**MONA MAGHRABY**

# **Psychological Impact of COVID-19 Pandemic on Pediatric and Adolescent Patients with Type 1 Diabetes Mellitus**

*Thesis*

*Submitted for Partial Fulfillment of Master Degree  
Pediatrics*

*By*

**Asmaa Said Masoud Shokr**

*M.B., B.Ch; Alexandria University; 2012*

*Under supervision of*

**Prof. Dr. Abeer Ahmad Abd Elmaksoud**

*Professor of Pediatrics*

*Faculty of Medicine, Ain Shams University*

**Dr. Yasmine Ibrahim Elhenawy**

*Assistant Professor of Pediatrics*

*Faculty of Medicine - Ain Shams University*

**Dr. Salwa Amin Abd Elhamid**

*Lecturer of Pediatrics*

*Faculty of Medicine - Ain Shams University*

*Faculty of Medicine  
Ain Shams University*

*2021*

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

سبحانك لا علم لنا  
إلا ما علمتنا إنك أنت  
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

# Acknowledgment

*First and foremost, I feel always indebted to **ALLAH**,  
the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound  
gratitude to **Prof. Dr. Abeer Ahmad Abd Elmaksoud**,  
Professor of Pediatrics, Faculty of Medicine, Ain Shams  
University for her keen guidance, kind supervision, valuable  
advice and continuous encouragement, which made possible the  
completion of this work.*

*I am also delighted to express my deepest gratitude and  
thanks to **Dr. Yasmine Ibrahim Elhenawy**, Assistant  
Professor of Pediatrics, Faculty of Medicine - Ain Shams  
University, for her kind care, continuous supervision, valuable  
instructions, constant help and great assistance throughout this  
work.*

*I am deeply thankful to **Dr. Salwa Amin Abd  
Elhamid**, Lecturer of Pediatrics, Faculty of Medicine - Ain  
Shams University, for her great help, active participation and  
guidance.*

*Asmaa Said*

# *List of Tables*

Table No.	Title	Page No.
<b>Table (1):</b>	Additional clinical manifestations of T1DM .....	10
<b>Table (2):</b>	Criteria for the diagnosis of diabetes.....	11
<b>Table (3):</b>	Types of insulin, classified according to their onset, duration and peak of action. ....	13
<b>Table (4):</b>	General characteristics of the studied cohort. ....	60
<b>Table (5):</b>	Socio-demographic data of the studied cohort and their families. ....	61
<b>Table (6):</b>	Disease characteristic among studied cohort.....	62
<b>Table (7):</b>	Psychological scales evaluated in the current study.....	63
<b>Table (8):</b>	CDI score and significance interpretation among studied cohort. ....	64
<b>Table (9):</b>	PedsQL (parents report) and PedsQL (children report) total score of the studied cases. ....	65
<b>Table (10):</b>	SCARED score and significance of the studied cases.....	66
<b>Table (11):</b>	CRIES-13 score (Intrusion, Avoidance, Arousal) and CRIES-13 significance of the studied cases.....	67
<b>Table (12):</b>	Socio-demographic data comparison between both patients with and without symptoms of depression. ....	68
<b>Table (13):</b>	Comparison between depressed patients and non-depressed patients according to CDI significance regarding characteristics and management of the disease.....	69

## *List of Tables Cont...*

Table No.	Title	Page No.
<b>Table (14):</b>	Comparison between depressed patients and non-depressed patients according to CDI significance regarding other psychological scales evaluated in the current study.....	71
<b>Table (15):</b>	Correlation between CDI score and different variable and scales evaluated in the current study.....	73
<b>Table (16):</b>	Correlation between PedsQL (parents report) and different variable and scales evaluated in the current study.....	76
<b>Table (17):</b>	Socio-demographic and disease characteristic distribution according to PedsQL (parents report) total score.....	79
<b>Table (18):</b>	Correlation between PedsQL (children report) total score and different variable and scales evaluated in the current study.....	82
<b>Table (19):</b>	Sociodemographic and management of the disease PedsQL (children report) total score. ....	85
<b>Table (20):</b>	Comparison between patients with and without symptoms of anxiety screened by SCARED.....	88
<b>Table (21):</b>	Comparison between patients having anxiety symptoms and patients not having anxiety symptoms according to SCARED significance as regarding other psychological scales evaluated in the current study.....	90
<b>Table (22):</b>	Correlation between Overall SCARED score and different variable and scales evaluated in the current study. ....	92

