Condylar Changes After Mandibular Setback Surgery: Intraoral Vertical Versus Sagittal Split Ramus Osteotomy

Thesis submitted for partial fulfillment of the requirements for
Doctoral Degree in Oral and Maxillofacial Surgery,

By

Ahmed Mohamed Hany Mohsen Zaki

B.D.S 2010

M.Sc. 2017

Assistant Lecturer of Oral and Maxillofacial Surgery

Faculty of Dentistry, Ain-Shams University

Supervisors

Salah Abdel Fattah Ahmed

Professor of Oral and Maxillofacial Surgery

Faculty of Dentistry, Ain-Shams University

Mostafa Mohamed Sayed Taha

Assistant Professor of Oral and Maxillofacial Surgery

Faculty of Dentistry, Ain-Shams University

Faculty of Dentistry –Ain Shams University

2022

This thesis is a part of a self-funded research project conducted on mandibular setback surgery to compare between two mandibular osteotomy techniques (Bilateral sagittal split ramus osteotomy and Intraoral vertical ramus osteotomy) in different aspects. This project included thesis of dear colleagues Ahmed Sadek entitled ‘Assessment of Muscular Characteristics After Mandibular Setback: Intraoral Vertical Versus Sagittal Split Ramus Osteotomy’, and Ahmed Nabil entitled ‘Temporomandibular Joint Changes After Mandibular Setback Surgery: Intraoral Vertical Versus Sagittal Split Ramus Osteotomy’

Table of Contents

Acknowledgment.....	iv
List of Tables	iv
List of Figures.....	vi
List of Abbreviations	ix
Introduction and Review of Literature.....	1
Aim of the Study.....	21
Patients and Methods.....	22
Results.....	49
Discussion.....	81
Summary.....	92
Conclusion	93
Recommendation.....	94
Bibliography	95

Appendix

Arabic summary

Acknowledgment

I would like to express my special thanks and gratitude to

- Professor/ Marwa El Kassaby, Head of Oral and Maxillofacial Surgery department, Ain shams University, for her help in designing the study and facilitation of all challenges.
- Dr / Amr Amin Ghanem, Assistant Professor of Oral and Maxillofacial Surgery, Ain shams University, for his participation and guidance during the surgical procedures with the operating team.
- Dr/ Hossam El Dien Hany, Assistant lecturer of Oral and Maxillofacial Surgery, Faculty of Dentistry, Ain Shams University, for his precious help in the radiographic study and analysis

List of Tables

Table 1: Patient grouping.....	23
Table 2: Definitions of TMJ and condylar linear measurements.....	47
Table 3: Demographics.....	55
Table 4: The mean, standard deviation values of Joint space (BSSO group)	58
Table 5: The mean, standard deviation values of Condylar axis (BSSO group)	61
Table 6: The mean, standard deviation values of Condylar volume (BSSO group)	65
Table 7: The mean, standard deviation values of Joint space (IVRO group).....	70
Table 8: The mean, standard deviation values of Condylar axis (IVRO group)	73
Table 9: The mean, standard deviation values of Condylar volume (IVRO group)	76
Table 10: The mean, standard deviation values of Condylar volume (BSSO and IVRO groups)	79

List of Figures
