Abstract

Twenty seven dogs admitted to Pet. animal Clinic of Faculty of Veterinary Medicine, Cairo University during 2018 to 2020 to investigate different changes in CBC, biochemistry of blood serum and ultrasonography in gastroenteritis cases.

Comparative clinical and therapeutic study was applied to detect effect of administration of Famotidine in addition to classical regimen of treatment of such cases.

This study revealed that administration of Famotidine addition to classical treatments enhanced early recover at 3-5th day while cases treated without Famotidine recover obtained at 5-7th day.

Key Words: Dogs, Gastroenteritis, Famotidine, Hematology, Ultrasonography.

DEDICATION

*I dedicate this work to my parents,
my brothers, my wife and my
daughters Farida and Laila for all
the support they lovely offered
during my post-graduate studies*

ACKNOWLEDGEMENT

In the name of Allah the Most Merciful and Most Gracious

I wish to express my sincere gratitude, thanks and greatest appreciation for all encouraged me along this thesis work.

*It is a great pleasure to me to record my indebtedness to **Professor Dr. Fatma Mohamed Abd El-Fattah Tayeb**, Professor of Internal Medicine , Faculty of Veterinary Medicine, Cairo-University, for her continuous guidance, encouragement, criticism this work, her stimulating supervision and critical reviewing through finishing this thesis ,and her invaluable effort made possible the achievement of this thesis.*

*Heart-felt thankfulness goes to **Professor Dr. Taher Ahmad Mahmoud Barak** , Professor of Internal Medicine, Faculty of Veterinary Medicine, Cairo University, who has given me valuable guidance and interest, for the continuous support, his supervision, consistent scientific advice and guidance and space to conduct this thesis and continuous help and support.*

*Deep sincere thanks to **Dr. Noha Yousef and Dr. Eman Shawky** for help in preparation of published paper.*

*Special thanks to **Dr. Eman Ghallab** for her kind help and support in final revision of this thesis.*

*Deep sincere thanks **Dr. Dawlat Ali** for her help and support in statistical analysis of obtained data.*

*Deep sincere thanks to **Dr. Mohammed El-Saeed and Dr. Abd El-Rahman M. Mahmoud** for their help in application of ultrasonography examination and supportive follow up.*

Finally deep thanks to my teachers, my professors & everyone who support & / or encourage me even with a word in all my life.
