Cardiovascular Manifestations of Behçet Disease among Egyptian Patients

Thesis

Submitted for Partial Fulfillment
of Master Degree in **Internal Medicine**

By

Bassant Megahed Ibrahim Hassanin
M.B.B.Ch

Under Supervision of

Prof. Dr. Dalia Fayez Mohammed

*Professor of Internal Medicine & Rheumatology
Faculty of Medicine, Ain Shams University*

Ass. Prof. Dr. Nashwa Aly El-morshedy

*Assistant Professor of Internal Medicine & Rheumatology
Faculty of Medicine, Ain Shams University*

Dr. Mohamed Abdelmoneam Teama

*Lecturer of Internal Medicine & Rheumatology
Faculty of Medicine, Ain Shams University*

Faculty of Medicine - Ain Shams University
2020

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالَ

سُبْحَانَكَ لَا عِلْمَ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْعَظِيمُ

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgments

First and foremost, I feel always indebted to Allah the Most Beneficent and Merciful.

I wish to express my deepest thanks, gratitude and appreciation to Prof. Dr. Dalia Fayez Mohammed, Professor of Internal Medicine & Rheumatology, Faculty of Medicine, Ain Shams University, for her meticulous supervision, kind guidance, valuable instructions and generous help.

Special thanks are due to Prof. Dr. Nashwa Aly El-morshedy, Assistant Professor of Internal Medicine & Rheumatology, Faculty of Medicine, Ain Shams University, for her sincere efforts, fruitful encouragement.

I am deeply thankful to Dr. Mohamed Abdelmoneam Teama, Lecturer of Internal Medicine & Rheumatology, Faculty of Medicine, Ain Shams University, for his great help, outstanding support, active participation and guidance.

I would like to express my hearty thanks to all my family and friends for their support till this work was completed.

Bassant Megahed Ibrahim Hassanin

List of Contents

Title	Page No.
List of Tables.....	5
List of Figures	8
List of Abbreviations.....	12
Introduction	- 1 -
Aim of the Work	3
Review of Literature	
▪ Behçet's Disease	4
▪ Cardiovascular Manifestation of Behcet's Disease	61
Patients and Methods.....	95
Results.....	102
Discussion	138
Summary and Conclusion	149
References	153
Arabic Summary	

List of Tables

Table No.	Title	Page No.
Table (1):	The distribution of clinical findings among different countries	10
Table (2):	The international criteria for Behcet's disease.....	29
Table (3):	Updated European League against Rheumatism recommendations for the management of Behçet's syndrome	55
Table (4):	Treatment of major vessel disease in Behcet's disease	92
Table (5):	The international criteria for behcet's disease.....	95
Table (6):	Behçet's Disease Current Activity Form	97
Table (7):	BDCAF score	98
Table (8):	Distribution of demographic data among studied behcet's patients.....	102
Table (9):	Distribution of cumulative clinical data among the studied behcet's patients according to international study group (ISG) criteria	104
Table (10):	Distribution of Behcet Disease Current Activity Form (BDCAF) score among studied behcet patient.	106
Table (11):	Distribution of cardiovascular manifestations in studied behcet's patients.....	107
Table (12):	Distribution of Laboratory investigations in our studied behcet's patients	108
Table (13):	Distribution of lipid profile among studied behcet's patients	109

List of Tables cont...

Table No.	Title	Page No.
Table (14):	Distribution of ECG findings in our studied behcet's patients	111
Table (15):	Distribution of Echo findings among studied behcet's patients	112
Table (16):	Distribution of carotid artery duplex findings among studied behcet's patients	115
Table (17):	Distribution of most common used immunosuppressive drugs among studied behcet's patients.	116
Table (18):	Correlation between Disease activity (BDCAF score) and laboratory findings (TLC,Hb,PLT,ESR,CRP)	118
Table (19):	Relation of Disease activity (BDCAF score) and cardiovascular findings in ECG, ECHO and Carotid duplex and lipid profile in our studied patients.....	119
Table (20):	Correlation between BDCAF (disease activity) and lipid profile, carotid duplex and echo findings	122
Table (21):	Relation between lipid profile and ECG, echo, carotid duplex findings in our studied patients	123
Table (22):	Correlation between lipid profile parameters and carotid intimal thickening and other echo parameters	124
Table (23):	Relation between anterior uveitis and ECG, ECHO, Carotid duplex findings, venous and arterial vascular affection in our studied behcet's patients	129

List of Tables cont...

