Blepharoplasty for Upper Lid Dermatocalasis

B17067

THESIS

BY

Raafat Mohy El-Din Abdel-Rahman

- M.B.B.Ch., 1997

Faculty of Medicine, Minia University

Submitted for Partial Fulfillment of

MASTER DEGREE in OPHTHALMOLOGY

Supervised By

Prof. Dr. Ezz El-Din Galal Mohamed

Professor and Chairman of Ophthalmology Dept.,

Faculty of Medicine

Minia University

Dr. Abdel-Kader Mohamed Mostafa

Assistant Professor of Ophthalmology

Faculty of Medicine

Minia University

Dr. Abdel-Aziz Abd-Allah Mohamed

Lecturer of Ophthalmology

Faculty of Medicine

Minia University

"اللَّهُ الَّذِي جَعَلَ لَكُمُ الْأَرْضَ قَرَارًا وَالسَّمَاءَ بِنَاءً وَصَوَّرَكُمُ
فَأَحْسَنَ صُورَكُمْ وَرَزَقَكُم مِّنَ الطَّيِّبَاتِ ذَلِكُمُ اللَّهُ رَبُّكُمْ
فَتَبَارَكَ اللَّهُ رَبُّ الْعَالَمِينَ"

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

سوره غافر
الآیه (۶۴)

TO THE SPIRIT OF MY FATHER

He taught me all my principles.

TO MY MOTHER

Her love and support make all the difference.

TO MY WIFE

Her constant sacrifices made this work possible.

ACKNOWLEDGMENT

First and above all thanks to merciful ALLAH, who enabled me to complete this work, and for the countless gifts I have been offered.

It is a great honor to express many deep gratitude and appreciation to *Prof. Dr. Ezz El-Din Galal Mohamed*, Professor and Chairman of Ophthalmology Dept., Faculty of Medicine, Minia University, for his encouragement, creative suggestions fatherhood and whole hearted support, both scientific and moral and his guidance throughout the study.

I feel extremely fortunate for having *Dr. Abdel-Kader Mohamed Mostafa*, Assistant Professor of Ophthalmology, Faculty of Medicine, Minia University, as my supervisor and teacher. Great thanks for his kind help, clarifying suggestions and continuous encouragement.

I am also grateful to *Dr. Abdel-Aleem Abd-Allah Mohamed*, Lecturer of Ophthalmology, Faculty of Medicine, Minia University, for his valuable help, continuous guidance and significant encouragement.

Finally, I wish to record many thanks and appreciations to all staff members and to my colleagues in the Ophthalmology Department for various helps and facilities offered by them during the progress of this work.

Raufat Mohy El-Din

	PAGE
INTRODUCTION AND AIM OF THE WORK.....	1 - 2
REVIEW OF LITERATURE	3- 54
* Anatomy of the upper eyelid	3
* Dermatochalasis	25
* Blepharoplasty	32
PATIENTS AND METHODS	55 - 65
RESULTS	66 - 92
DISCUSSION	93 - 98
SUMMARY AND CONCLUSIONS	99 - 100
REFERENCES	101-111
ARABIC SUMMARY	

LIST OF TABLES

TABLE	SUBJECT	PAGE
(1)	Age incidence.....	66
(2)	Sex distribution.....	66
(3)	Clinical presentation.....	68
(4)	General evaluation.....	70
(5)	Ophthalmological evaluation.....	71
(6)	Frequency of complications.....	74
(7)	Objective assessment (correction early postoperative vs late postoperative).....	76
(8)	Objective assessment (correction) versus patient presentation.....	78
(9)	Functional disorder before and after operation (improved symptoms in functional disorders).....	80
(10)	Improved visual field postoperatively.....	80
(11)	Patient satisfaction vs clinical presentation.....	82

LIST OF FIGURES

FIGURE	SUBJECT	PAGE
(I)	General appearance of the eyelid from Snell and Lemp (1998).....	5
(II)	Structure of the upper eyelid as seen in vertical section (Snell and Lemp, 1989).....	6
(III)	Different parts of the orbicularis oculi muscle (Snell and Lemp, 1989).....	11
(IV)	The orbital septum and the superior and inferior tarsal plates in position and the tendinous fibers of levator muscle in the upper eyelid (Snell and Lemp, 1989).....	15
(V)	A) Anterior orbital fat after removable of orbital septum. B) Deeper dissection of orbital fat pad. (Lemke and Lucarelli, 1998)	17
(VI)	Arterial supply of the eyelids (Bron et al., 1997)...	22
(VII)	A) Lymphatic drainage. B) Sensory nerve supply (Snell and Lemp, 1998).....	24
(VIII)	A) Dermatochalasis in the upper lid with poorly defined crease and prominent lid fold, B) dermatochalasis with herniated orbital fat (Lenk and Della Rocca, 1990) and C) marked degree of upper lid dermatochalasis with obscured lid margin (Goldberg et al., 1998).....	29
(1)	Sex distribution.....	67
(2)	Patients clinical presentations.....	69
(3)	Upper temporal field defect in sever degree of dermatochalasis.....	72

LIST OF FIGURES (Continued)

FIGURE	SUBJECT	PAGE
(4)	Frequency of complications.....	75
(5a)	Correction objective assessment (early postoperative).....	77
(5b)	Comparison between correction early and late postoperative.....	77
(6a)	Comparison between clinical presentations and correction early postoperative.....	79
(6b)	Comparison between clinical presentations and correction late postoperative.....	79
(7)	Frequency of Heaviness and asthenopic symptoms before and after the operation.....	81
(8)	Postoperative improved visual field.....	81
(9)	Comparison between clinical presentations and patient satisfaction postoperatively.....	83
(10)	A) Bilateral upper lid dermatochalasis with redundant skin fold and obscured lid crease. B) Postoperative, excision of redundant skin and formed lid crease.....	85
(11)	A) Preoperative. B) Postoperative.....	86
(12)	A) Preoperative. B) Postoperative.....	87
(13)	A) Preoperative, upper lid dermatochalasis with herniated, obscured lid crease and lid margin. B) Postoperative, removed excess tissue and formed lid crease.....	88
(14)	A) a- Preoperative with herniated orbital fat. b- Postoperative.....	89

LIST OF FIGURES (Continued)

FIGURE	SUBJECT	PAGE
(15)	A) Side view of marked upper lid dermatochalasis with absent lid crease and obscured lid margin (apparent ptosis).....	90
(16)	A) a- Preoperative; b- postoperative. B) a- Preoperative; b- postoperative.....	91
(17)	A) Preoperative: Illdefined lid crease, with redundant upper lid skin fold. B) Postoperative: Removed excess skin, Formed lid crease.....	92
