Title of Thesis:

TOWARDS A SUSTAINABLE STRATEGIES FOR CREATING DECENTRALIZED ECONOMIC REGIONAL HUBS AND CAPITALS

Key Words:

Decentralization Strategies; Economic Hubs; Regional Capitals; Sustainable Development; Smart hubs.

Summary:

The research main question is “How to establish integrated regional economic hubs to achieve spatial equity, enhance economic productivity, integrated with the region core services and achieve environmental sustainability, yet not act against the 3Cs for sustainable cities (compactness, connected, and coordination within the local contexts”, and what are the most significant criteria for allocating these hubs whether uni-sector or multi-sector?

Acknowledgments

It is my wish to extend my thanks to many people who participated in the production of this work, but first of all, I am grateful to God for giving me the strength and patience to finish this thesis.

I would like especially to thank my supervisors; at Cairo University, Architecture Department: Prof. Dr. Tarek Abdel Latif & Prof. Dr. Asmaa Abdel Aty Ibrahim, My Supervisors at TU Dortmund: Prof. Dr. Sabine Baumgart Professor of Planning, Department of Planning, Faculty of Spatial Planning & Prof. Dr. Christiane Hellmanzik Professor of Business & Economics, Faculty of Business and Economics & Faculty of Spatial Planning, for their in-depth reading, valuable criticism, sincere advice and for providing me with valuable references.

A very special thanks to my supervisors at TU Dortmund, Dr. Sabine and Dr. Christiane, it was an amazing experience for me to do my postgraduate studies under their supervision in the Architecture, economic & planning departments in the Technical University of Dortmund, as I attended several courses were supported me during my writing at the thesis, as I attended several courses with amazing professors in TU Dortmund University. The very professional experience for Dr. Sabina in the academic field was very useful for me, and the support from Dr. Christiane, it was very useful to attend with her the Urban economic courses to understand the future Economic strategies and her support for all my steps in Germany, I wish to thank her so much.

I am indebted to Dr. Asmaa for the extended precious hours she spent with me to develop the research. She was very supportive of me she is an amazing professor and a very professional professor, I wish her a great future. I would also like to express my appreciation, respect, and gratitude for all the efforts Dr. Tarek has done to support me in the research, his advice was very professional to get a professional thesis.

I would like to thank University of Tor Vergata University of Rome Prof. Antonella Falzetti Associate Professor, the University of Rome "Tor Vergata", Italy and Prof. Ferdinando Trapani, Urban Planning Department of Architecture Polytechnic School University of Palermo, Italy) at the Green Urbanism conference as I published my paper " **The Sustainable Strategy to Create Multi-Sector or Uni-Sector Hubs for Regional Development**"

I would like to express my gratitude to my parents, my wife Arch. Hanan Ezzatt, my kids Hala & Kenzy & all my family and friends, who have supported me in the research. I do owe them a lot.

Very special thanks should be offered to Dar Group, Perkins + Will where I learned how to be an architect, Planner & Project Manager through working on mega-scale projects in the Middle East and all over the world.

A special thanks to Plaza 2, Wuppertal & SmarConn, Stuttgart, Germany as I get the professional experience for German projects.

Very special thanks to the Ray Consultants team, especially Yasser Said, Omar Hany, Fatma Ali, Hadeel Mohsen, Farah El Sherif, Ahmed Ali, Salwa Samir and Youssef Khashaba for their attributions.

Finally, this thesis is for the youth over all the world to help them to get a better future in Job opportunities and their life based on creating economic regional hubs are providing new smart life.
