Cairo University
Faculty of Veterinary Medicine
Branch of Beni-Suef
Department of Poultry Diseases

Studies on the Epidemiological Status of Native and Developed One-Day-Old Chicks to Some Poultry Diseases

Thesis Presented
By

Eman Ramadan Hassan

(B.V.Sc. Faculty of Veterinary Medicine, Cairo University, 1982)

For The Degree of
(M.V.SC) Poultry Diseases

Under
The Supervision of

Prof. Dr. Magdy Fathy Elkady

*Professor and Head of Department of Poultry Diseases
Faculty Of Veterinary Medicine
Cairo University
(Beni-Suef)*

Prof. Dr. Ali Hamed Azzam
*Professor Of Poultry Diseases
Animal Health Research
Institute.
Dokki (Giza)*

Dr. Ismail Abd Elhafeez Radwaan
*Assist. Professor Of Microbiology
Faculty Of Veterinary Medicine
Cairo University
(Beni-Suef)*

2001

B
10510

Cairo University
Faculty of Veterinary Medicine
Department of Poultry Diseases

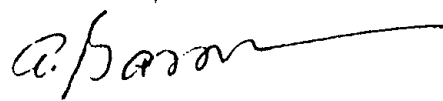

Approval Sheet

Candidate: **Eman Ramadan Hassan.**
Major Field: Poultry Diseases.
Title of Thesis:

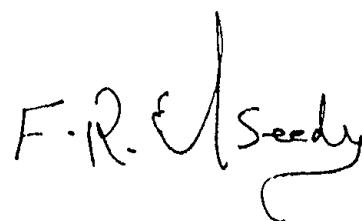

**SOME BACTERIOLOGICAL AND SEROLOGICAL STUDIES ON
ONE DAY OLD CHICKS OF NATIVE AND DEVELOPED CHICKS.**

Approved by Examining Committee:

Prof. Dr./ **Ahmed A. Bassiuni**
Professor of Poultry Diseases
(Cairo University)

