Prevalence of Galectins Family Expression in Epithelial Ovarian Tumors

Thesis

*Submitted for Partial Fulfillment of
Master Degree in Obstetrics & Gynecology*

By

Athar Abdel Haleem Emam

*M.B.B.Ch., Faculty of Medicine – Ain Shams University 2015
Resident of Obstetrics and Gynecology
at Embaba General Hospital*

Under supervision of

Dr. Abdel Megeed Ismail Abdel Megeed

*Professor of Obstetrics & Gynecology
Faculty of Medicine – Ain Shams University*

Dr. Mohamed Abdel Hameed Abdel Hafeez

*Professor of Obstetrics & Gynecology
Faculty of Medicine – Ain Shams University*

Dr. Radwa Mansour Mohamed Zaki

*Assistant Professor of Obstetrics & Gynecology
Faculty of Medicine – Ain Shams University*

Faculty of Medicine
Ain Shams University

2021

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

سببنا أنك لا تعلم لنا
إلا ما علمتنا أنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

Primarily and above all, thanks to GOD, by whose glory this research had been accomplished.

I would first like to thank and express my deep appreciation to Prof. Dr. Abdel Megeed Ismail Abdel Megeed, Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University for his encouragement and guidance in every step. He consistently allowed this paper to be my own work, but steered me in the right direction whenever he thought I needed it.

I would also like to thank the experts who were involved in the validation survey for this research project Prof. Dr. Mohamed Abdel Hameed Abdel Hafeez, Assistant Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University and Prof. Dr. Radwa Mansour Mohamed Zaki, Assistant Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University. Without their passionate participation and input, the validation survey could not have been successfully conducted.

I would also like to acknowledge and thank Dr. Reham Hassan Helwa, Assistant Professor of Molecular Biology, Department of Zoology, Faculty of Science, Ain Shams University and Dr. Mahmoud Mostafa Abd-elfatah, Assistant Teacher of Molecular Biology, Department of Zoology, Faculty of Science, Ain Shams University for their support and work under their guidance. Also they showed me the statistics to perform my research.

Finally, I must express my very profound gratitude to my parents and to my partner for providing me with unfailing support and continuous encouragement throughout my process of researching and writing this thesis. This accomplishment would not have been possible without them. Thank you.

Athar Abdel Haleem Emam

List of Contents

Title	Page No.
List of Tables	i
List of Figures	ii
List of Abbreviations.....	iv
Protocol.....	
Introduction	1
Aim of the Work.....	4
Review of Literature

Arabic Summary	

List of Tables

Table No.	Title	Page No.
Table (1):	WHO histologic classification	22
Table (2):	Stage I and survival rate	43
Table (3):	Stage II and survival rate	44
Table (4):	Stage III and survival rate	46
Table (5):	Stage IV and survival rate	46
Table (6):	Expression, localization, cellular distribution, proposed function, and biomarker relevance for galectins in ovarian cancer	84
Table (7):	List of human gene specific primers	95
Table (8):	Clinical and Pathological features of the patients included in the study	98
Table (9):	Expression profiling of LGALS1, 3, 4, 8, and 9 in epithelial ovarian carcinoma	99
Table (10):	Relation of clinic pathological data of ovarian carcinoma samples with gene expression of LGALS1	101
Table (11):	Relation of clinic pathological data of ovarian carcinoma samples with gene expression of LGALS3	104
Table (12):	Relation of clinic pathological data of ovarian carcinoma samples with gene expression of LGALS4	107
Table (13):	Relation of clinic pathological data of ovarian carcinoma samples with gene expression of LGALS8	110
Table (14):	Relation of clinic pathological data of ovarian carcinoma samples with gene expression of LGALS9	112

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Ovarian development.....	7
Figure (2):	Ovarian anatomy.....	9
Figure (3):	Ovarian blood supply.....	11
Figure (4):	Nerve supply of pelvic organ	12
Figure (5):	Ovarian cycle.....	17
Figure (6):	Clinicopathologic and molecular classification of ovarian cancer.....	21
Figure (7):	A schematic showing the different galectin structures and members of each	59
Figure (8):	Histogram showing up and down regulation of 5 galectins in epithelial ovarian carcinomas.	99
Figure (9):	Relation between expression of medical co- morbidities and LGALS1.	102
Figure (10):	Relation between expression of histopathology and LGALS1.....	102
Figure (11):	Relation between expression of FIGO Staging and LGALS 1.....	103
Figure (12):	Relation between expression of LGALS3 and parity.....	105
Figure (13):	Relation between expression of LGALS3 and past surgical history.	105
Figure (14):	Relation between expression of LGALS3 and lymph node metastasis.....	106
Figure (15):	Relation between expression of LGALS4 and parity.....	108
Figure (16):	Relation between expression of LGALS4 and medical co-comorbidities.....	108
