MINUFIYA UNIVERSITY

FACULTY OF AGRICULTURE

DEPARTMENT OF
AGRICULTURAL BIOCHEMISTRY

BIOCHEMICAL STUDIES ON THE EFFECT OF SOME ENVIRONMENTAL POLLUTANTS IN EXPERIMENTAL ANIMALS

By

Hoda El-Sayed Ahmed Farid

B.Sc. Agric. Sci. (Agricultural Biochemistry),

Ain Shams Univ. (1996)

M.Sc. Agric. Sci. (Agricultural Biochemistry),

Minufiya Univ. (2002)

Thesis

Submitted in Partial Fulfillment of
The Requirements for the Degree of

Doctor of Philosophy in Agriculture Sciences

In

Agricultural Biochemistry

Minufiya University

2006

CREDIT SHEET

(Supervision Committee)

The Thesis Entitled: ***Biochemical studies on the effect of some environmental pollutants in experimental animals.***

Presented by: **Hoda El-Sayed Ahmed Farid**

B.Sc. (Agric. Sci. "Agricultural Biochemistry"), Ain Shams Univ., 1996.

M.Sc. Agric. Sci. (Agricultural Biochemistry), Minufiya Univ. (2002)

Has been supervised by:

1. Prof. Dr. Abd El-Wahab I. Eissa ***(Ph.D.)*** .....

Professor of Agric. Biochem., Fac. Agric., Minufiya University.
B.Sc., Agric. Biochem., Cairo University (1967)
M.Sc., Agric. Biochem., Cairo University (1971)
Ph.D., Agric Biochem., Cairo University (1974)

2. Prof. Dr. Mohamed A. Habib ***(Ph.D.)*** .....

Professor of Agric. Biochem., Fac. Agric., Minufiya University.
B.Sc., The Higher Institute of Agric. Shibin El-Kom (1968)
M.Sc., Agric. Biochem., Ain Shams University (1974)
Ph.D., Biochemistry, King's College, London University (1978)

3. Prof. Dr. Samia M. Khalil ***(Ph.D.)*** .....

Professor of Agric. Biochem., Fac. Agric., Minufiya University.
B.Sc., Agric. Biochem., Ain Shams University(1977)
M.Sc., Agric. Biochem.,Ain Shams University(1983)
Ph.D., Agric Biochem., Minufiya University (1990)

Date: / /2006

APPROVAL SHEET

Title of Thesis: Biochemical studies on the effect of some environmental pollutants in experimental animals.

Submitted To: Department of Agricultural Biochemistry,
Faculty of Agriculture, Minufiya University
Shibin El-Kom, Egypt

By: **Hoda El-Sayed Ahmed Farid**

B.Sc. (Agric. Sci. "Agricultural Biochemistry"), Ain Shams Univ., 1996.

M.Sc. Agric. Sci. (Agricultural Biochemistry), Minufiya Univ. (2002)

For: The Degree of Ph.D in "Agric. Sci. (Agricultural Biochemistry)"

This Dissertation work has been Assessed and Approved by:

1. **Prof. Dr. Hassan M. Salem** .....
   Professor of Agricultural Biochemistry,
   Faculty of Agriculture, Cairo University.
2. **Prof. Dr. Shaaban N. Deraz** .....
   Professor of Agricultural Biochemistry,
   Faculty of Agriculture, Minufiya University.
3. **Prof. Dr. Abd El-Wahab I. Eissa** .....
   Professor of Agricultural Biochemistry,
   Faculty of Agriculture, Minufiya University.
4. **Prof. Dr. Mohamed A. Habib** .....
   Professor of Agricultural Biochemistry,
   Faculty of Agriculture, Minufiya University.

Judgement Committee in Charge

Venue: Department of Agricultural Biochemistry,
Faculty of Agriculture, Minufiya University,
Shibin El-Kom, Egypt.

Date: 8 / 11 /2006

ACKNOWLEDGMENTS

Firstly, Ultimate thanks to GOD

I would like to express my cardiac thanks and sincere appreciation to ***Prof. Dr. Abd El-Wahab Ismail Eissa***, Prof. of Agricultural Biochemistry, Faculty of Agriculture, Minufiya University, for his supervision, sincere guidance, consultation, support, correction of the manuscript, giving from his valuable time and the unlimited help throughout this work.

My deepest gratitude is extended to ***Prof. Dr. Mohamed Abd El-Salam Habib***, Prof. of Agric. Biochemistry, Fac. Agric., Minufiya University, for his kind helps and providing the facilities needed to the research work.

I would also like to thank ***Prof. Dr. Samia Mahmoud Khalil*** Prof. of Agric. Biochem., Fac. Agric., Minufiya Univ., for her valuable helps in accomplishing this study and continuous encouragement.