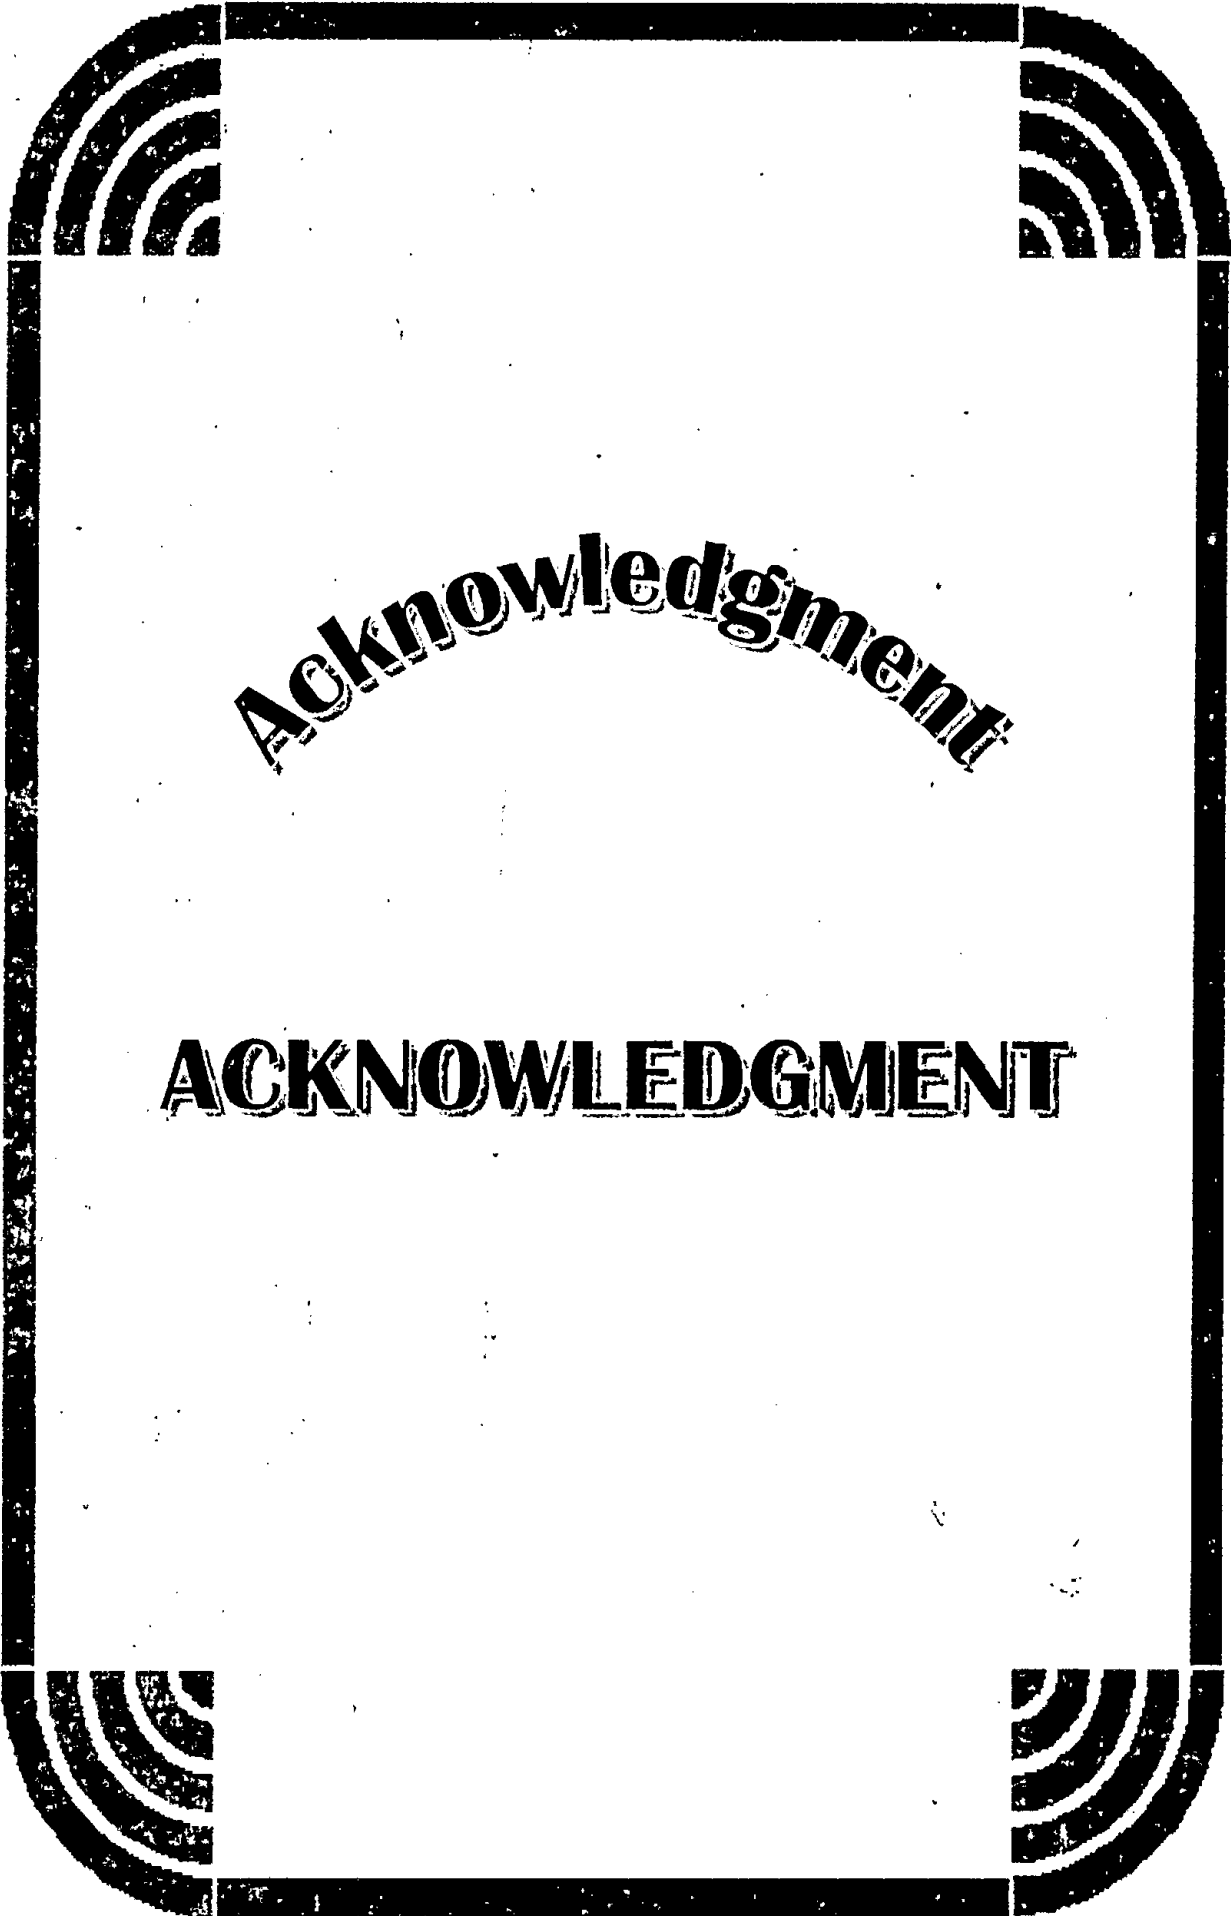

Prof. Dr./ **Fawzy Reyad AlSaiedi**
Professor and Head of Department of Microbiology
Faculty of Veterinary Medicine
Cairo University
(Beni - Suef)

Prof. Dr./ **Magdy Fathy ElKady**
Professor and Head of Department of Poultry Diseases
Faculty of Veterinary Medicine
Cairo University
(Beni - Suef)

