PREPARATION AND EVALUATION
OF ANTI-IDIOTYPIC VACCINE
AGAINST RINDERPEST VIRUS

A Thesis
presented by

FATMA SAYED MOHAMED EL-SAYED

B.V.Sc. (1987), Cairo University
M.V.Sc. (1996), Cairo University
for the degree of
Ph.D. of Veterinary Science
(Virology)

Under Supervision of

PROF. DR. MOHAMED SAMI SABER

Prof. of Virology,
Faculty of Veterinary Medicine,
Cairo University.

PROF. DR. MOHAMED AHMED MOUAZ

Rinderpest Vaccine Research Department,
Vet. Serum and Vaccine Research Institute, Abbasia, Cairo

{ 1999 }

APPROVAL SHEET

This is to approve that the dissertation presented by *Fatma Sayed Mohamed El-Sayed* for the degree of Ph.D. (Virology) has been approved by the examining committee :

***" Preparation and evaluation of anti-idiotypic vaccine
against Rinderpest Virus "***

1. Prof. Dr. Mokhtar Mohamed Ali El-Tarabili
Prof. of Virology Dept.,
Faculty Veterinary Medicine,
Suez Canal University.

El-Tarabili. M.M.

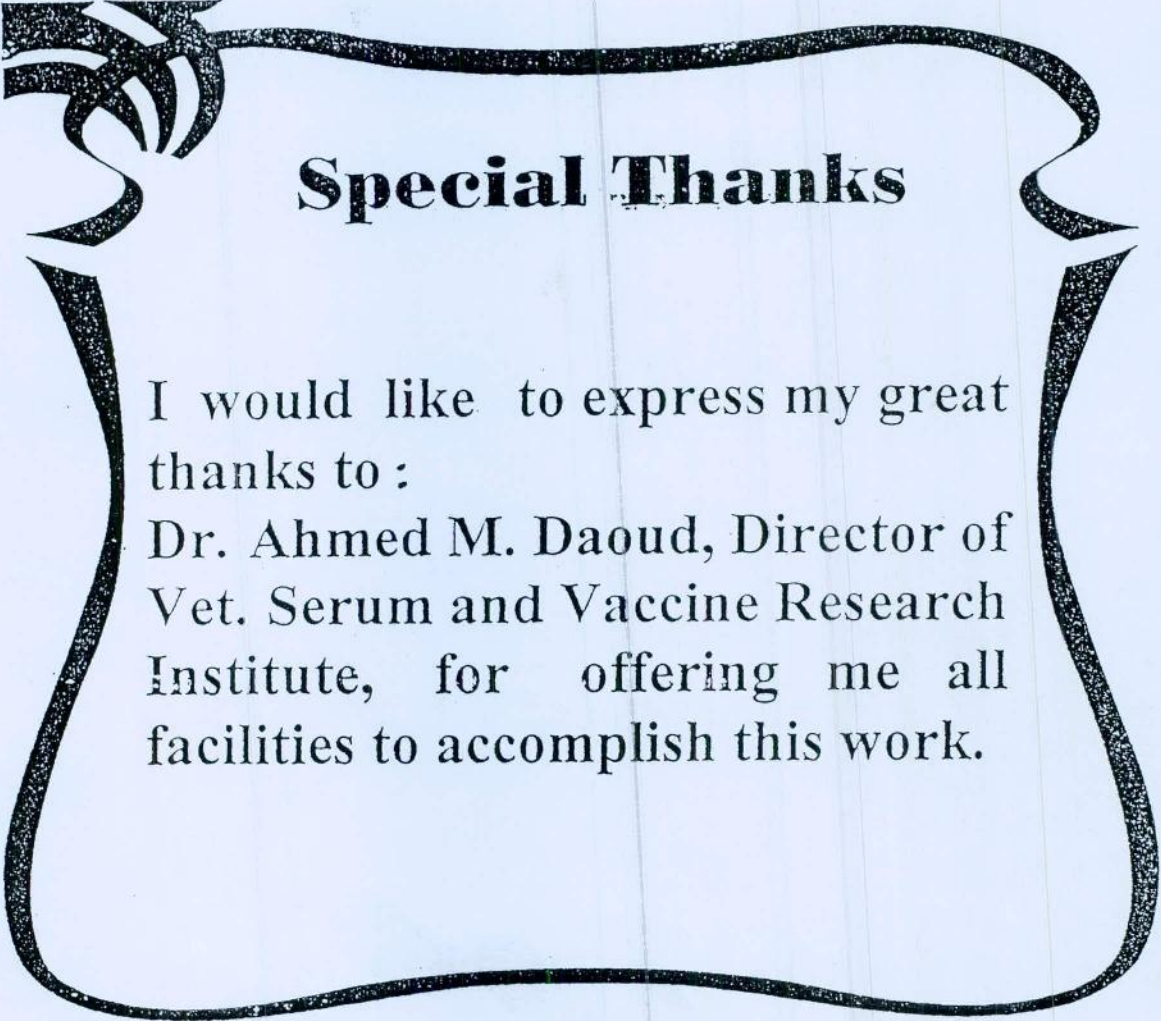

2. Prof. Dr. Mohamed Abd El-Hameed Shalaby
Prof. of Virology and Head of Virology Dept.,
Faculty Veterinary Medicine,
Cairo University.

M. A. Shalaby

3. Prof. Dr. Mohamed Sami Saber
Prof. of Virology
Faculty of Veterinary Medicine,
Cairo University,
(Supervisor)

M. Sami Saber

Date : 17/10/1999.

Special Thanks

I would like to express my great thanks to :

Dr. Ahmed M. Daoud, Director of
Vet. Serum and Vaccine Research
Institute, for offering me all
facilities to accomplish this work.

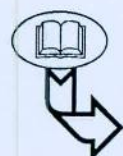

ACKNOWLEDGEMENT

I thank **God** for his blessing on me to present this work.

