MONA MAGHRABY

Ain Shams University
Faculty of Medicine
Internal Medicine and Gastroenterology
and Hepatology Department

The Role of Calgranulin C as a Non-Invasive Marker for Inflammatory Bowel Disease

Thesis

*Submitted for Partial Fulfilment of Master Degree in
Gastroenterology and Hepatology*

By

Mohamed Fayez Mohamed Ismael

M.B.,B.Ch., Faculty of Medicine Tanta University

Under supervision of

Prof. Dr. Noha Abd El Razek El Nakeeb

*Professor of Internal Medicine & Gastroenterology
Faculty of Medicine – Ain Shams University*

Assist. Prof. Dr. Hossam Samir Elbaz

*Assistant Professor of Internal Medicine & Gastroenterology
Faculty of Medicine – Ain Shams University*

Assist. Prof. Dr. Hany Samir Rasmy

*Assistant Professor of Internal Medicine & Gastroenterology
Faculty of Medicine – Ain Shams University*

*Faculty of Medicine
Ain Shams University
2021*

Acknowledgment

*First and foremost, I feel always indebted to **ALLAH**,
the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound
gratitude to **Prof. Dr. Noha Abd El Razek El Nakeeb**,
Professor of Internal Medicine & Gastroenterology, Faculty of
Medicine – Ain Shams University for her keen guidance, kind
supervision, valuable advice and continuous encouragement,
which made possible the completion of this work.*

*I am also delighted to express my deepest gratitude and
thanks to **Assist. Prof. Dr. Hossam Samir Elbaz**, Assistant
Professor of Internal Medicine & Gastroenterology, Faculty of
Medicine – Ain Shams University, for his kind care, continuous
supervision, valuable instructions, constant help and great
assistance throughout this work.*

*I am deeply thankful to **Assist. Prof. Dr. Hany Samir
Rasmy**, Assistant Professor of Internal Medicine &
Gastroenterology, Faculty of Medicine – Ain Shams University,
for his great help, active participation and guidance.*

Mohamed Fayed

List of Contents

Title	Page No.
List of Abbreviations.....	i
List of Tables	v
List of Figures	viii
Introduction	1
Aim of the Work.....	6
Review of Literature	
Inflammatory Bowel Disease.....	7
Non Invasive Markers of Inflammatory Bowel Disease..	59
Calgranulin-C (S100a12)	77
Patients and Methods.....	88
Results	98
Discussion	145
Summary	168
Conclusion	172
Recommendations	173
References	174
Arabic Summary	—

List of Abbreviations

Abb.	Full term
5-ASA.....	5-aminosalicylic acid
6- MP	6-mercaptopurine
a4b7	Human Integrin alpha 4 beta 7
ACCA.....	Anti chitobioside carbohydrate IgA
ACG-UCAI	American College of Gastroenterology Ulcerative Colitis Activity Index
ADAs.....	Antidrug antibodies
AE DM-ILD	Acute exacerbation of dermatomyositis- associated interstitial lung disease
AGA	American Gastroenterological Association
AGE	Advanced glycation endproducts
ALCA.....	Anti laminaribioside carbohydrate IgG
ALT.....	Alanine aminotransferase
ANCAs.....	Anti-neutrophil cytoplasmic antibodies
Anti-OmpC	Antibodies to outer membrane porin
AST	Aspartate aminotransferase
AZA.....	Azathioprine
ΑΣMA.....	Anti-synthetic mannoside antibodies
CAI.....	Colitis activity index
CARD15.....	Caspase recruitment domain-containing protein 15
CBC	Complete blood count
CD.....	Crohn's disease
CD4.....	Cluster of differentiation
CD41.....	Cluster of differentiation 41
CD81.....	Cluster of differentiation 81
CDAI.....	Crohn's Disease Activity Index
cIMT	Carotid intima-media thickness
CRP.....	C-reactive protein
CTE.....	Computed tomography enterography
ELISA.....	Enzyme-Linked Immunosorbent Assay
EN-RAGE	Extracellular newly identified RAGE binding protein

List of Abbreviations Cont...

Abb.	Full term
ESR.....	Erythrocyte sedimentation rate
FaB	Antigen-binding fragment
FC	Fecal calprotectin
FDA	Food and Drug Administration
FL	Lactoferrin
FLA2.....	Fasciclin-like arabinogalactan protein 2
FMF.....	Familial Mediterranean fever
GI.....	Gastroenterology
HAPCs.....	High-amplitude propagated contractions
HC.....	Healthy control
IBD	Inflammatory bowel disease
IBDU	Inflammatory bowel disease-unclassified
IBS- C	Irritable bowel syndrome constipation type
IBS –D	Irritable bowel syndrome diarrhea type
IBS- M	Irritable bowel syndrome mixed type
IBS.....	Irritable bowel syndrome
IDO1	Indoleamine 2, 3-dioxygenase 1
IgG	Immunoglobulin G
IL- 6	Interleukin-6
IL-12	Interleukin 12
IL-1b	Interleukin-1 beta
IL-23	Interleukin-23
IL-4	Interleukin 4
IL-5	Interleukin 5
IL-7	Interleukin-7
IV	Intravenous
KD.....	Kawasaki's disease
LDL.....	Low density lipoproteins
M2-PK	Pyruvate kinase isoenzyme type M2
MAP.....	Mycobacterium avium subspecies paratuberculosis
MDP.....	Moray dipeptide
MES.....	Mayo endoscopic scoring

List of Abbreviations Cont...