Edited on 13/3/2001

ACKNOWLEDGMENT

Acknowledgement

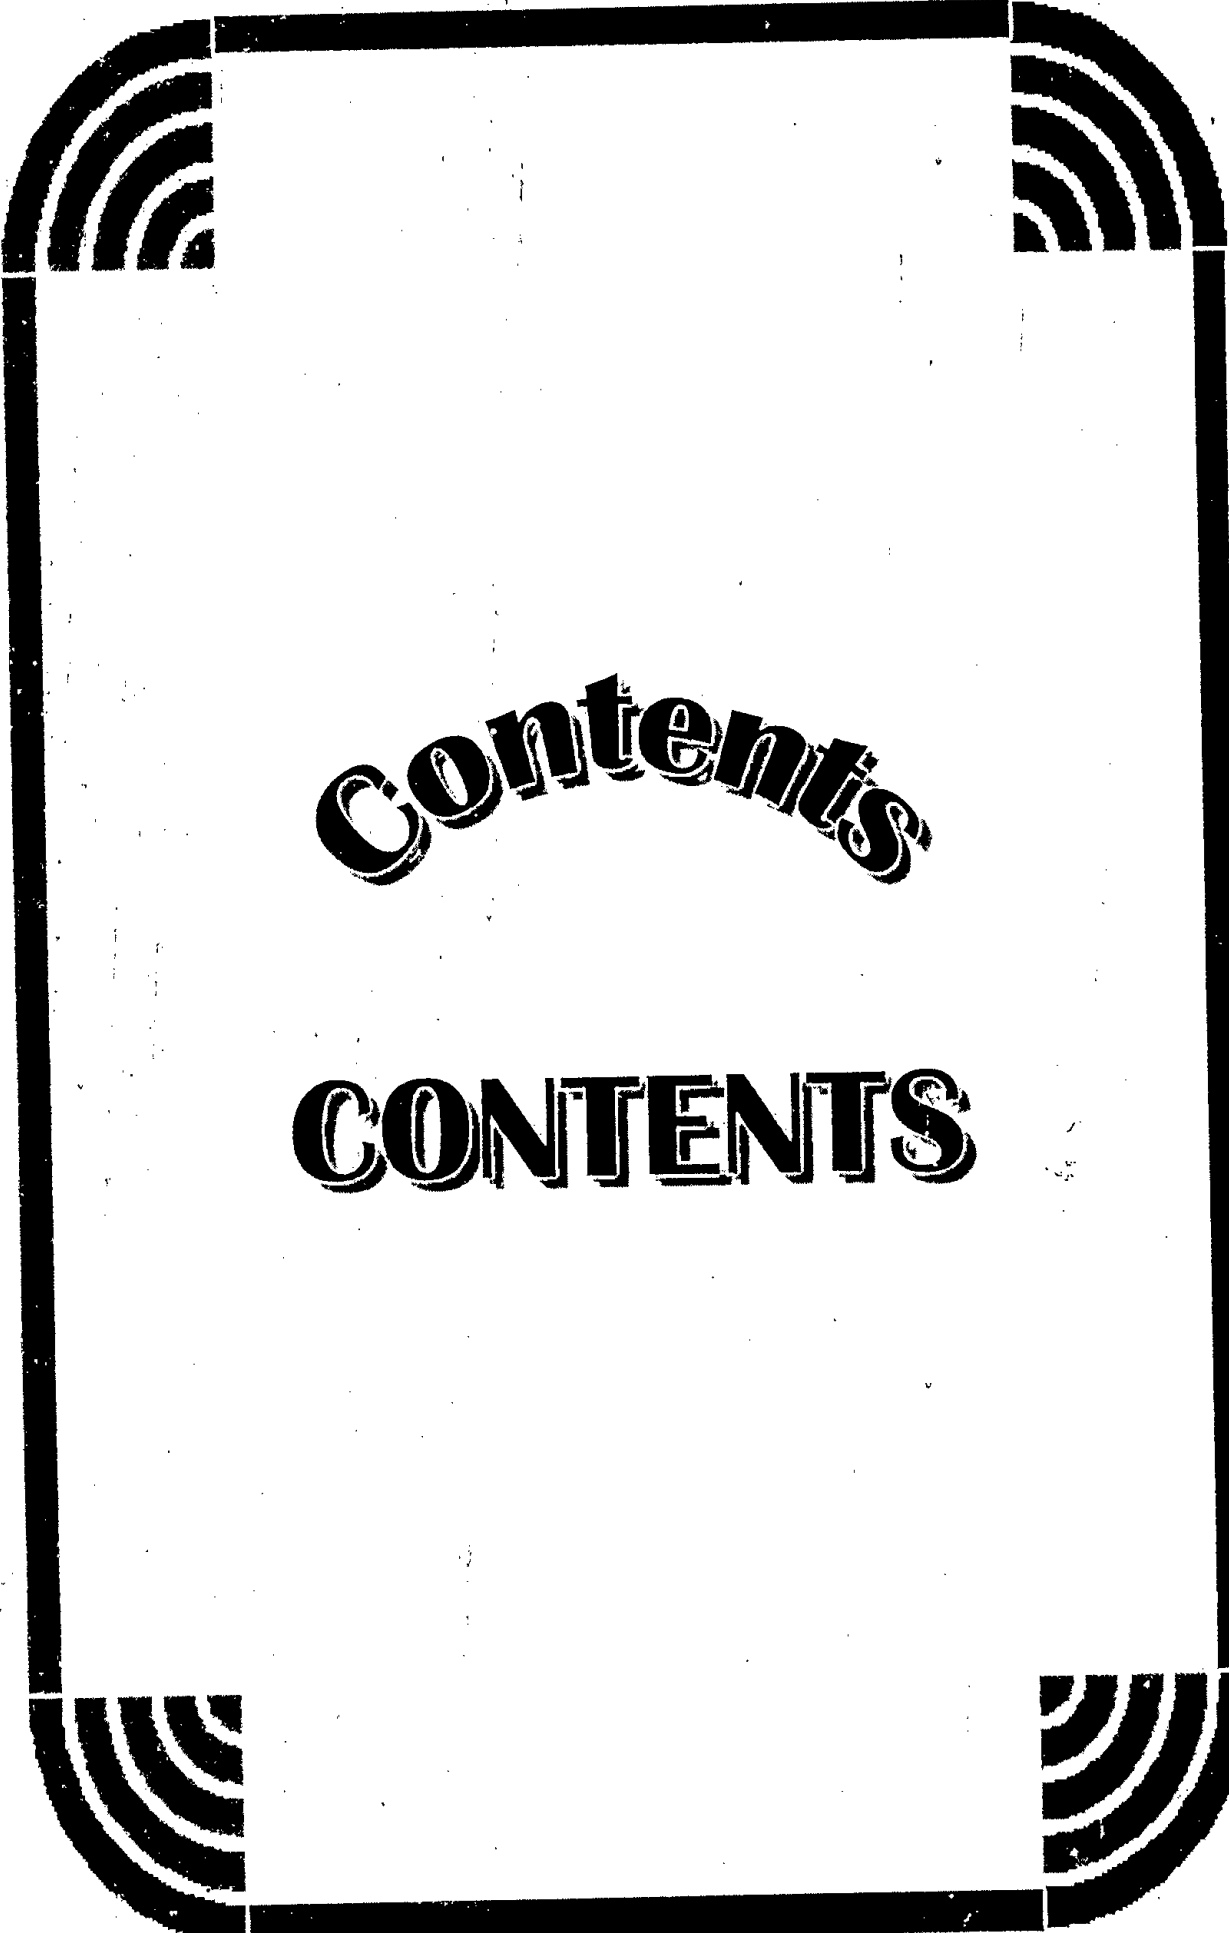

First of all, I am greatly indebted to **Prof. Dr. Magdy F. Elkady**, Professor of Poultry and Rabbit Diseases , Faculty of Veterinary Medicine, Cairo University (Beni-suef Branch), under whose supervision, guidance and criticism the present work was carried out and for his encouragement and interest in this investigation, moreover, he gave me the moral example of what a university staff should be.

My sincere thanks and gratitude to **Prof. Dr. Ali H. Azzam**, Professor of Poultry Diseases, Animal Health Research Institute. Dokki for his supervision, critical advice and keen guidance .

My sincere thanks and deep grateful to **Dr. Ismail Abd El-Hafeez Radwan** Assist. Prof. of Microbiology, Faculty of Veterinary Medicine, Cairo University (Beni-seuf Branch) for his kind supervision valuable helps, guidance's and advices.

It gives me a great pleasure to express my limitless thanks and great gratitude to **Prof. Dr. Nabil A Hataba**, Professor of Animal Production Research Institute, for his kind help and providing me with all facilities to perform this work and for his general support.

Also any keen and best thanks to Poultry Project, Fayoum and **Eng. Ahmed M. Abu El-Ella** the head of the hatchery for his kind instructions generous co-operation and facilities offered to me during this work.

3.1.6- Biological materials.....	42
3.1.7- Reagents used in biochemical tests.....	42
3.1.8- Diagnostic antisera.....	42
3.1.8.1- Salmonella antisera.....	
3.1.8.2- <i>Escherichia coli</i> antisera.....	
<u>3.2- Methods.</u>	44
3.2.1- Collection of samples.....	44
3.2.2- Identification of the isolates	46