I wish to express my deepest gratitude to my supervisor **Prof. Dr. Mohamed Sami Saber**, Professor of Virology, Faculty of Veterinary Medicine, Cairo University, for his valuable help and lot of efforts he did to make this work accurate and successful. He has given me so much of his valuable time, experience and scientific knowledge.

I would like to express my sincerest gratitude to **Prof. Dr. Mohamed Ahmed Mouaz**, Rinderpest Vaccine Research Department, Veterinary Serum and Vaccine Research Institute, Abbasia, Cairo, for his supervision and his continuous criticism and helpful advice.

I would like to express my sincerest gratitude to **Dr. Ahmed Hussein Mostafa Hussein**, Senior Researcher, Rinderpest Vaccine Research Department, Veterinary Serum

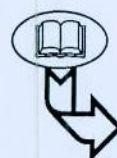

and Vaccine Research Institute, Abbasia, Cairo, for his kind encouragement and much technical help he had given on doing this work.

Grateful thanks to **Prof. Dr. Seham Abd El-Rashid El-Zeedy**, Head of Genetic Engineering Research Department, Veterinary Serum and Vaccine Research Institute, Abbasia, Cairo, for her much help she had given me while doing this work.

I am also gratitude to **Staff Members** of Rinderpest Vaccine Research Department, Veterinary Serum and Vaccine Research Institute, Abbasia, Cairo, for giving a hand whenever needed and for their help and kindness.

This work is supported in part by a grant of the Scientific Research Sponsored by the Egyptian Academy for Scientific Research and Technology under project : **"Rinderpest Disease in Egypt and Methods of its Control"**.

