“Alveolar Ridge Augmentation Following Self-Inflating Soft Tissue Expander A Randomized Controlled Clinical and Histological Study”

Thesis

*Submitted to the Periodontology Department, Faculty of Dentistry, Ain Shams University
for Partial Fulfillment of the Requirements for Doctorate Degree in
Periodontology*

Presented By

Alaa Talaat Zarea Hassan Ali

Assistant Lecturer of Oral Medicine, Periodontology and Oral Diagnosis
Faculty of Dentistry, Assiut University

Supervisors

Prof. Dr. Nevine Hassan Kheir El Din

Professor of Oral Medicine, Periodontology and Oral Diagnosis,
Faculty of Dentistry - Ain Shams University

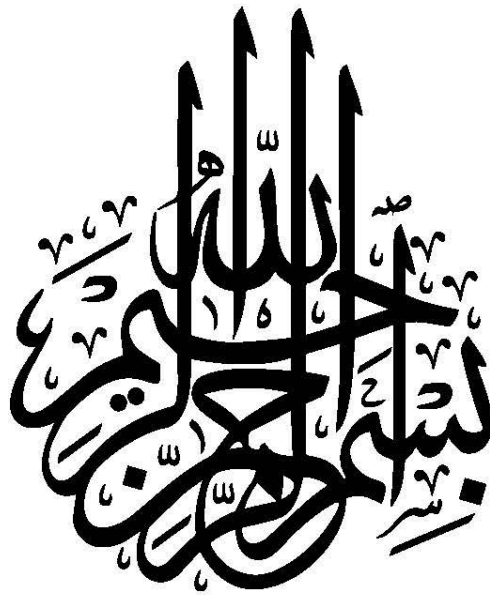

Prof. Dr. Ehab Saeed Abd Elhamid

Professor of Oral Pathology,
Faculty of Dentistry - Ain Shams University
Dean of Faculty of Dentistry, Badr University

Ass. Prof. Dr. Ahmed Elsayed Hamed Amr

Assistant Professor of Oral Medicine, Periodontology and Oral Diagnosis,
Faculty of Dentistry - Ain Shams University

**Faculty of Dentistry
Ain Shams University
2021**

قَالُوا سُبْحَانَكَ
لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صَدَقَ اللَّهُ الْعَظِيمُ

سورة البقرة - آية (٣٢)

Acknowledgement

First of all, I would like to praise Great Almighty Allah, the most merciful, the most compassionate, for his kindness and blessing in this work.

*My sincere appreciation goes to **Prof. Dr. Nevine Hassan Kheir El Din** Professor of Oral Medicine, Periodontology and Oral Diagnosis, Faculty of Dentistry, Ain Shams University whose supervision, careful reading and valuable comments contribute greatly to the final form of this work. I would like to thank her for her generosity by time for reading the drafts of this work which aids me greatly in writing this thesis. I express my sincere appreciation for her continuous assistance in any way I had asked.*

*Special thanks go to **Prof. Dr. Ehab Saeed Abd Elhamid** Professor of Oral Pathology, Faculty of Dentistry, Ain Shams University and Dean of Faculty of Dentistry, Badr University for his kind instructions and generous helping regarding the histological analysis in our study. without his help, we could not be able to accomplish this thesis accurately.*

*Special thanks and sincere appreciation go to **Ass.Prof.Dr. Ahmed Elsayed Hamed Amr** Assistant Professor of Oral Medicine, Periodontology and Oral Diagnosis, Faculty of Dentistry, Ain Shams University whose advice and persistent supervision help me a lot in this work. I'm deeply grateful for his guidance in writing the drafts of this thesis, his continuous support helps me a lot in this study. I would like to thank him for sharing his time, effort and expertise throughout the whole work in this study.*

*Special thanks go to **Prof. Dr. Amr Ekram** for his kind advice and generous help regarding the volumetric analysis part of this study.*

*Special thanks go to the **Dr. Fatema Seragel-Deen Abd-Allah** Assistant Lecturer of Oral Pathology, Faculty of Dentistry, Ain Shams University for her kind advice and generous help regarding the histological analysis and laboratory work of this study.*

Also, I would like to thank all my patients in this study for their volunteering and appreciation of the value of dental research.

Finally, I would like to thank all my colleagues for their help and support in this work.

Dedication

*Dedicated to my beloved family who always
encourage me with passion and endless support*

LIST OF CONTENTS

ARABIC SUMMARY.....	-

LIST OF TABLES

Table No.	Title	Page
1	Demographic data	82
2	Descriptive statistics and results Mann-Whitney U test for comparison between pain (VAS) scores in the two groups	83
3	Descriptive statistics and results of repeated measures ANOVA test for comparison between bone width (mm) measurements in the two groups using the bone caliper	84
4	Descriptive statistics and results of repeated measures ANOVA test for the changes in bone width by time within each group using the bone caliper.....	86
5	Descriptive statistics and results of Mann-Whitney U test for comparison between percentage changes in bone width in the two groups using bone caliper.....	87
6	Descriptive statistics and results of repeated measures ANOVA test for comparison between bone width (mm) measurements in the two groups using CBCT	89
7	Descriptive statistics and results of repeated measures ANOVA test for the changes in bone width by time within each group using CBCT	90
8	Descriptive statistics and results of Mann-Whitney U test for comparison between percentage change in bone width after six months in the two groups using CBCT	91
9	Results of Pearson's correlation coefficients for the correlation between bone width measurements using bone caliber and CBCT	92
10	Volume gain analysis and bone fill calculations of group I.....	93
11	Descriptive statistics and results of Student's t-test for comparison between area fraction (%) in the two groups	94

Table No.	Title	Page
12	Descriptive statistics and results of Mann-Whitney U test for comparison between mature collagen area fraction % in the two groups	95
13	Descriptive statistics and results of Student's t-test for comparison between osteoblast count in the two groups.....	96
14	Descriptive statistics and results of Mann-Whitney U test for comparison between blood vessels' counts in the two groups.....	97
15	Descriptive statistics and results of Mann-Whitney U test for comparison between areas of the largest vessel in the two groups	98
