**The Effect of Iontophoresis on Fluoride
Acquisition by Primary and Permanent
Enamel in a Group of Egyptian Children
Using Two Fluoride Gels**

B16970

Thesis

*Submitted to the Faculty of Oral and Dental Medicine
Cairo University*

*In Partial Fulfillment of the Requirements
for the Master Degree in Pedodontics & Orthodontics*

By

Sherine Badr Youness

B.D.S. (Cairo University)

2003

"قَالُوا لَسْبَحَكَ أَنْتَ لَا إِلَهَ إِلَّا أَنْتَ الْحَمْدُ لَكَ الْحَمْدُ أَنْتَ
أَنْتَ الْغَلِيُّ الْغَلِيُّ الْغَلِيُّ"

صدق الله العظيم
(سورة البقرة الآية رقم ٢٢)

SUPERVISORS

Dr. Nevine Waly
Professor of Pedodontics,
Faculty of Oral and Dental Medicine
Cairo University

Dr. Laila Abd El Fattah
Professor of Analytical Chemistry,
And vice Dean of Faculty of Pharmacy for research and
post graduate affairs
Cairo University

Dr. Amr Ezzat Abd El Latif
lecturer of Pedodontics,
Faculty of Oral and Dental Medicine
Cairo University

This work is dedicated to my beloved
daughter, precious parents, loving husband and
dear sisters for their endless love, care and
support.

Acknowledgment

I would like to express my deep gratitude to **Professor Dr. Nevine Waly**, Professor of Pedodontics, Faculty of Oral and Dental Medicine, Cairo University, for her concern, her guidance and continuous encouragement. I consider myself very fortunate to work under her supervision.

I would like to express as well my deep thanks to **Professor Dr. Laila Abd El Fattah**, Professor of Analytical chemistry, and vice dean of Faculty of Pharmacy for research and postgraduate affairs, Cairo University, for her continuous help and encouragement. Her sincere concern will always be remembered.

I am grateful to **Dr. Amr Ezzat Abd El Latif**, Lecturer of Pedodontics, Faculty of Oral and Dental Medicine, Cairo University, for his support and help to have this work fulfilled.

My full gratitude to **Dr. Maïssa Yacoub Salem**, Lecturer of Analytical Chemistry, Faculty of Pharmacy, Cairo University, who helped me to carry out the practical chemical analysis and in writing this part of the thesis.

Last but not least I would like to thank all the **stuff members of Pedodontic Department** for their enormous help, support, and motivation.

List of Contents

<i>List of Tables</i>	i
<i>List of Figures</i>	ii
<i>Introduction</i>	1
<i>Review of Literature</i>	4
<i>Aim of the Study</i>	23
<i>Materials and Methods</i>	24
<i>Results</i>	40
<i>Discussion</i>	51
<i>Summary and Conclusions</i>	59
<i>References</i>	61
<i>Appendix</i>	
<i>Arabic Summary</i>	

List of Tables

Table No.		Page
1	Fluoride content before and after treatment in each study group.	42
2	Enamel fluoride concentration as affected by method of fluoride application in deciduous teeth.	44
3	Descriptive statistics for absolute fluoride uptake by deciduous teeth.	45
4	Enamel fluoride concentration as affected by method of fluoride application in permanent teeth.	47
5	Descriptive statistics for absolute fluoride uptake by permanent teeth.	48
6	Comparison of fluoride uptake in deciduous and permanent teeth.	49
7	Comparison of fluoride uptake from APF and NaF.	49
8	Comparison of fluoride uptake after topical application only and enhanced by iontophoresis.	50
