and wife**

ACKNOWLEDGEMENT

All praises are due to my Almighty Allah, the most Merciful, the most Gracious, Who gave me everything I have, and without his guidance, this work could not be completed.

From the bottom of my heart, I want to express my thanks and respect to supervisor, **Prof. Dr. Mostafa Fayez Mohamed** Professor and Head of Pharmacology department, Faculty of Veterinary Medicine, Suez Canal University, for these continues guidance and valuable advices which paved the way towards the completion of this work.

I would like to express my deep sense of sincere gratitude and cordial thanks to my expert advisor **Prof. Dr. Hatem Abdel-Khalik Gammaz**, Professor of Pharmacology, Faculty of Veterinary Medicine, Suez Canal University, for his moral, unfailing supportment, all-around supervision, beneficial advices, continuous encouragement, guidance, and exerting every possible mean for finishing this thesis.

Many thanks to **Dr. Mahmoud Elhamamy**, Assoc. Prof. of Pathology Faculty of Veterinary Medicine, Suez Canal University, for his advise, encouragement and help in histopathological examination.

Special thanks, appreciation, and indebtedness are expressed to my kind and over esteemed **Dr. Waleed Fathy Khalil Mahmoud**, lecturer of Pharmacology, Faculty of Veterinary Medicine, Suez Canal University, for his advise and assistance through different parts of this thesis.

My cordial feeling of sincerity are due to my country (Egypt), which raised me and teach me.

Finally, it is my proud to thank my family; father, mother, brothers, sisters, also many thanks for my wife, I really appreciate their looking after me, their worries about me.