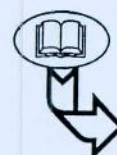

LIST OF ABBREVIATIONS

AIA	: Anti-idiotypic antibodies.
CFA	: Complete Freund's Adjuvant .
CPE	: Cytopathic Effect
ELISA	: Enzyme Linked Immunosorbent Assay
FAO	: Food and Agriculture Organization
IFA	: Incomplete Freund's Adjuvant
OD	: Optical Density.
ODP	: Ortho Phenyl Diamine
PARC	: Pan Africa Rinderpest Campaign
PPR	: Peste des Petits Ruminants
RBOK	: Rinderpest Bovine Old Kabete strain.
RP-AIA	: Rinderpest anti-idiotypic Antibodies.
RPV	: Rinderpest Virus
SAREC	: South Asia Rinderpest Eradication Campaign
SDS-PAGE	: Sodium Dodecyl Sulphate Polyacrylamide Gel Electrophoresis
SN _T	: Serum Neutralization Test
TCID ₅₀	: Tissue Culture Infective Dose fifty
TCRPVV	: Tissue Culture Rinderpest Virus Vaccine
WAREC	: West Asia Rinderpest Eradication Campaign

LIST OF CONTENTS

	Page
1. <i>INTRODUCTION.</i>	1
2. <i>REVIEW OF LITERATURE</i>	4
1. History of Rinderpest	4
2. Classification of rinderpest virus	11
3. Morphology, size and structure of rinderpest virus	13
4. Serological tests for detection of rinderpest antibodies with emphasis on SNT and ELISA	15
5. Rinderpest electrophoresis	21
6. Control of rinderpest	26
7. Vaccine and Immunity	29
8. Antigenic determinants	37
9. The structure and function of antibodies	41
10. Anti-Idiotypic	43
3. <i>MATERIAL AND METHODS.</i>	61
1. <i>Materials.</i>	61
3.1.1. Animals	61

	Page
3.1.2. Tissue culture rinderpest vaccine	63
3.1.3. Tissue culture	63
3.1.4. Buffers and Solutions	63
3.1.5. Adjuvants	65
3.1.6. ELISA Design	65
3.1.7. Plates	70
3.1.8. Chemicals and reagents used for SDS-PAGE	70
3.2. Methods.	57
3.2.1. Serum Neutralization Test	57
3.2.2. Virus titration	73
3.2.3. Preparation of rinderpest idiotype antibodies (RP-ID) in cattle	74
3.2.4. Preparation of the anti- idiotype (AIA) to tissue culture rinderpest vaccine	76
3.2.5. Determination of the anti- idiotype antibody (AIA) potency by direct method of ELISA	77

	Page
3.2.6. Determination of the effect of anti-idiotypic (AIA) in cattle	80
3.2.7. Determination of the effect of booster dose of anti-idiotypic (AIA) in cattle	80
3.2.8. The indirect Enzyme Linked Immuno-Sorbent Assay	81
3.2.9. Protein analysis (to compare between animals serum inoculated with TCRPV and RP AIA)	82
4. RESULTS.	85
5. DISCUSSION	130
6. SUMMARY	140
7. REFERENCES.	143
ARABIC SUMMARY.	

LIST OF TABLES

<i>Table</i>	<i>Title</i>	<i>Page</i>
1	Temperature record of five hyperimmunized cattle with TCRPV	86
2	Results of quantitative SNT of cattle inoculated with the three successive times of (field dose of) TCRPV with an equal volume of complete Freund's adjuvant for preparation of rinderpest hyperimmune serum	89
3	Results of indirect ELISA for the group of hyperimmunized cattle inoculated with TCRPV	92
4	Potency of anti-idiotypic by direct method of ELISA, the optical density (OD) of three idiotypic sera of cattle against their homologous anti-idiotypic sera prepared in goats and rabbits	95
5	Temperature record of ten cattle before and after inoculation with 1cm of goat and rabbit AIA of rinderpest vaccine with an equal volume of CFA	97
6	Results of quantitative SNT of cattle inoculated with goat and rabbit AIA prepared from rinderpest hyperimmune serum	101
7	Results of indirect ELISA for the group of 10 cattle inoculated with Rinderpest AIA	104
8	Temperature record of five cattle before and after inoculation of booster dose of TCRPV	108
9	Results of quantitative SNT of cattle inoculated with the booster dose of TCRPV	111
