Analytical Studies of Certain Anticoccidial Drug Combinations

Thesis

Presented in partial fulfillment of

**PhD Degree in Pharmaceutical Sciences
(Pharmaceutical Analytical Chemistry)**

By

Mahmoud Mohamed Abbas Abd El-Aziz

Bachelor of Pharmaceutical Sciences 2010

Assistant lecturer, Pharmaceutical Analytical Chemistry Department

**Faculty of Pharmacy
Ain Shams University**

Under the Supervision of

Prof. Dr. Amira Mabrouk El-Kosasy

**Professor of Pharmaceutical Analytical Chemistry
Faculty of Pharmacy
Ain Shams University**

Prof. Dr. Lobna Abd El-Aziz Hussein

**Professor and head of Pharmaceutical Analytical Chemistry Department
Faculty of Pharmacy
Ain Shams University**

Assoc. Prof. Dr. Nancy Magdy Hanna

**Associate professor of Pharmaceutical Analytical Chemistry
Faculty of Pharmacy
Ain Shams University**

Faculty of Pharmacy - Ain Shams University

2021

Approval Sheet

Title of the PhD Degree Thesis in Pharmaceutical Sciences

(Pharmaceutical Analytical Chemistry)

Analytical studies of certain anticoccidial drug combinations

Name of the candidate:

Mahmoud Mohamed Abbas Abd El-Aziz

Submitted to:

Department of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Ain Shams University, 2021

Committee in Charge:

1. Prof. Dr. Fathalla Fathalla Belal.....

Professor of Analytical Chemistry, Faculty of Pharmacy, Mansoura University

2. Prof. Dr. Maha Farouk Abd El-Ghany.....

Professor of Analytical Chemistry, Faculty of Pharmacy, Ain Shams University

3. Prof. Dr. Amira Mabrouk El-Kosasy.....

Professor of Analytical Chemistry, Faculty of Pharmacy, Ain Shams University

ACKNOWLEDGEMENT

All thanks and gratitude is to my lord Allah, who has given me the strength and will to finish this work. Words and thanks will never suffice to praise Allah for his mercy, blessings and guidance that lead me through the tough times.

I would like to express my deepest gratitude and sincere appreciation to **Prof. Dr. Amira Mabrouk El-Kosasy**, Professor of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Ain Shams University, for her kind and expert supervision, patience, unlimited support, generous assistance, and for the extensive effort, time and energy. I will always be indebted to her kindness and continuous encouragement. No words can describe my gratitude to her. It's really an honor to be one of her students.

My profound thanks are to **Prof. Dr. Lobna Abdel-Aziz Hussein**, Professor and head of Pharmaceutical Analytical Chemistry Department, Faculty of Pharmacy, Ain Shams University, who was always supporting me with great patience, constructive advice and valuable assistance throughout the whole work.

My sincere appreciation to **Assoc. Prof. Dr. Nancy Magdy Hana**, Associate Professor of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Ain Shams University, for her supervision, untiring help, valuable assistance, priceless guidance and fruitful opinions throughout the whole practical work.

I am very grateful to my dear parents, may Allah give them health and wellness, dear brothers and especially my dear wife for standing by me in every step, for their praying, their continuous support and encouragement all the way through and giving me all the strength and faith more than I needed.

Finally my sincere appreciation and thanks go to all my colleagues and staff members in Pharmaceutical Analytical Chemistry Department, for their friendly cooperation and constant support.

Mahmoud Mohamed Abbas

قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا
عَلَّمْتَنَا إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

سورة البقرة آية (32)

Table of Contents

Part I: General introduction and Literature review

Section A: General introduction

I.A.1. Coccidiosis.....	1
I.A.2. Anticoccidial drugs.....	1
I.A.2.1. Classification of anticoccidial drugs	1
I.A.2.2. Mode of action of anticoccidial drugs	1

Section B: Literature review

I.B.1. Amprolium hydrochloride	3
I.B.1.1. Structure	3
I.B.1.2. Properties	3
I.B.1.3. Methods of analysis	3
I.B.1.3.1. Spectroscopic methods	4
I.B.1.3.2. Electrochemical method	4
I.B.1.3.3. Chromatographic methods.....	5
I.B.1.3.3.1. High performance liquid chromatographic methods	5
I.B.1.3.3.2. Thin layer chromatographic methods	9
I.B.1.3.3.3. Electrophoretic method.....	9
I.B.2. Sulfaquinoxaline sodium	10
I.B.2.1. Structure.....	10
I.B.2.2. Properties	10
I.B.2.3. Methods of analysis	10
I.B.2.3.1. Spectroscopic methods	10
I.B.2.3.2. Immunoassay	11