## *List of Tables Cont...*

Table No.	Title	Page No.
<b>Table (23):</b>	Comparison between patients at risk of PTSD and patients with no risk of PTSD screened by CRIES-13.....	95
<b>Table (24):</b>	Comparison between patients at risk of PTSD, and patients not at risk of PTSD as regarding other psychological scales evaluated in the current study.....	97
<b>Table (25):</b>	Correlation between Overall CRIES-13 score and different variable and scales evaluated in the current study. ....	99
<b>Table (26):</b>	Univariate logistic regression analysis for predictors of CDI significance. ....	103
<b>Table (27):</b>	Multivariate logistic regression analysis for predictors of CDI significance. ....	103
<b>Table (28):</b>	Univariate logistic regression analysis for predictors of SCARED significance.....	104
<b>Table (29):</b>	Multivariate logistic regression analysis for predictors of SCARED significance.....	104
<b>Table (30):</b>	Univariate logistic regression analysis for predictors of CRIES-13 significance.....	105
<b>Table (31):</b>	Multivariate logistic regression analysis for predictors of CRIES-13 significance.....	105
<b>Table (32):</b>	Comparison between HbA1c post lockdown more than 7.5 and different variable and scales evaluated in the current study.....	106
<b>Table (33):</b>	Univariate and multivariate logistic regression analysis for predictors of significance HbA1c post lockdown.....	107

## *List of Figures*

Fig. No.	Title	Page No.
<b>Figure (1):</b>	Early stages of type 1 diabetes with prognostic significance .....	8
<b>Figure (2):</b>	Typical continuous glucose monitor .....	16
<b>Figure (3):</b>	Free Style Libre Flash.....	16
<b>Figure (4):</b>	Scoring sheet for SCARED anxiety scale.....	54
<b>Figure (5):</b>	Scoring of PedsQL 3.0 DM .....	56
<b>Figure (6):</b>	Bar chart illustrating mean of depressed patients and non-depressed patients according to CDI score as regarding HbA1c post lockdown. ....	70
<b>Figure (7):</b>	Bar chart illustrating mean of depressed patients and non-depressed patients according to CDI score as regarding PedsQL (parents report) total score, PedsQL (children report) total score, Over all SCARED score. ....	72
<b>Figure (8):</b>	Bar chart illustrating mean of depressed patients and non-depressed patients according to CDI score as regarding SCARED significance.....	72
<b>Figure (9):</b>	Box plot illustrating mean of depressed patients and non-depressed patients according to CDI score as regarding Overall CRIES-13 score. ....	72
<b>Figure (10):</b>	Bar chart illustrating mean of depressed patients and non-depressed patients according to CDI score as regarding CRIES-13 significance.....	72
<b>Figure (11):</b>	Positive Correlation between CDI and Age.....	74

## *List of Figures Cont...*

Fig. No.	Title	Page No.
<b>Figure (12):</b>	Positive Correlation between CDI and HbA1c post pandemic.....	74
<b>Figure (13):</b>	Negative Correlation between CDI and PedsQL (parents report) total score.....	74
<b>Figure (14):</b>	Negative Correlation between CDI and PedsQL (children report) total score.....	74
<b>Figure (15):</b>	Positive Correlation between CDI and over all SCARED score. ....	75
<b>Figure (16):</b>	Positive Correlation between CDI and overall CRIES-13 score. ....	75
<b>Figure (17):</b>	Negative Correlation between PedsQL (parents report) total and Over all CRIES-13 score.....	76
<b>Figure (18):</b>	Negative Correlation between PedsQL (parents report) total and over all SCARED score. ....	76
<b>Figure (19):</b>	Negative Correlation between PedsQL (parents report) total and age. ....	77
<b>Figure (20):</b>	Negative Correlation between PedsQL (parents report) total and frequency of DKA.....	77
<b>Figure (21):</b>	Negative Correlation between PedsQL (parents report) total and HbA1c post lockdown.....	77
<b>Figure (22):</b>	Negative Correlation between PedsQL (parents report) total and CDI score.....	77
<b>Figure (23):</b>	Bar chart illustrating mean of PedsQL (parents report) total as regarding of CDI significance.....	80

## *List of Figures Cont...*

Fig. No.	Title	Page No.
<b>Figure (24):</b>	Bar chart illustrating mean of PedsQL (parents report) total as regarding of SCARED significance.....	80
<b>Figure (25):</b>	Bar chart illustrating mean of PedsQL (parents report) total as regarding of CRIES-13 significance.....	80
<b>Figure (26):</b>	Negative Correlation between PedsQL (children report) total and over all SCARED score. ....	83
<b>Figure (27):</b>	Negative Correlation between PedsQL (children report) total and over all CRIES-13 score.....	83
<b>Figure (28):</b>	Negative Correlation between PedsQL (children report) total and age. ....	83
<b>Figure (29):</b>	Negative Correlation between PedsQL (children report) total and frequency of DKA.....	83
<b>Figure (30):</b>	Negative Correlation between PedsQL (children report) total and HbA1c post lockdown.....	84
<b>Figure (31):</b>	Negative Correlation between PedsQL (children report) total and CDI score.....	84
<b>Figure (32):</b>	Bar chart illustrating mean of PedsQL (children report) total score as regarding of No of sibling. ....	86
<b>Figure (33):</b>	Bar chart illustrating mean of PedsQL (children report) total score as regarding No of injection. ....	86
<b>Figure (34):</b>	Bar chart illustrating mean of PedsQL (children report) total score as regarding of SCARED significance.....	86
