help.*

*Special thanks are due to **Dr. Eman Ahmed Fouad Darwish**, Lecturer of Diagnostic Radiology, Faculty of Medicine, Ain Shams University, for her sincere efforts, fruitful encouragement.*

*I would like to express my hearty thanks to all my family for their support till this work was completed.*

**Amna Abdulwahhab Hayder**

# List of Tables

Table No.	Title	Page No.
<b>Table 1:</b>	The signal intensities of brain tissue on T1WI and T2WI .....	36
<b>Table 2:</b>	Classification of cysts .....	43
<b>Table 3:</b>	Key characteristics of IDH-wildtype and IDH-mutant glioblastomas .....	45
<b>Table 4:</b>	Descriptive data of whole study population age.....	82
<b>Table 5:</b>	Number and percent of whole study population sex.....	82
<b>Table 6:</b>	Descriptive data of the size of all SOL.....	84
<b>Table 7:</b>	Descriptive data of ADC value in the whole study SOL. ....	84
<b>Table 8:</b>	Description of patients age among abscess and other malignant lesions. ....	85
<b>Table 9:</b>	Description of lesions size among abscess and other malignant lesions. ....	86
<b>Table 10:</b>	Description of quantitative ADC and NADC value among abscess and all malignant lesions in the lesion center (C ADC & C NADC). ....	91
<b>Table 11:</b>	Description of quantitative ADC and NADC value among abscess and all malignant lesions in the lesion wall (W ADC & W NADC).....	92
<b>Table 12:</b>	Description of quantitative ADC and NADC value among abscess and all malignant lesions in the peri-lesion edema (E ADC & E NADC). ....	92
<b>Table 13:</b>	Description of quantitative NWM ADC value among abscess and all malignant patients (NWM ADC). ....	93

# List of Tables *cont...*

Table No.	Title	Page No.
<b>Table 14:</b>	The cut off value, sensitivities, specificities, positive predictive values (PPV) and negative predictive values (NPV) of the cut off values of the ADC and NADC in SOL center for the differentiation of the abscess from malignant group.....	93
<b>Table 15:</b>	Composition between the AUC of C-ADC and C-NADC ROC curve .....	95
<b>Table 16:</b>	Descriptive data of different SOL size .....	97
<b>Table 17:</b>	Significant Post hoc test* between GBM and Mets size.....	98
<b>Table 18:</b>	Description of C ADC value among all SOL lesions.....	102
<b>Table 19:</b>	Significant Post hoc test* between GBM and lymphoma.....	102
<b>Table 20:</b>	Description of W ADC value among all SOL lesions.....	103
<b>Table 21:</b>	Significant Post hoc test* between Mets and lymphoma.....	103
<b>Table 22:</b>	Description of C NADC value among all SOL lesions.....	104
<b>Table 23:</b>	Significant Post hoc test* between GBM and lymphoma.....	104
<b>Table 24:</b>	Description of E ADC value among all SOL lesions.....	105
<b>Table 25:</b>	Description of E NADC value among all SOL lesions.....	105

# List of Tables *cont...*

Table No.	Title	Page No.
<b>Table 26:</b>	Description of NWM ADC quantitative value among all SOL patients.....	106
<b>Table 27:</b>	The cut off value, sensitivities, specificities, positive predictive values (PPV) and negative predictive values (NPV) of the cut off values of the ADC and NADC in SOL center for the differentiation of GBM and lymphoma.....	106
<b>Table 28:</b>	Composition between the AUC of C ADC and C NADC ROC curve for GBM and lymphoma lesions.....	107
<b>Table 29:</b>	The cut off value, sensitivity, specificity, positive predictive value (PPV) and negative predictive value (NPV) of the SOL wall ADC cut off value for the differentiation of metastasis and lymphoma .....	108