Contents

I.B.2.3.3. Chromatographic methods.....	12
I.B.2.3.3.1. High performance liquid chromatographic methods.....	12
I.B.2.3.3.2. Gas chromatographic methods	26
I.B.2.3.3.3. Thin layer chromatographic methods	27
I.B.2.3.3.4. Electrophoretic methods	27
I.B.3. Sulfadimidine (Sulfamethazine) sodium	28
I.B.3.1. Structure	28
I.B.3.2. Properties	28
I.B.3.3. Methods of analysis	28
I.B.3.3.1. Spectroscopic methods	28
I.B.3.3.2. Immunoassay	30
I.B.3.3.3. Electrochemical methods.....	30
I.B.3.3.4. Chromatographic methods.....	30
I.B.3.3.4.1. High performance liquid chromatographic methods.....	30
I.B.3.3.4.2. Gas chromatographic methods	46
I.B.3.3.4.3. Thin layer chromatographic methods	46
I.B.3.3.4.4. Electrophoretic methods	46
I.B.3.3.5. Volumetric and gravimetric analysis methods	47
I.B.4. Diaveridine hydrochloride	48
I.B.4.1. Structure	48
I.B.4.2. Properties	48
I.B.4.3. Methods of analysis	48
I.B.4.3.1. Spectroscopic methods	48
I.B.4.3.2. Immunoassay	49
I.B.4.3.3. Chromatographic methods.....	49
I.B.4.3.3.1. High performance liquid chromatographic methods.....	49
I.B.4.3.3.2. Electrophoretic methods	52

Part II: Spectrophotometric determinations of some anticoccidial drug combinations

Section A: Simultaneous determination of diaveridine hydrochloride and sulfadimidine sodium by zero-crossing first derivative spectrophotometric method

II.A.1. Introduction	53
II.A.2. Experimental	53
II.A.2.1. Apparatus.....	53
II.A.2.2. Materials	54
II.A.2.2.1. Pure standards.....	54
II.A.2.2.2. Veterinary formulation	54
II.A.2.2.3. Chemical.....	54
II.A.2.2.4. Standard solutions	54
II.A.2.2.4.1. DVD stock standard solution (100.00 µg/mL)	54
II.A.2.2.4.2. SDM stock standard solution (100.00 µg/mL)	54
II.A.2.3. Procedure	55
II.A.2.3.1. Spectral characteristics of DVD and SDM	55
II.A.2.3.2. Method validation.....	55
II.A.2.3.2.1. Linearity	55
II.A.2.3.2.2. Accuracy	55
II.A.2.3.2.3. Precision	56
II.A.2.3.2.3.1. Repeatability (Intraday precision).....	56
II.A.2.3.2.3.2. Intermediate precision (Interday precision)	56
II.A.2.3.2.4. Specificity.....	56
II.A.2.3.2.5. Limit of detection (LOD) and limit of quantification (LOQ)	57
II.A.2.3.3. Application of the proposed method for the determination of DVD and SDM in veterinary formulation (Cocci-D®)	57
II.A.3. Results and Discussion.....	58

II.A.4. Conclusion.....	60
-------------------------	----

Section B: Simultaneous determination of diaveridine hydrochloride and sulfadimidine sodium by derivative ratio spectrophotometric method

II.B.1. Introduction	68
II.B.2. Experimental.....	68
II.B.2.1. Apparatus.....	68
II.B.2.2. Materials	68
II.B.2.2.1. Pure standards.....	68
II.B.2.2.2. Veterinary formulation	68
II.B.2.2.3. Chemical.....	68
II.B.2.2.4. Standard solutions	69
II.B.2.3. Procedure	69
II.B.2.3.1. Spectral characteristics of DVD and SDM	69
II.B.2.3.2. Method validation.....	69
II.B.2.3.2.1. Linearity.....	69
II.B.2.3.2.2. Accuracy	70
II.B.2.3.2.3. Precision	70
II.B.2.3.2.3.1. Repeatability (Intraday precision)	70
II.B.2.3.2.3.2. Intermediate precision (Interday precision)	70
II.B.2.3.2.4. Specificity	70
II.B.2.3.2.5. Limit of detection (LOD) and limit of quantification (LOQ)	71
II.B.2.3.3. Application of the proposed method for the determination of DVD and SDM in veterinary formulation (Cocci-D®)	71
II.B.3. Results and Discussion	71
II.B.4. Conclusion	74

Section C: Simultaneous determination of diaveridine hydrochloride and sulfadimidine sodium by mean centering spectrophotometric method

