ACKNOWLEDGEMENT

I wish to express my thanks and appreciation to Prof. Dr. M. F. El-Shahat, Professor of analytical and Inorganic Chemistry, Faculty of Science, Ain Shams University for sponsoring the thesis and interest during this work.

I wish to express my deep gratitude to Prof. Dr. M.A. El-Dib, Professor of Water Pollution, Water Pollution Control Department, National Research Center for suggesting the topic of this work, valuable guidance and discussion.

Particular appreciation is due to Professor Dr. M.R. Lasheen, Professor of Water Chemistry, Water Pollution Control Department, National Research Center, for supervising the study and continuous help.

Thanks are also extended to the Staff Members of the Water Pollution Control Department for their sincere cooperation.

Special thanks to my mother, husband and children (Heba, Marwa and Ahmed) for the spiritual support and continuous encouragement.