Table No.	Title	Page No.
Table (24):	Relation between posterior uveitis and ECG, ECHO, carotid duplex, vascular arterial and venous affection in our study group	131
Table (25):	Relation between genital ulcers and ECG, ECHO and carotid duplex findings, vascular arterial and venous affection in our studied behcet's patients	133
Table (26):	Relation between skin lesions and ECG, Echo, carotid duplex findings, vascular arterial and venous affection in our studied behcet's patients	134
Table (27):	Relation between neurological manifestations and ECG, ECHO, carotid duplex findings, vascular arterial and venous affection in our studied behcet's patients.....	135
Table (28):	Relation between pathergy test and ECG, ECHO, carotid duplex findings , vascular arterial and venous affection in our studied behcet's patients.....	136
Table (29):	Relation between lipid profile and different clinical data of ISG criteria.....	137

List of Figures

Fig. No.	Title	Page No.
Figure (1):	The role of autoimmune T cells and cytokines in the pathogenesis of Behcet's disease.....	8
Figure (2):	Interaction between multiple factors in Behcet's disease.....	9
Figure (3):	Oral ulcers Behcet's disease	13
Figure (4):	Genital ulcers Behcet's disease.....	14
Figure (5):	Mucocutaneous lesions of Behcet's disease	17
Figure (6):	A person with hypopyon which can be seen in anterior uveitis in a person with Behcet's disease	21
Figure (7):	A. Vitreous involvement with severe diffuse vitritis. B. Inferior preretinal "string of pearls" vitreous exudates tending to accumulate along the posterior edge of the vitreous base	21
Figure (8):	A. Fundus photograph. B. Fluorescein angiography of the same patient one month after initial examination	35
Figure (9):	Pulmonary angiography shows a huge pulmonary artery aneurysm	37
Figure (10):	Coronal T2 images of a patient showing the pontine-midbrain lesion extending upwards on both sides.....	38
Figure (11):	Comparison between intestinal Behcet Disease and Crohn's Disease	40
Figure (12):	Pathergy Test	42
Figure (13):	Pathergy reaction	42

List of Figures cont...

Fig. No.	Title	Page No.
Figure (14):	Thrombosis is a result of multifactorial derangements in systemic inflammation, fibrinolysis, and the endothelium.....	64
Figure (15):	Neck, thoracic, and abdominal collaterals in a BD patient with long-standing vena cava superior thrombosis	77
Figure (16):	Post-thrombotic syndrome (chronic venous insufficiency)	78
Figure (17):	Aortography shows a huge aneurysm of ascending aorta	81
Figure (18):	Multislice CT scan shows a large pseudoaneurysm of aortic arch	82
Figure (19):	MRI scan discloses multiple pulmonary artery aneurysms (arrow) on the descending pulmonary arteries of the right lower lobe in a patient with BD.....	85
Figure (20):	MRI scan shows pulmonary artery thrombosis on the descending branch of the right pulmonary artery in a patient with BD (arrow).....	85
Figure (21):	Transthoracic echocardiography in the parasternal short-axis view shows a thrombus (arrow) in the right ventricle attached to the interventricular septum.	87
Figure (22):	Contrast-enhanced pulmonary CT angiography shows acute embolus filling and mildly enlarging the right middle lobe artery (arrow).	89

List of Figures cont...

Fig. No.	Title	Page No.
Figure (23):	Thorax CT scan shows multiple ground glass lesions compatible with hemorrhage in a BD patient with pulmonary artery involvement	89
Figure (24):	Sex distribution among studied behcet 's patients.....	103
Figure (25):	Distribution of cumulative clinical data among studied behcet patients according to international study group (ISG).	105
Figure (26):	Distribution of lipid profile in our studied behcet's patients.	110
Figure (27):	Distribution of different parameters of lipid profile among studied behcet's patients.....	110
Figure (28):	ECG changes among patients.....	111
Figure (29):	Distribution of Valvular affection among our studied patients	114
Figure (30):	Distribution of Diastolic Dysfunction and intracardiac masses among our studied behcet patients.	114
Figure (31):	Distribution of carotid artery duplex findings in our studied patients.....	115
Figure (32):	Distribution of most common used immunosuppressive drugs among our studied behcet's patients.....	117
Figure (33):	Increased incidence of Mitral Regurge with disease activity.....	120