II.C.1. Introduction	82
II.C.2. Experimental.....	82
II.C.2.1. Apparatus.....	82
II.C.2.2. Software.....	82
II.C.2.3. Materials	82
II.C.2.3.1. Pure standards.....	82
II.C.2.3.2. Veterinary formulation	82
II.C.2.3.3. Chemical.....	82
II.C.2.3.4. Standard solutions	83
II.C.2.4. Procedure	83
II.C.2.4.1. Spectral characteristics of DVD and SDM	83
II.C.2.4.2. Method validation.....	83
II.C.2.4.2.1. Linearity.....	83
II.C.2.4.2.2. Accuracy	83
II.C.2.4.2.3. Precision	84
II.C.2.4.2.3.1. Repeatability (Intraday precision)	84
II.C.2.4.2.3.2. Intermediate precision (Interday precision)	84
II.C.2.4.2.4. Specificity.....	84
II.C.2.4.2.5. Limit of detection (LOD) and limit of quantification (LOQ)	84
II.C.2.4.3. Application of the proposed method for the determination of DVD and SDM in veterinary formulation (Cocci-D [®])	85
II.C.3. Results and Discussion	85
II.C.4. Conclusion	87

Section D: Simultaneous determination of amprolium hydrochloride, sulfaquinoxaline sodium and diaveridine hydrochloride by dual wavelength in ratio spectra spectrophotometric method

II.D.1. Introduction	94
II.D.2. Experimental	94
II.D.2.1. Apparatus.....	94
II.D.2.2. Materials	94
II.D.2.2.1. Pure standards.....	94
II.D.2.2.2. Veterinary formulation	94
II.D.2.2.3. Chemical.....	95
II.D.2.2.4. Standard solutions	95
II.D.2.2.4.1. AMP stock standard solution (100.00 µg/mL)	95
II.D.2.2.4.2. SQX stock standard solution (100.00 µg/mL)	95
II.D.2.2.4.3. DVD stock standard solution (100.00 µg/mL)	95
II.D.2.3. Procedure.....	95
II.D.2.3.1. Spectral characteristics of AMP, SQX and DVD	95
II.D.2.3.2. Method validation.....	96
II.D.2.3.2.1. Linearity	96
II.D.2.3.2.2. Accuracy.....	97
II.D.2.3.2.3. Precision	97
II.D.2.3.2.3.1. Repeatability (Intraday precision).....	97
II.D.2.3.2.3.2. Intermediate precision (Interday precision)	97
II.D.2.3.2.4. Specificity.....	97
II.D.2.3.2.5. Limit of detection (LOD) and limit of quantification (LOQ)	98
II.D.2.3.3. Application of the proposed method for the determination of AMP, SQX and DVD in veterinary formulation (Tricure [®])	98
II.D.3. Results and Discussion.....	99

II.D.4. Conclusion.....	101
-------------------------	-----

Section E: Simultaneous determination of amprolium hydrochloride, sulfaquinoxaline sodium and diaveridine hydrochloride by multivariate chemometric methods: principal component regression method (PCR) and partial least-squares method (PLS-2)

II.E.1. Introduction.....	109
II.E.2. Experimental	109
II.E.2.1. Apparatus	109
II.E.2.2. Software	109
II.E.2.3. Materials	109
II.E.2.3.1. Pure standards	109
II.E.2.3.2. Veterinary formulation	109
II.E.2.3.3. Chemical	110
II.E.2.3.4. Standard solutions.....	110
II.E.2.4. Procedure	110
II.E.2.4.1. Spectral characteristics of AMP, SQX and DVD.....	110
II.E.2.4.2. Method validation	110
II.E.2.4.2.1. Linearity	110
II.E.2.4.2.2. Accuracy	111
II.E.2.4.3. Application of the proposed method for the determination of AMP, SQX and DVD in veterinary formulation (Tricure [®])	111
II.E.3. Results and Discussion	112
II.E.4. Conclusion	113

Part III: Spectrofluorimetric determination of sulfaquinoxaline sodium; application to multi-ingredient formulation and combinations with both animal and vegetable food

Section A: Introduction

III.A. Introduction	123
III.A.1. Fluorescence quenching.....	123
III.A.2. Carbon dots properties	123
III.A.3. Experimental design.....	126

Section B: Eco-friendly microwave-assisted synthesis of N-doped carbon dots for spectrofluorimetric determination of sulfaquinoxaline sodium in chicken food and plasma samples; investigation by two-level factorial design

III.B.1. Introduction	127
III.B.2. Experimental	127
III.B.2.1. Apparatus	127
III.B.2.2. Software	128
III.B.2.3. Materials.....	128
III.B.2.3.1. Pure standard	128
III.B.2.3.2. Veterinary formulation.....	128
III.B.2.3.3. Chemicals and reagents.....	128
III.B.2.3.4. Standard solutions	129
III.B.2.3.4.1. SQX stock standard solution (100.00 µg/mL)	129
III.B.2.3.4.2. SQX working standard solution (10.00 µg/mL)	129
III.B.2.3.5. Food samples.....	129
III.B.2.3.6. Blood samples	129
III.B.2.4. Procedure.....	129
