Management of Corneal Astigmatism during Phaco-Emulsification

A thesis submitted for partial fulfillment of Master Degree in Ophthalmology

By

ABEER ABD EL-HADY ABO EL-MAATY

(M.B.B.Ch. 1999, Suez Canal University)

Supervisors

Dr. HUSSEIN S. EL-NAHASS

Professor of Ophthalmology
Faculty of Medicine
Suez Canal University

Dr. OSAMA M. EL-NAHRAWY

Assistant Professor of Ophthalmology
Faculty of Medicine
Suez Canal University

Dr. EHAB M. GHONEIM

Lecturer of Ophthalmology
Faculty of Medicine
Suez Canal University

Faculty of Medicine
Suez Canal University
Ismailia
2005

Table of Contents

	Page
Acknowledgements	iii
List of abbreviation	iv
List of tables	v
List of figures	vi
Introduction	1
Aim of the work	4
Review of literature	5
▪ The cornea.	5
- Dimensions.	6
- Curvature of the cornea.	6
- Histological structure of the cornea.	7
▪ Corneal wound healing.	14
▪ Corneal incisions advantages and disadvantages.	17
▪ Corneal astigmatism.	19
▪ Control of astigmatism in cataract patient:	24
1- The cataract incision:	25
- Sutured versus sutureless.	25
- Incision location.	26
- Incision size.	28
- Incision configuration and manipulation.	29
2- Astigmatism keratotomy.	29
3- Toric intraocular lens.	30

Table of Contents

▪ Surgical anatomy of the incision.	32
▪ Development of clear corneal incision.	38
▪ Surgical types of knives used in clear corneal incision.	49
▪ Foldable intraocular lenses.	50
Subjects and methods	53
Results	60
Discussion	79
Summary and conclusion	89
Appendix	91
References	94
Arabic summary	111

Acknowledgements

It is with great pleasure and sense of gratitude that I take this opportunity to recording indebtedness to *Prof. Dr. Hussein El-Nahass*, Professor of Ophthalmology, Suez Canal University, for his honest assistance, enlightening supervision and meticulous suggestions. I owe a great deal to him for offering time and facilities, which enabled me to fulfill this work.

I should pay my sincere thanks to *Dr. Osama Elnahrawy*, Assistant Professor of Ophthalmology, Suez Canal University, and *Dr. Ehab Ghoniem*, Lecturer of Ophthalmology, Suez Canal University, for their continuous help, valuable advice and constructive ideas which greatly helped me through my work.

I wish to express my supreme gratitude and respect to *Prof. Dr. Kareem Kolkailah*, Professor of Ophthalmology, Suez Canal University, for his endless encouragement and paternal care. His kind guidance supervision and continuous support is deeply appreciated.

Last but not least, my thanks go to all the incredible staff at Department of Ophthalmology, Suez Canal University, for supporting not clinical, but also academic and research activities.

Finally, I extend my thanks to all those who helped me through the course of my study and my patients who were so kind and considerate to put up with our long follow-up schedule and tolerate the effort.

List of Abbreviations

AK	: Astigmatic keratotomy.
BCVA	: Best corrected visual acuity.
CCI	: Clear corneal incision.
CSI	: Corneoscleral incision.
D	: Diopter.
DM	: Diabetes mellitus
ECCE	: Extra capsular cataract extraction.
IOL	: Intraocular lens.
mm	: Millimeter.
μm	: Micrometer.
Nm	: Nanometer.
OCCI	: Opposite clear corneal incision.
PCIOL	: Posterior chamber intraocular lens.
PEA	: Pre-existing astigmatism.
PMMA	: Polymethyle methacrylate.
Poly-HEMA	: Poly hydroxyethyl methacrylate.
PVA	: Potential visual acuity.
SAI	: Surface asymmetry index.
SIA	: Surgically induced astigmatism.
SIMK	: Simulated keratometry.
SRI	: Surface regularity index.
UCVA	: Uncorrected visual acuity.
UGH	: Uveitis, glaucoma, hyphaema.
UV	: Ultraviolet
VA	: Visual acuity.
WTR	: With-the-rule.
YAG	: Yttrium, aluminum, garnet

List of Tables

	Page
Table (1) Classification of corneal tunnel incision by external incision location.	33
Table (2) Sclerocorneal incision-entry posterior to the limbus.	34
Table (3) Properties of soft lenses.	51
Table (4) Demographic data of the patients included in the study.	62
Table (5) Distribution of axis of astigmatism among selected population.	63
Table (6) Relationship between the operated eye and site of wound incision.	64
Table (7) Changes in astigmatism over time. Preoperative and postoperative astigmatic values (D) for the operated eye based on keratometric and corneal topographic data.	67
Table (8) Changes in astigmatism over time. Preoperative and postoperative astigmatic values (D) for site of incision wound based on keratometric and corneal topographic data	68
