**Physiological and Biochemical Studies on the
effect of melatonin on the fertility of Albino rats
(*Rattus norvegicus*)**

B17097

Thesis

Submitted to Faculty of Science
Cairo University

By

Lobna Farouk Sayed Wahman

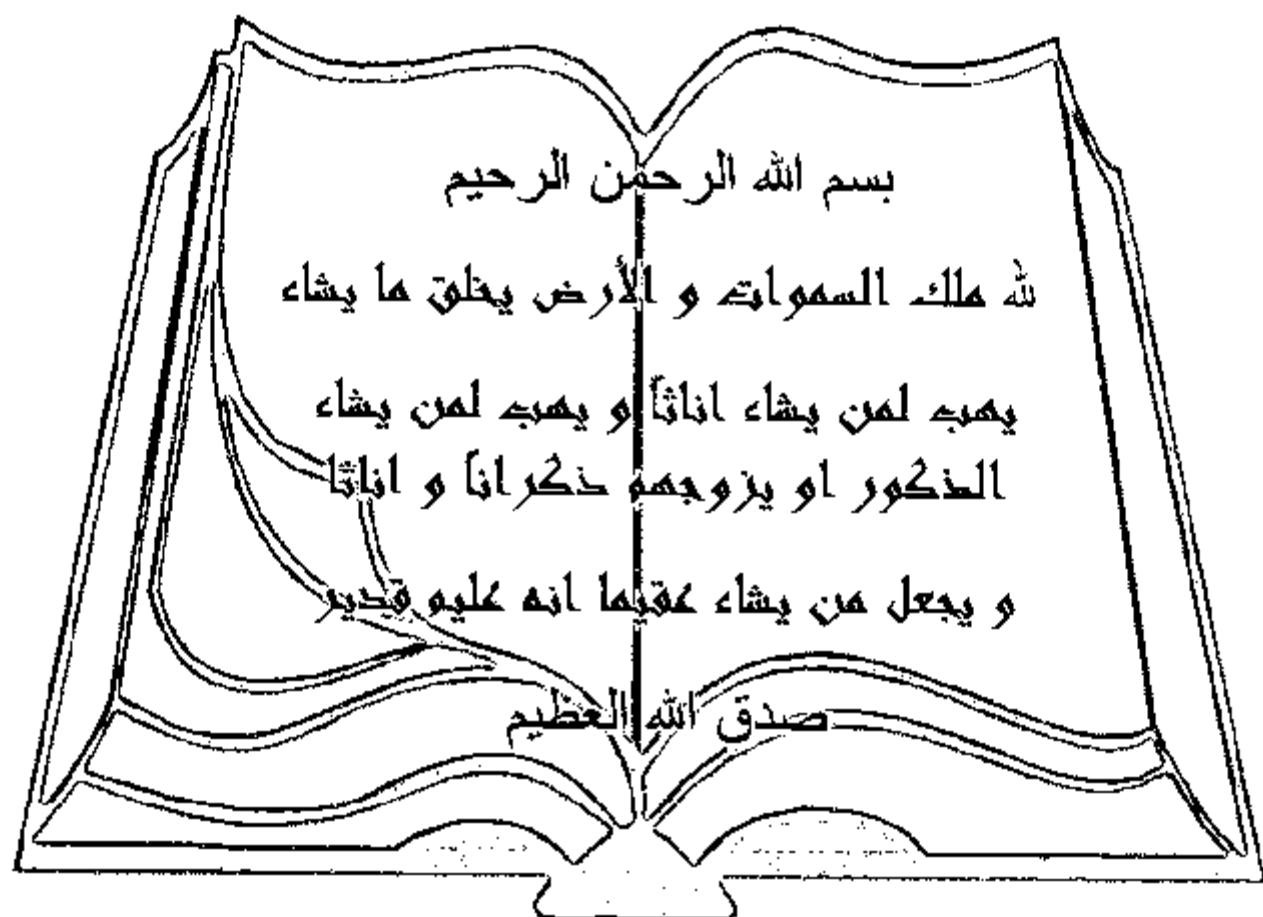

B.Sc. Zoology

M.Sc. Zoology (Physiology)

Cairo University

In Fulfillment of the Requirement
For the Degree of Ph.D.
In Zoology (Physiology)

2001

Approval Sheet

Title of the Thesis: - *Physiological and biochemical studies on the effect of Melatonin on fertility of Albino rats (Rattus norvegicus)*

Name of Candidate: - *Lobna Farouk Sayed Wahman*

Submitted to the
Faculty of Science, Cairo University

Supervision Committee: -

1- Prof. Dr. Sayed M. Rawi

Prof. of physiology
Faculty of Science, Zoology dept.
Cairo University

2- Prof. Dr. Laila I. Abou Basha

Prof. of biochemistry
National Organization for Drug
Control And Research ,
NODCAR ; Ministry of Health
and Population.

3- Dr. Samir El-Deeb Ibrahim

Assistant professor of physiology
Faculty of Science, Zoology dept.
Cairo University

Head of Zoology Department
Prof. Dr. Kamal El- Badry

ACNOWLEDGEMNT

First, thanks to GOD for helping me to complete this work. Indeed I would to express my greet appreciation & gratitude and many thanks to my professor *Dr / Sayed Mohamed Rawi* , professor of zoology ; Faculty of Science , Cairo university for illuminative supervision , kindness; helpful direction and guidance during the work and writing of the thesis .

Also I'm deeply honored to express with greet appreciation my deep gratitude and thanks to my professor *Dr/ Laila Ibrahim Abou Basha* , professor of biochemistry , NODCAR ; Ministry of Health and Population , for suggestion , planning the point of research , for her kind supervision and guidance during the course of this work .

Thank also due to professor *Dr / Mostafa Ismail* , Head of histology department ; Al - Azhar University for his great help in histological studies of the thesis .

I wish to express my deepest thanks and gratitude to *Dr / Adel El-Mehiy* the manager of El - Mehiy Company for his great assistance.

Many thanks to *Ms / Magda Mohamed*, Hormonal department; NODCAR, for her excellent technical assistance.

At the end, my heart wishes and thanks for my collogues and friends in NODCAR and Faculty of Science, Cairo University.

Contents

	Page
I- List of Abbreviations	
II- Abstract	2
III- Introduction	5
IV- Review of Literature	8
V- Aim of work	4
VI- Material and methods	37
VII-Results	
1- Melatonin production at different exposure light periods.	49
2- Effect of melatonin on:-	
- Total body weight	55
- Gonadal weight change	56
- Gonadal histological characteristics	66
- Vaginal smear changes	77
- Estrous cycle and hormonal regulation	81
- Pregnancy percentage	86
- Implantation and fertility Index	87
3- Effect of melatonin on:-	
- Anterior pituitary hormones	94
- Gonaotropin hormones	95
- Ovarian hormones.	96
4- Effect of melatonin on different biochemical parameters:	
- Total proteins	115
- Total lipids	115
- cholesterol	116

VIII- Discussion	128
IX- Summary	144
X- References	149
XI- Arabic summary