3.2.3- Identification of anaerobic Gram negative bacilli.....	47
3.2.3.1- Gram-positive non-sporulated rods.....	
3.2.3.2- Gram positive cocci.....	
3.2.3.3- Elisa for detecting antibody titers.....	
<u>4- Results.</u>	51
4.1- Incidence and frequency of micro-organisms isolated from fayoumy chick Samples.....	51
4.1.1- One-dayold chicks.....	

4.1.2- Infertile eggs.....	
4.1.3- Dead embryos in shells.....	
4.1.4- Environmental samples.....	
4.2- Bacterial isolates obtained from Dan danrawy chick samples.....	53
4.2.1-Microorganisms isolated from one-day old chicks....	
4.2.2-Infertile eggs.....	
4.2.3-Dead embryos in shell.....	
4.2.4-Environmental samples.....	
4.3- Incidence and types of bacteria isolated from Beheery chick samples.....	54
4.3.1- One day old chicks.....	
4.3.2- Infertile eggs.....	
4.3.3- Dead embryos in shell.....	
4.3.4- Environmental samples:.....	
4.4- Prevalence of different species of micro-organisms obtained from brown of awara chick samples.....	56
4.4.1- One day old chicks.....	
4.4.2- Infertile eggs.....	
4.4.3- Dead embryos in shell.....	
4.4.4- Environmental samples:.....	
4.5- Recovery rate of micro-organisms isolated from Dokky-4 chick samples.....	58
4.5.1- One -day old chicks.....	
4.5.2- Infertile eggs.....	
4.5.2- Dead embryos in shell.....	
4.5.3- Environmental samples:.....	
4.6- Prevalence of different species of micro-organisms obtained from Mandara chick samples.....	60
4.6.1- One day old chicks.....	
4.6.2- Infertile eggs.....	
4.6.3- Dead embryos in shell.....	

4.6.4- Environmental samples	
4.7- Results of bacteriological examination of Dahaby chick samples.....	62
4.7.1- One day old chicks.....	
4.7.2- Infertile eggs.....	
4.7.3- Dead embryos in shell.....	
4.7.4- Environmental samples:.....