I wish to express my deep thanks to all the staff members of Agric. Biochem. Dept., Fac. Agric., Minufiya Univ., for their help and cooperation during this investigation period.

I am deeply grateful to all my family members for their financial and moral support they gave to me during the course of this study.

CONTENTS

I-INTRODUCTION	1
II-REVIEW OF LITERATURE	6
1. Toxicity of pesticides.	6
2. Pesticides residues.	8
3. Plasma liver enzymes changes as a biomarker of hepatotoxicity in mammals.	27
4. Effect of xenobiotics on hepatic enzymes activities in mammals.	52
5. Changes in lipids profile due to xenobiotics in mammals.	57
III-MATERIALS AND METHODS	70
1. Persistence of tested pesticides on and in cucumber fruits.	70
1.1. Pesticides used.	70
1.1.1. Profenofos.	70
1.1.2. Fenitrothion.	71
1.2. Vegetable crop.	72
1.3. Design of experiments.	72
1.3.1. Pesticides application.	72
1.3.2. Collection of plant samples.	73
1.4. Pesticide residue analysis.	74
1.4.1. Extraction.	74
1.4.2. Clean up.	74
1.4.3. Determination.	75
1.5. Recovery studies.	76
2. Toxicological experiment.	76
2.1. Experimental animals.	76
2.2. Experimental materials.	77
2.2.1. Pesticides.	77
2.2.1.1. Profenofos.	77
2.2.1.2. Fenitrothion.	77
2.2.2. Pesticide combinations.	77
2.3. Experimental design.	78
2.3.1. Acute oral toxicity.	78
2.3.2. Chronic toxicity (12- months).	80
2.3.2.1. Pesticides and their combinations.	80
2.3.2.2. Feeding.	82
2.4. Blood samples.	84
2.5. Liver tissue homogenate.	84
2.6. Biochemical analysis.	85
2.6.1. Determination of plasma and liver enzymes activity.	85
2.6.1.1. Determination of aminotransferases (ALT and AST) activity.	85
2.6.1.2. Determination of alkaline phosphatase (ALP) activity.	87
2.6.1.3. Determination of gamma glutamyl transferase (GGT) activity.	88
2.6.2. Determination of plasma lipids concentration.	90
2.6.2.1. Determination of plasma total lipids concentration.	90
2.6.2.2. Determination of plasma total cholesterol concentration.	91
2.6.2.3. Determination of plasma triglycerides concentration.	93
2.6.2.4. Determination of plasma high density lipoprotein –cholesterol (HDL- cholesterol) concentration.	95

2.6.2.5. Determination of plasma low density lipoprotein – cholesterol (LDL-cholesterol) concentration.	97
2.7. Joint action analyses.	98
2.8. Statistical analysis procedures.	99
IV-RESULTS AND DISCUSSION.	100
I. Persistence of profenofos and fenitrothion insecticides on and in cucumber fruits.	100
1. Persistence of tested insecticides residues.	100
2. Removal of tested insecticides residues from cucumber fruits by washing process.	107
II.The acute oral toxicity (LD_{50}) of profenofos and fenitrothion insecticides on male albino rats.	112
III.Biochemical evaluation of liver harmful effects in male albino rats caused by profenofos, fenitrothion insecticides and their combinations.	113
1. Effect of tested pesticides and their combinations on plasma liver enzymes.	115
1.1. Effect of tested pesticides and their combinations on plasma aspartate aminotransferase (AST) and alanine aminotransferase (ALT) activities.	116
1.2. Effect of tested pesticides and their combinations on plasma alkaline phosphatase (ALP) activity.	140
1.3. Effect of tested pesticides and their combinations on plasma gamma glutamyl transferase (GGT) activity.	152
2. Effect of tested pesticides and their combinations on liver tissue enzymes activity.	168
2.1. Effect of tested pesticides and their combinations on hepatic transaminase enzymes (AST and ALT) activity.	169
2.2. Effect of tested pesticides and their combinations on hepatic alkaline phosphatase (ALP) activity.	187
2.3. Effect of tested pesticides and their combinations on hepatic gamma glutamyl transferase (GGT) activity.	197
3. Effect of tested pesticides and their combinations on plasma lipids concentration.	211
3.1. Effect of tested pesticides and their combinations on plasma total lipids concentration.	212
3.2. Effect of tested pesticides and their combinations on plasma total cholesterol concentration.	223
3.3. Effect of tested pesticides and their combinations on plasma triglycerides concentration.	235
3.4. Effect of tested pesticides and their combinations on plasma high density lipoprotein (HDL) concentration.	246
3.5. Effect of tested pesticides on plasma low density lipoprotein (LDL) concentration.	257
