MONA MAGHRABY

Zoology Department

Impact of some phenolic compounds on the freshwater snail, *Biomphalaria alexandrina*, and the Nile tilapia *Oreochromis niloticus*

“A Thesis submitted for the degree of Doctor of Philosophy in Science in Zoology”

By

Sara Ali Mansour Moustafa

To

Zoology Department

Faculty of Science - Ain Shams University

Supervised by

Prof. Magdy Tawfik Khalil

Emeritus Professor of Aquatic Ecology
Zoology Department
Faculty of Science
Ain Shams University

Prof. Fatma Afifi Ali El-Deeb

Emeritus Professor of Environmental Research
Environmental Research and
Medical Malacology Department
Theodor Bilharz Research Institute

Prof. Fawzia Ashour Abd El-Ghafar Abd El-Rahman

Professor of Vertebrates and Fish Biology
Zoology Department
Faculty of Science
Ain Shams University

2021

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ
قَالُوا سُبْحَانَكَ
لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صَدَقَ اللَّهُ الْعَظِيمُ

سورة البقرة " الآية ٣٢ "

Approval Sheet

Title of Thesis:

Impact of some phenolic compounds on the freshwater snail, *Biomphalaria alexandrina*, and the Nile tilapia *Oreochromis niloticus*.

Name of Candidate: Sara Aly Mansour Moustafa

This thesis has been approved for submission by

Thesis supervisors:

Signature

1. Prof. Fatma Afifi Ali El-Deeb

Emeritus Professor of Environmental Research, Environmental Research Department, Theodor Bilharz Research Institute.

2. Prof. Magdy Tawfik Khalil

Emeritus Professor of Aquatic Ecology, Zoology Department, Faculty of Science, Ain Shams University.

3. Prof. Fawzia Ashour Abd El-Ghafar Abd El-Rahman

Professor of Vertebrates and Fish Biology, Zoology Department, Faculty of Science, Ain Shams University.

Examiners committee:

1. Prof. Nahla Soliman El-Shenawy

Professor of Physiology, Zoology Department, Faculty of Science, Suez Canal University.

2. Sahar Fahmy Youssef Mehanna

Professor of Fish Population Dynamics and fish stock assessment, National Institute of Oceanography and Fishers.

3. Prof. Fatma Afifi Ali El-Deeb

Emeritus Professor of Environmental Research, Environmental Research Department, Theodor Bilharz Research Institute

4. Prof. Magdy Tawfik Khalil

Emeritus Professor of Aquatic Ecology, Zoology Department, Faculty of Science, Ain Shams University

Head of Zoology Department

Acknowledgement

First and foremost praise goes to Allah, the beneficent and merciful, the best owner of all knowledge, Who has taught Adam the 'names', and the Teacher of all teacher, for providing me the blessings to accomplish this thesis.

*Great thanks to my teacher **Prof. Fatma Afifi Ali El Deeb**, Professor of Environmental Research, Environmental Research and Medical Malacology Department, Theodor Bilharz Research Institute, for her supervision, help, guidance, patience, encouragement and constructive criticism. Her continued support has led me to the right way.*

*I can't adequately express in word my appreciation and thanks to my supervisor **Prof. Magdy Tawfik Khalil**, Emeritus Professor of Aquatic Environment, Zoology Department, Faculty of Science, Ain Shams University, for his guide and generous support during progress of work, revising the manuscript, valuable advice, helpful discussion, time and great effort spent throughout the course of this study and without his efforts the research would not be completed.*

*I would like to express my gratitude to **Prof. Fawzia Ashour Abd El-Ghafar Abd El-Rahman**, Professor of Vertebrates and Fish Biology, Zoology Department, Faculty of Science, Ain Shams University, not only for encouragement and genuine interest, but also for removing the obstacles that face me during progress of this manuscript.*

All thanks to the staff members of Environmental Research and Medical Malacology Department, Theodor Bilharzia Research Institute and to all my friends for their help.

A decorative border with intricate floral and scrollwork patterns, featuring symmetrical designs on the top and bottom, and vertical elements on the sides.

Dedication

Words are not enough to express my special thanks and appreciation to my amazing family especially my husband, for his care, help and unflagging love. He had never complained in spite of all his responsibilities. I am very grateful to my lovely daughters Yasmeeen and Jana and my beautiful baby Zyad. You gave me all the strength to complete this work when I thought I couldn't do any more.

Thank you all
