ACKNOWLEDGEMENT

Acknowledgements

Praise be to Allah, the Merciful, the Compassionate for all his countless gifts and endless support I have offered. Of these gifts, those persons who were assigned to give me a precious hand so as to be able to fulfil this study.

With great and honoured appreciation, I express my great indebtedness to Professor Dr. Adel Gomaa, Professor of Pharmacology, Assiut University, Faculty of Medicine, for his authentic guidance, sincere directions and kind follow up in every step of this work.

Really, I am absolutely lucky to be supervised by Professor Dr. Toshitaka Nabeshima, Professor and Head director of Department of Neuropsychopharmacology and Hospital Pharmacy, Nagoya University, Graduate School of Medicine, for his kind supervision and specialised assistance in the field of neuropsychopharmacology and immunohistochemistry.

I would like to express my gratitude towards Dr. Abdel-Azim Assi Assistant professor of Pharmacology, Faculty of Medicine, Assiut University, for his genuine and resourceful guidance through supervising this thesis.

I would like to express my thanks to Dr. Yukihiro Noda Assistant professor of Department of Neuropsychopharmacology and Hospital Pharmacy, Nagoya University, Graduate School of Medicine, for his kind professional co-operation, guidance and specialised assistance in the field of drug dependence and immunohistochemistry study.

I would like to acknowledge the contribution of the post graduate students in the first laboratory of Department of Neuropsychopharmacology and Hospital Pharmacy, Nagoya University, Graduate School of Medicine, for their help in laboratory management and their help in the field of computer system and the use of different soft ware systems in different