# List of Figures

Fig. No.	Title	Page No.
<b>Figure 1:</b>	Calvaria .....	5
<b>Figure 2:</b>	Superior view of the skull .....	6
<b>Figure 3:</b>	Cranial meninges, superior coronal view .....	7
<b>Figure 4:</b>	The dural folds.....	9
<b>Figure 5:</b>	Mid sagittal diagram showing brain cisterns.....	11
<b>Figure 6:</b>	Cerebral hemisphere lobes.....	13
<b>Figure 7:</b>	Diagram depicting the lateral aspect of the different lobes of the brain and their respective gyri.....	15
<b>Figure 8:</b>	Diagram showing the different types of white matter tracts in the coronal view .....	17
<b>Figure 9:</b>	Horizontal section of the brain exposing the basal ganglia .....	18
<b>Figure 10:</b>	Brain ventricles, lateral and midsagittal views.....	20
<b>Figure 11:</b>	Diencephalon and it's relations to surrounding structures .....	22
<b>Figure 12:</b>	Diagram showing the boundaries of the hypothalamus and its relations .....	23
<b>Figure 13:</b>	Diagram showing the pineal gland and its important relations .....	24
<b>Figure 14:</b>	Diagrammatic representation of the cerebellum and its connections to the brainstem .....	25
<b>Figure 15:</b>	Diagrammatic representation of brain stem and associated cranial nerves .....	26
<b>Figure 16:</b>	The image showing the three major cerebral artery territories fitting together like a jigsaw puzzle as they supply the hemispheres.....	28
<b>Figure 17:</b>	The image showing the penetrating artery territories in axial planes.....	28

# List of Figures cont...

Fig. No.	Title	Page No.
<b>Figure 18:</b>	Normal Anatomy of the cerebral venous system .....	33
<b>Figure 19:</b>	Diagram of 4 axial slices depicting typical venous drainage patterns of the different areas of the brain.....	33
<b>Figure 20:</b>	Diagram representing the main posterior fossa veins .....	34
<b>Figure 21:</b>	Axial T2WI of the brain at the level of the corona radiate .....	36
<b>Figure 22:</b>	Axial T2WI of the brain at the level of the basal ganglia.....	37
<b>Figure 23:</b>	Axial T2WI of the brain at the level of the cerebral peduncles .....	37
<b>Figure 24:</b>	Axial T2WI of the brain at the level of the pons .....	38
<b>Figure 25:</b>	Coronal T2 MRI at level of third ventricle .....	38
<b>Figure 26:</b>	Annotated Mid-Sagittal T2WI of the brain showing both supra and infratentorial structures.....	39
<b>Figure 27:</b>	Normal adult brain of 40-years-old male without neurological deficits .....	40
<b>Figure 28:</b>	Cystic changes in the choroid plexus.....	41
<b>Figure 29:</b>	Schematic illustration shows water molecule movement .....	63
<b>Figure 30:</b>	Simplified pulse diagram of a spin-echo diffusion-weighted image sequence .....	65
<b>Figure 31:</b>	Pulse sequence diagrams illustrate how a diffusion-weighted sequence incorporates two symmetric motion-probing gradient pulses into a single-shot SE T2-weighted sequence .....	66
<b>Figure 32:</b>	Brain DWI images using 3 different b-values (0, 1000, and 3000 s/mm <sup>2</sup> ).....	67

# List of Figures cont...

Fig. No.	Title	Page No.
<b>Figure 33:</b>	T2 shine-through in a 35-year-old female with multiple sclerosis and weakness of the lower extremities .....	73
<b>Figure 34:</b>	T2 washout in a 45-year-old female with hypertension, seizures and posterior reversible encephalopathy syndrome .....	74
<b>Figure 35:</b>	T2 blackout from susceptibility artifacts in acute hemorrhage (deoxyhemoglobin and intracellular met-hemoglobin) in a 74-year-old male with left-sided weakness .....	75
<b>Figure 36:</b>	Susceptibility artifact .....	76
<b>Figure 37:</b>	Pie chart showing the percent of males and females in this study. ....	83
<b>Figure 38:</b>	Pie chart showing the percent of SOL in this study. ....	83
<b>Figure 39:</b>	Bar chart showing the number of males and females among abscess and malignant lesions. ....	86
<b>Figure 40:</b>	Bar chart showing the distribution of W DWI QL signal intensity among abscess and all malignant lesions. ....	87
<b>Figure 41:</b>	Bar chart showing the distribution of C ADC QL signal intensity among abscess and all malignant lesions. ....	88
<b>Figure 42:</b>	Bar chart showing the distribution of C DWI QL signal intensity among abscess and all malignant lesions. ....	88
<b>Figure 43:</b>	Bar chart showing the distribution of W ADC QL signal intensity among abscess and all malignant lesions. ....	89
<b>Figure 44:</b>	Bar chart showing the distribution of E DWI QL signal intensity among abscess and all malignant lesions. ....	90
