DEDICATION

DEDICATION

TO

MY PARENTS who offered me “every thing” (in the absolute meaning of these two words), without you I could not have been able to go through this lengthy career. May GOD bless you and Heaven be your place.

TO

MARWA, MOHAMED AND THE COMING BABY^{ENSILAA-ALLAH}, words do not come easy to express how much I love you. Simply, you are the answer for the question “why do I go through this difficult career?”. Thank you for every thing

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

If this study is said to be perfect, this would be because of the wise and strict instructions of **Professor Dr. Ibrahim Zeitoun**, from whom I have got a lot of things to learn.

Professor Dr. Hoda Saleeh, the golden ideas related to the anatomical part of this work enriched the subject so much. Thank you for your patience and support.

The calm but strict instructions wrapped within kindness, participated in fulfilling the pathological section of this study. Thank you **Professor Dr. Sanaa**.

Making things simple and easy could be reflected as encouragement, enthusiasm and self confidence. **Professor Dr. Yosry El-Adawy**, you affected me positively in a way you may not imagine. Thank you Sir.

All the skull base work except one was performed by an eminent skull base surgeon. **Professor Dr. Mohamed Badr-El-Dine**, you made me very much interested in this field that I will try to practice.
