ACKNOWLEDGMENT

Before all, *I thank God* for his marvelous care, support and guidance all the way through.

I would like to express my deepest gratitude to **Professor Dr. Khadiga Amin**, Head of Community Medicine Department, for the precious time she spent and continual effort she made while supervising this work. She was always ready to offer help and advice whenever needed, caring that this work be conducted and presented in the best form possible.

I am deeply indebted to **Professor Dr. Yousria Badawy**, Professor of Community Medicine, for her unlimited assistance and support throughout the work. She closely supervised each step of this work, providing endless encouragement and constructive criticism.

I wish to express my great appreciation to **Professor Dr. Malak Abd El-Hay**, Professor of Clinical Pathology, who very kindly and generously gave much of her precious experience and guidance in the laboratory work.

I would like to thank **Professor Dr. Ibrahim Makhles**, Assistant Professor of Urology, for his help in facilitating the clinical aspect of the work. He was constantly generous in his advice and kept enlightened as to the clinical perspective throughout the study.

I am very grateful to **Dr. Gamal Makboul**, Lecturer of Community Medicine who encouraged my initial efforts in this work providing his support and advice.

I have many debts of appreciation for **Dr. Hoda Atta**, Lecturer of Community Medicine for her valuable help and efforts in assisting with the statistical analysis of this work.

It is a great pleasure to thank all those who contributed in the conduction and completion of this work.

My thanks are also to all patients for their kind cooperation, and I wish them all well.

Finally, I wish to extend my grateful thanks and appreciation to my father, Professor Dr. Mostafa Mohamed Abo-El-Naga, Vice Deans for Community Development and Environmental affairs, College of Agriculture, University of Alexandria, my mother and the rest of my family with special thanks to my husband, for their moral support and continual encouragement which made the impossible times bearable and the difficult times surmountable.

LIST OF TABLES

Table (I)	: Distribution Of Bladder Cancer Cases And Controls By Age Sex.....	74
Table (II)	: Distribution Of Bladder Cancer Cases And Controls According To Their Educational Level.....	75
Table(III)	: Distribution Of Male And Female Cases And Controls By Occupational Categories.....	76
Table (IV)	: Distribution Of Bladder Cancer Cases And Controls According To Some Personal Characteristics.....	78
Table (V)	: Distribution Of Bladder Cancer Cases And Controls Regarding Their Residence, Through Their Lives.....	79
Table (VI)	: Distribution Of Bladder Cancer Cases And Controls Regarding Their Exposure To Different Sources Of Drinking Water.....	81
Table (VII)	: Distribution Of Bladder Cancer Cases And Controls By The Source Of Water Used For The Longest Period Of Life.....	82
Table (VIII)	: Distribution Of Male Bladder Cancer Cases And Controls Regarding Their Smoking State.....	84
Table (IX)	: Distribution Of Bladder Cancer Cases And Controls By Age At Starting Smoking Habit.....	85
Table (X)	: Distribution Of Bladder Cancer Cases And Controls Regarding The Duration Of Their Smoking Habit.....	86
Table (XI)	: Distribution Of Bladder Cancer Cases And Controls By The Number Of Cigarettes Smoked Per Day.....	88
Table (XII)	: Average Smoking Index Of Bladder Cancer Cases And Their Controls.....	89

Table (XIII)	: Distribution Of Ex-Smoker Cases And Controls Regarding Effect Of Years Since Quitting On Risk Of Bladder Cancer Relative To Current Smokers.....	90
Table (XIV)	: Distribution Of Bladder Cancer Cases And Controls As Regard Type Of Smoking Through Life.....	92
Table (XV)	: Distribution Of Bladder Cancer Cases And Controls According To The Duration Of Smoking Of Each Type.....	93
Table (XVI)	: Distribution Of Bladder Cancer Cases And Controls As Regard Smoking With Filter.....	95
Table (XVII)	: Distribution Of Bladder Cancer Cases And Controls According To Frequency And Duration Of Beverage Drinking.....	96
Table (XVIII)	: Distribution Of Bladder Cancer Cases And Controls As Regard Their Weekly Carbohydrate Consumption (\bar{X} , Median, 25 th and 75 th Percentiles).....	98
Table (XIX)	: Distribution Of Bladder Cancer Cases And Controls According To Their Weekly Consumption Of Some Food Items (\bar{X} , Median, 25 th and 75 th Percentiles).....	100
Table (XX)	: Distribution Of Bladder Cancer Cases And Controls Regarding Their Weekly Consumption Of Vegetables And Fruits (\bar{X} , Median, 25 th and 75 th Percentiles).....	101
Table (XXI)	: Distribution Of Bladder Cancer Cases And Controls According To Their Weekly Consumption Of Salty Food(\bar{X} , Median, 25 th and 75 th Percentiles).....	103
Table (XXII)	: Distribution Of Bladder Cancer Cases And Controls By The Type Of Fat They Frequently Use.....	104
Table (XXIII)	: Distribution Of Bladder Cancer Cases And Controls Regarding The Habit Of Siwimming In Canals.....	105

