بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ
 وَوَصَّيْنَا الْإِنْسَانَ بِوَالِدَيْهِ حَقًّا إِنَّهُ مِنْ عِنْدِ
 عَلِيِّ وَهْنٍ وَفُطْرَةٍ فِي تَوَاسُتٍ أَنْ أَشْكُرَ لِي
 وَلَوْ دَانَكَ إِلَى الْمَصِيرِ
 صَدَقَ اللَّهُ الْعَظِيمُ

سورة لقمان الآية (١٤)

ACKNOWLEDGMENT

I wish to express my deep appreciation and gratitude to Prof. Dr. Nadia Fahmy, Professor of Maternal Neonatal Nursing, Faculty of Nursing, Ain Shams University, for giving me the privilege of working under her supervision and for her helpful guidance. Her advice was always stimulating and especially essential to complete this work.

I wish to express my sincere thanks and gratitude to Prof. Dr. Ayman Shoeb, Professor of Cardiothoracic Surgery, Faculty of Medicine, Ain Shams University, for his great support, encouragement, patience, enthusiasm, criticism, fruitful comments and help without which this work would have never seen light.

I am also grateful to Dr. Wafaa El-Sayed Abd El Gileel, Assistant Professor of Pediatrics Nursing, Faculty of Nursing, Ain Shams University, for her unfailing kindness, support and advice. She has put freely at my disposal her immense experience and knowledge and spent a lot of her valuable time building up this work.

To my father, my mother, my brother, my sister, and to everyone who participated in some way or another to let this work come to such a final picture, I owe my thanks and gratitude.
