**Phytosomal-Encapsulation of a Herbal Drug for
Increasing its Efficacy and Safety**

B16415

Thesis

Presented by

Marwa Hasanin Mohamad Asfour
B.Pharm. Sci. (Helwan University 2000)

Submitted to

Faculty of Pharmacy
Cairo University

For the Fulfillment for the Degree of
Master of Pharmaceutical Sciences (Pharmaceutics)

Supervised by

Prof. Dr. Soad Aly Yehia
Professor of Pharmaceutics,
Faculty of Pharmacy
Cairo University

Prof. Dr. M. Shafik El-Ridy
Professor of Pharmaceutical Technology
Dept. of Pharmaceutical Technology
National Research Centre

2007

APPROVAL SHEET

Approved by:

ARABIC SUMMARY.....	1

No words are eloquent enough to express my profound gratitude and heart-felt appreciation to late prof. Dr. Mohamed Sayed Ahmed El-Samaligy, Professor of Pharmaceutics, Faculty of Pharmacy, Cairo University. I owe a great deal to him for giving me the chance to benefit by his experience and academic knowledge. No matter how much I express my thanks, I will not be able to do his justice. He was the father and supervisor who illuminated the path to me since the beginning of my career in pharmaceutics department We can never forget you. ...

AKNOWLEDGMENT

My deep appreciation is due to the late, **Prof. Dr. Mohamed El-Samaligy** for his sponsorship and advice; may Allah bless his soul.

I would like to express my deep thanks and gratitude to **Prof. Dr. Soad Aly Yehia**, Professor of Pharmaceutics, Department of Pharmaceutics, Faculty of Pharmacy, Cairo University, for her precious advice and guidance and for her support and encouragement throughout the work on this thesis.

I would like to express my deepest appreciation and sincere gratitude to **Prof. Dr. Mohamed Shafik El-Ridy**, Professor and Ex-department Head, Department of Pharmaceutical Technology, National Research Centre, for designing this study. I would like to deeply thank him for his close supervision, support and encouragement throughout the course of the work.

I would like to deeply thank **Dr. Dina Mahmoud Mostafa**, Researcher, Department of Pharmaceutical Technology, National Research Centre, for her support and supervision of the experimental part throughout the thesis.

I would like to thank **Prof. Dr. Rashika El-Ridy**, Professor, Department of Immunology, Faculty of Science, Cairo University, for her precious cooperation and supervision of the animal experiments and immunological evaluation experiments.

I would like to thank all my colleagues and members of the Department of Pharmaceutical Technology, National Research Centre, for their help and cooperation during the development of this work.

I am deeply grateful for the National Research Centre, Dokki, Cairo, Egypt, for the generous financing of the experimental work through direct financing of the thesis and also through professor El-Ridy projects 3/17/6 and 70/20/60/1.

1. INTRODUCTION.....	1
SCOPE OF WORK	50
2. EXPERIMENTAL.....	53
2.1. Materials.....	53
2.2. Biological Materials.....	54
2.3. Reagents.....	54
2.4. Apparatus	56
2.5. Preparation of Ginsenosides Phytosomes.....	56
2.5.1. Using L- α - Lecithin from Dried Egg Yolk	56
2.5.1.1. Preparation of Small Quantity	56
2.5.1.2. Preparation of Large Quantity	58
2.5.2. Using L- α - Phosphatidylcholine from Soybean.....	58
2.5.2.1. Preparation of Small Quantity	58
2.5.2.2. Preparation of Large Quantity	59
2.6. Colorimetric Analysis for Ginsenosides.....	59
2.6.1. Determination of λ_{\max}	59

2.6.2. Establishment of the Standard Curve.....	59
2.6.3. Spectrophotometric Assay	60
2.7. Dissolution Studies	61
2.8. Characterization of the Complex	61
2.8.1. Characterization by ¹ HNMR.....	62
2.8.2. Characterization by ¹³ CNMR.....	62
2.8.3. Characterization by FTIR Spectroscopy	62
2.8.4. Characterization by DSC.....	62
2.8.5. Characterization Using Solubility Test.....	62
2.9. Immunological Study of Ginseng Phytosomes.....	63
2.9.1. Biochemical Evaluation	63
2.9.1.1. Enzyme Linked Immunosorbent Assay.....	64
(ELISA)	
2.9.1.2. Colorimetric Determination of Total	65
Cholesterol	
2.9.1.3. Colorimetric Determination of Total	67
Triglycerides	
2.9.2. Hepatic Portal System Perfusion and Worm & Ova.....	69
Count	

3. RESULTS AND DISCUSSION

3.1. Determination of λ_{max} of the Ginsenosides	71
3.2. Establishment of the Standard Curve	72
