Zagazig University (Benha Branch)
Faculty of Veterinary Medicine, Moshtohor
Anim. Med. Dept. (Infectious Diseases)

**“ SOME STUDIES ON ADENO-3
VIRUS VACCINE “**

Thesis

Presented By

Wahid Mossaad Ghattas

B.V. Sc., Cairo University, (1985)

*Under The Supervision
Of*

Prof. Dr. MOHAMED HASSANIN EBEID

Chairman of Animal Medicine Department.
Faculty of Veterinary Medicine, Moshtohor,
Zagazig University (Benha Branch)

Prof. Dr. THANAA IBRAHIM BAZ

Head of Rinderpest Like Diseases and Blue Tongue Department
Vet. Serum and Vaccine Research Institute,
Abbasia, Cairo

for

The Master Degree in Veterinary Science
(Infectious Diseases)

(1998)

B

10-77

Zagazig university
Benha branch
Faculty of vet. Med. Moshtohor
Vet. Med. Dept.

Approval Sheet

the dissertation by \ **Wahid Mossaad Ghattas** to Zagzig University entitled " Some studies on Adeno -3virus Vaccine " for the degree of M.V.Sc. " Infectious diseases " has been approved by the examining Committee.

Members.

- ☆The author was born on the 12th of November, 1961 at Dair El Malak , Kobba Garden , Cairo Governorate
- ☆His primary education was completed in El - Rehanny Primary school from which he graduated in 1973 .
- ☆His preparatory education was completed in El - El Hamia prep school in 1976 .
- ☆His secondary education was completed in El - Nokrashy secondary school in 1979 .
- ☆He joined the Faculty of Veterinary Medicine , Cairo University from which he attained B.V.Sc. in 1985 .
- ☆He attained of post graduated Diploma of Microbiology in 1987 from Faculty of Veterinary Medicine , Cairo University.
- ☆He attained of post graduated Diploma of infectious diseases in 1991 from Faculty of Veterinary Medicine, Moshtohor , Zagazig University " Benha Branch "
- ☆The auther works as a Veterinarian in Rinder Pest like diseases and Blue Tongue departement , Serum and Vaccine Research Institute , Abbassia , Cairo till now

ACKNOWLEDGEMENT

*Firstly, great thanks to merciful **God**.*

*I am greatly indebted to express my deeply grateful to **Prof. Dr. M.H.***

***Ebeid**, Chairman of Animal Medicine Department, Faculty of Veterinary Medicine, Moshtohor, Zagazig University, for suggesting the subject, supervision, constructive criticism as well as correcting this manuscript.*

*I sincerely thank **Prof. Dr. Thanaa Ibrahim Baz**, Head of Rinderpest Like Diseases and Blue Tongue Department, Vet. Serum and Vaccine Research Institute, Abbasia, Cairo, for her ideal sincere, continuous encouragement and supervision during this work.*

*I would like to express my thanks to **All Staff Members**, Rinderpest Like Diseases and Blue Tongue Department, Vet. Serum and Vaccine Research Institute, Abbasia, Cairo, for their grateful help in this work.*

*I would like to offer my thanks to **All Staff Members** of Animal Medicine Department, Faculty of Veterinary Medicine, Moshtohor, Zagazig University.*

I would like to acknowledge **Prof. Dr. Ahmed Daoud**, Director and all staff members of Vet. Serum and Vaccine Research Institute, Abbasia, Cairo, for offering all the facilities during this study.

I would like to offer my great thanks to **Prof. Dr. Youssef Habashi**, Deputy Director of Vet. Serum and Vaccine Research Institute, Abbasia, Cairo, for his grateful help in this work.

List of Contents

III. Animals	19
IV. Biological Reagents	20
V. Media and chemical reagents	21
VI. Inactivant	23
VII. Gelatin 5% solution	23
II. Methods	24
1. Vaccine Preparation	24
2. Preparation of vaccine virus fluid	25
3. Inactivation of Adeno-virus	26
4. Preparation of inactivated freeze dried Adeno-virus vaccine	27
5. Laboratory evaluation of vaccine in calves	28
6. Samples	29
7. Identification of the isolates	32
8. Serum neutralization test	32
4.0. Results	34
5.0. Discussion	64
6.0. Summary	79
7.0. References	83
8.0. Arabic summary.	

List of Tables

<i>Table</i>	<i>Title</i>	<i>Page</i>
1	<i>Cytopathic changes and titre of Adeno-virus on Bovine Kidney (BK), Madin Darby Bovine Kidney (MDBK), Green Monkey Kidney Cells (VERO), and Chicken Embryo Rough (CER) tissue cultures</i>	36
2	<i>Effect of different concentration of binary ethyleneimine on Adeno-virus</i>	38
3	<i>Temperature record of vaccinated, vaccinated challenged, control infected and control non-infected calves</i>	46
4	<i>Immune response of calves vaccinated (subgroup 1) with inactivated Adeno-virus vaccine by serum neutralization test</i>	50
5	<i>Immune response of vaccinated calves post challenge and control animal post infection with virulent Adeno-virus</i>	53
6	<i>Total and differential leukocytic count of vaccinated calves with inactivated Adeno-virus vaccine and control non-infected calves</i>	56
7	<i>Total and differential leukocytic counts of vaccinated challenged calves and control infected calves with virulent Adeno-virus</i>	59
8	<i>Reisolation of Adeno-virus from blood and swabs collected from vaccinated monovalent challenged calves and control infected calves</i>	63

List of Figures

Figure	Title	Page
1	<i>Inactivation of Adeno-virus by different concentration of BEI.</i>	39
2	<i>Temperature record of vaccinated challenged calves and unvaccinated infected calves</i>	47
2	<i>Mean body temperature record of all groups of animals</i>	48
3	<i>Immune response of calves towards vaccination by inactivated Adeno-virus vaccine</i>	51
4	<i>Effect of challenge on vaccinated and control group calves (Group 2 and Group 3)</i>	54
5	<i>Total leukocytic count of vaccinated calves and contact control calves</i>	57
6	<i>Total leukocytic count of vaccinated calves and control calves post challenge</i>	60
