Synthesis and Reactions of some heterocyclic compounds and studying their behavior towards electrophilic and nucleophilic reagents

Thesis Submitted by

Mohammed Gamal Mohammed Mahmoud

B.Sc. Chemistry 2013

M.Sc. Chemistry 2018

For the requirement of Ph.D. Degree of Science in Chemistry

Thesis Advisors

Prof. Dr. Maher A. El-Hashash

Professor of Organic Chemistry (D.Sc), Faculty of Science, Ain Shams University

Prof. Dr. Sameh A. Rizk

Professor of Organic Chemistry, Faculty of Science, Ain Shams University

Dr. Abeer M. El-Naggar

Assistant Professor of Organic Chemistry, Faculty of Science, Ain Shams University

Dr. Azza Ahmed El-Sayed El-Badawy

Doctor of Organic Chemistry, Faculty of Science, Ain Shams University

To
Department of chemistry-Faculty of Science
Ain Shams University
Cairo, Egypt

Approval Sheet for Submission

Title of Ph.D. Thesis

**Synthesis and Reactions of some heterocyclic compounds and
studying their behavior towards electrophilic and nucleophilic**

Presented by

Mohammed Gamal Mohammed Mahmoud

B.Sc. Chemistry 2013 - M.Sc. Chemistry 2018

Examiner committee

Thesis Referee

Prof. Dr. Maher A. El-Hashash

Professor of Organic Chemistry (D.Sc),

Faculty of Science, Ain Shams University

Prof. Dr. Sameh A. Rizk

Professor of Organic Chemistry,

Faculty of Science, Ain Shams University

Prof. Dr. Elsayed Hussein Eltamany

Professor of Organic Chemistry,

Faculty of Science, Suez Channel University

Prof. Dr. Abdelfattah Zakaria Hekal

Professor of Organic Chemistry, Zagazig University

Thesis Approval

Head of Chemistry department

Prof. Dr. Ayman Ayoub Abdel-Shafi

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْحَكِيمُ

صدق الله العظيم

سورة البقرة - الآية (32)

Acknowledgement

First, I thank my Godness for giving me health to complete this work, also I would like to express my deep appreciation and sincere gratitude to my supervisor **Prof. Dr. Maher A. El-Hashash** for suggesting this project, valuable guidance, support, making the chemicals available and his .encouragement during the development of this project

I would like also to thank **Dr. Sameh A. Rizk** Professor of Organic Chemistry, Faculty of Science, Ain Shams University, for his interest, encouragement, support, valuable guidance during all stages of this work and follow up the progress of the work with keen interest and that has borne a lot of burden to do this work.

I wish to thank **Dr. Abeer A. El-Naggar** and **Dr. Azza Ahmed El-Sayed El-Badawy** for their kind attention, moral support, valuable advice, guidance, assistance, help and supervision.

My deep thanks to **my father, mother, brother, sisters, my wife** and **my family** for their encouragement, Their patience, prayers and support while this work in progress to be always the best one.

My deep appreciation to **collage of our lab.** for their assistance during the whole periods of research.

Mohammed Gamal Mohammed Mahmoud

Abstract

Summary

Aim of the work

CHAPTER ONE- INTRODUCTION

No.	Title	Page
Part I	Synthesis of (4H)-3,1-benzoxazin-4-one derivatives	3
1.1	From Anthranilic Acid derivatives	3
1.1.1	Via the action of acid anhydrides on anthranilic acid	4
1.1.2	Via the action of aromatic carboxylic acid on anthranilic acid	5
1.1.3	Via the reaction of acid chlorides with anthranilic acid	6
1.1.4	Synthesis of Bis(4H)-3,1-benzoxazin-4-one derivatives	11
1.1.5	From the interaction of anthranilic acid with heterocyclic compounds (oxazolone derivatives)	12
1.1.6	From substituted coumarin	14
1.2	From N-acyl Anthranilic Acids	15
1.3	From Isocyanate Derivatives	15
	Reactions of 4H-3,1-BENZOXAZIN-4-ONES	17
2.1	Reactions at the 2- position	17-19

2.2	<i>Reactions with carbon nucleophiles</i>	18
2.3	<i>Reactions with nitrogen nucleophiles</i>	20
2.3.1	<i>With ammonia and aliphatic amines</i>	20
2.3.2	<i>Reaction with primary aromatic amines</i>	23
2.3.3	<i>Reaction with diamines</i>	25
2.3.4	<i>Reaction with ethanol amine and its derivatives</i>	26
2.3.5	<i>Reaction with hydroxylamine hydrochloride</i>	26
2.3.6	<i>Reaction with amino acids</i>	26
2.3.7	<i>Reaction with hydrazine hydrate</i>	27
2.3.8	<i>Reaction with semicarbazide</i>	29
2.3.9	<i>Reaction with thiosemicarbazide</i>	29
2.6	<i>Reaction with Sodium Azide</i>	30
2.8	<i>Reaction with Sulphur Nucleophiles</i>	30
Part II	<i>Synthesis of 4(3H)-quinazolinone derivatives</i>	31
3.1	<i>Via benzoxazinone intermediate</i>	31
3.2	<i>From anthranilic acid</i>	32
3.3	<i>From anthranilamide</i>	34
3.4	<i>From methylantranilate</i>	36
3.5	<i>From one-pot method</i>	38
	<i>Reactions of 4(3H)-quinazolinone derivatives</i>	
Part III	<i>Biological Activity</i>	50