Abb.	Full term
MP	6-mercaptopurine
MPO-ANCA.....	Myeloperoxidase anti neutrophil cytoplasmic antibodies
MRE.....	Magnetic resonance enterography
MTX.....	Methotrexate
NOD2.....	Nucleotide-binding oligomerization domaincontaining 2
NSAIDs	Nonsteroidal anti-inflammatory drugs
NSAIDs	Non-steroidal anti-inflammatory drugs
p40	Protein subunit of interleukins
P-ASCA.....	Perinuclear anti Saccharomyces cerevisiae antibodies
PD	Peritoneal dialysis
PG	Pyoderma gangrenosum
PLT	Platelets
PML	Progressive multifocal leukoencephalopathy
PMN	Polymorphonuclear neutrophil
PPIs	Proton pump inhibitors
PsA.....	Psoriatic Arthritis
PSC.....	Primary sclerosis cholangitis
RA.....	Rheumatoid Arthritis
RAGE.....	Receptor for advanced glycation endproducts
RANTES.....	Regulated upon Activation, Normal T cell Expressed, and Secreted
RBC	Red blood cells
RCT.....	Randomised controlled trial
ROC-curve	Receiver Operating Characteristic-curve
SA	Seronegative Arthritis
TB	Tuberculosis
Th1.....	Type 1 T helper cells
Th-2	Type 2 T helper cells
TNF- alpha	Tumour necrosis factor alpha
TNF-g	Tumour necrosis factor gamma

List of Abbreviations Cont...

Abb.	Full term
UC.....	Ulcerative colitis
UCEIS	Ulcerative Colitis Endoscopic Index of Severity
VCS.....	Vascular calcification score
WBC	White blood cell

List of Tables

Table No.	Title	Page No.
Table (1):	Montreal Classification of extent of Ulcerative Colitis.....	12
Table (2):	Differential Diagnosis of UC.....	22
Table (3):	American College of Gastroenterology Ulcerative Colitis Activity Index (ACG – UCAI).	26
Table (4):	Mayo Score for the Severity of UC.	27
Table (5):	Montreal Classification of Crohn Disease.	33
Table (6):	Differential diagnosis of ileitis and differential diagnosis of colitis.....	43
Table (7):	Crohn’s Disease Activity Index (CDAI).....	48
Table (8):	Mayo subscore for ulcerative colitis activity	92
Table (9):	Montreal Classification of extent of Ulcerative Colitis.....	92
Table (10):	Ulcerative Colitis Endoscopic Index of Severity.....	93
Table (11):	Comparison between ulcerative colitis and control regarding all laboratory parameters.....	99
Table (12):	Comparison between ulcerative colitis and control regarding fecal calprotectin and serum calgranulin c.	100
Table (13):	Comparison between subgroups of ulcerative colitis defined by extent (montreal classification) E2 (LT sided colitis) and E3 (pancolitis) regarding socio- clinical parameters.....	102
Table (14):	Comparison between subgroups of ulcerative colitis defined by extent (montreal classification) E2 (LT sided colitis) and E3 (pancolitis) regarding all laboratory parameters and calgranulin c.....	104

List of Tables Cont...

Table No.	Title	Page No.
Table (15):	Comparison between subgroups of ulcerative colitis defined by extent (montreal classification) regarding UC activity scoring systems.	106
Table (16):	Comparison between subgroups of ulcerative colitis according to UCEIS regarding laboratory parameters, serum calgranulin c, calprotectin and mayo subscore.	107
Table (17):	Comparison between subgroups of ulcerative colitis according to ACG- UCAI regarding laboratory parameters, serum calgranulin c, calprotectin and mayo subscore.	110
Table (18):	Serum calgranulin c in relation to socio-clinical and laboratory parameters in UC group.	113
Table (19):	Correlation between serum calgranulin c with different parameters among ulcerative colitis patients.	116
Table (20):	ROC curve for Serum calgranulin c in prediction of UC.	118
Table (21):	ROC curve for Serum calgranulin c and Fecal Calprotectin in prediction of activity in UC group depend on UCEIS.	119
Table (22):	ROC curve for Serum calgranulin c and Fecal Calprotectin in prediction of activity in UC patients depend on ACG-UCAI.	121
Table (23):	ROC curve for Serum calgranulin c and Fecal Calprotectin in prediction of luminal bleeding in endoscopy in UC patients.	123
Table (24):	ROC curve for Serum calgranulin c and Fecal Calprotectin in prediction of Erosions and ulcers in endoscopy in UC patients.	125

List of Tables Cont...

Table No.	Title	Page No.
Table (25):	Comparison between UC and CD regarding different laboratory parameters.	127
Table (26):	Comparison between CD and control regarding all laboratory parameters.....	129
Table (27):	Comparison between CD and control regarding Calgranulin c and fecal calprotectin.	130
Table (28):	Comparison between subgroups of Crohn disease defined by extent (montreal classification) regarding socio-clinical parameters.	132
Table (29):	Comparison between subgroups of Crohn disease defined by extent (montreal classification) regarding all laboratory parameters, calgranulin c, fecal calprotectin and CDAI.	133
Table (30):	Comparison between subgroups of Crohns disease according to CDAI regarding all laboratory parameters, calgranulin c, fecal calprotectin.	135
Table (31):	Calgarnulin c in relation to socio- clinical parameters.....	137
Table (32):	Correlation between calgarnulin c and different laboratory parameters, age and CDAI.....	139
Table (33):	ROC curve for Serum calgranulin c and Fecal Calprotectin in prediction of activity of CD regarding CDAI.	141
Table (34):	ROC curve for Serum calgranulin c in prediction of CD.	143
Table (35):	ROC curve for Serum calgranulin c in prediction of IBD.	144