Table (XXIV) :	Distribution Of Bladder Cancer Cases And Controls Regarding History Of Bilharzial Infestation.....	107
Table (XXV) :	Distribution Of Bladder Cancer Cases And Controls By Mean Age Of First And Last Time Of Schistosomal Diagnosis And Treatment.....	108
Table (XXVI) :	Distribution Of Bladder Cancer Cases And Controls By The Frequency Of Bilharzial Infestation.....	109
Table (XXVII) :	Distribution Of Bilharzial Bladder Cancer Cases And Controls As Regard Type Of Antibilharzial Therapy Taken Through Life.....	111
Table (XXVIII):	Distribution Of Bladder Cancer Cases And Controls Regarding Previous History Of Urological Diseases.....	112
Table (XXIX) :	Distribution Of Bladder Cancer Cases And Controls By History Of The Morbid Conditions.....	114
Table (XXXA) :	Distribution Of Bladder Cancer Cases And Controls Regarding Their Occupational History.....	115
Table (XXXB):	Distribution Of Bladder Cancer Cases And Controls Regarding Their Occupational History.....	116
Table (XXXI) :	Distribution Of Cases And Controls Regarding The Frequency Of Exposure To Pesticides.....	118
Table (XXXII) :	Distribution Of Female Bladder Cancer Cases And Controls According To Their Reproductive History.....	120
Table (XXXIII) :	Distribution Of Bladder Cancer Cases And Controls According To The Results Of Urine and Stool Examination.....	122
Table (XXXIV) :	Distribution of Male and Female Bladder Cancer Cases And Controls Regarding The Results Of Their Serological Testing.....	123

Table (XXXV) : Adjusted Odds Ratios For Variables Predicting Bladder Cancer Development Among Males In Stepwise Logistic Regression Analysis (n= 294).....	126
Table (XXXVI) : Adjusted Odds Ratio For Variables Predicting Bladder Cancer Development Among Females In Stepwise Logistic Regression Analysis (n= 106).....	127
Table (XXXVII) : Distribution Of Bilharzial And Non Bilharzial Bladder Cancer Cases By Age.....	130
Table (XXXVIII) : Distribution Of Bilharzial And non Bilharzial Bladder Cancer Cases By Sex.....	131
Table (XXXIX) : Distribution Of Bilharzial And Non Bilharzial Bladder Cases Cancer By Residence.....	132
Table (XL) : Distribution Of Bilharzial And Non Bilharzial Bladder Cancer Cases Regarding The Pathological Type Of Their Tumors.....	134
Table (XLI) : Distribution Of Bilharzial And Non Bilharzial Bladder Cancer Cases Regarding The Pathological Stage Of Their Tumors.....	135
Table (XLII) : Distribution Of Bilharzial And Non Bilharzial Bladder Cancer Cases As Regard The Pathological Grade Of Their Tumors.....	137
Table (XLIII) : Distribution Of Bilharzial And Non Bilharzial Bladder Cancer Cases Regarding The Site Of Origin Of Their Tumors In The Bladder.....	138
Table (XLIV) : Distribution Of Bilharzial And Non Bilharzial Bladder Cancer Cases By The Morphological Shape Of Their Tumors.....	139
Table (XLV) : Distribution Of Bilharzial And Non Bilharzial Bladder Cancer Cases By Some Tumor Characteristics.....	141
