APPROVAL SHEET

Title of the Ph.D. Thesis:

The Efficacy of Chlorophyllin Treatment in Reducing Liver
Damage Induced by AFB1 and Gamma Irradiation in Rats

Name of Candidate:

René Georgy Rezk Mlika

Submitted to the
Faculty of Science, Cairo University

Supervision Committee:

1- **Prof. Dr. Nagla Kamal El Sayed**

Prof. Of Zoology, Faculty of Science,
Cairo University

2- **Prof. Dr. Mohamed Abdel Hamid Mansour**

Prof. and Head of National Center for Radiation
Research and Technology

3- **Prof. Dr. Safaa Mohamed Ahmed Nasr**

Head of Health Research Department
at National Center for Radiation Research and Technology

4- **Assistant Prof. Dr. Aliaa Mahmoud Issa**

Assistant Prof. of Zoology, Faculty of Science,
Cairo University

Aliaa M. Issa

Head of Zoology Department

Prof. Dr. Mohamed Ismail

ACKNOWLEDGEMENT

I am, and will always be, indebted to Allah, the most Gracious and the most Merciful, the bounties of whom I can never reckon.

I would like to express my deepest gratitude and sincere appreciation to Prof. **Dr. Nagla Kamal EL-Sayed**, Prof of Histology, Histochemistry and cell biology, Zoology Department, Faculty of Science, Cairo University, for her continuous interest, motherly encouragement, invaluable advice, fruitful discussions and her generous efforts are acknowledged with gratitude. Her support and unlimited help, throughout this work, her intelligent remarks throughout the various steps of this work and critical reading and reviewing of the manuscript are highly appreciated.

No words are sufficient to express what I have in my heart for my teacher.

I am greatly indebted to Prof. **Dr. Mohamed Abdel Hamid Mansour**, Chairman of National Center for Radiation Research and Technology (NCRRT), Cairo, who has spared no effort to provide me with the knowledge, experience and facilities necessary for achieving my work. His supervision, valuable advice and constructive criticism have been landmarks along my path.

Words can never express my appreciation to Prof. **Dr. Safaa Nasr** ; Prof. of Medical Science and Head of Health Research Department, NCRRT for suggesting the point of research and work plan and her faithful supervision and guidance in the practical part and the interpretation of data. She has exerted every effort to provide me

with the equipment and material necessary for this work.

I am very grateful and indebted to Assist. Prof. **Dr. Aliaa Mahmoud Issa** . Assistant Prof. of Zoology, Faculty of Science, Cairo University, for sharing in the supervision, and her continuous support.

Thanks are expressed to Prof. **Dr. Nour EL-Dein Amin**, Head of Biotechnological Branch, NCRRT for enlighting me with his vast experience and offering all the facilities needed during the work.

Last but not least I wish to thank my friends, and colleagues who have helped and supported me in one way or another during my work and many thanks to Mr. Mohamed Mahmoud for his patience in typing the manuscript.

—

This work is dedicated to the deep memory of my **father**.

To the loving respect of my **mother**.

To m y **husband**.

To my **sister and brother**.

List of Abbreviations

AF	Aflatoxin
AF _{B1}	Aflatoxin B ₁ .
ALT	Alanine aminotransferase.
AST	Aspartate aminotransferase
Bw	Body weight
CCl ₄	Carbon tetrachloride
CHL	Chlorophyllin
Cm	Centimeter
DMSO	Dimethyl sulphoxide
DNA	Deoxyribonucleic acid
3D	Three dimensions
e ⁻	Free electron.
G	Gram
GOT	Glutamic oxaloacetic transaminase.
GPT	Glutamic pyruvic transaminase.
Gy	Gray (radiation unit)
γ-irradiation	Gamma irradiation
H [•]	Hydrogen radical
H ⁺	Hydrogen ion
H ₂ O	Water molecule
H ₂ O ⁺	Ionized water molecule.
H ₂ O ₂	Hydrogen peroxide.
HBV	Hepatitis B virus
HCC	Hepatocellular carcinoma.
HE	Haematoxylin and eosin.
HSI	Hue, saturation and intensity.
HO ₂ ⁻	Hydroperoxyl ion.
HO ₂ [•]	Hydroperoxy radical.

hr	Hour
Kg	Kilogram
m mol	Millimole.
M/F	Male /female
µg	Micro gram.
mg	Milligram.
min	Minute.
mi	Millimeter
NaOH	Sodium hydroxide.
NCRRT	National Center for Radiation Research and Technology
O ₂	Oxygen molecule.
OH [•]	Hydroxyl radical.
OH ⁻	Hydroxyl ion.
P ₅₃	Tumor suppressor gene.
R	Radiation (irradiation).
RGB	Intensities of red, green and blue.
ROI	Region of interest.
S ²	Variance
SD	Standard deviation
SE	Standard error.
SPSS	Statistical Package for Social Sciences.
T	T -test.
X	Arithmetic mean.

List of Tables

	page
Table 1: Serum ALT of negative and positive control rats.	61
Table 2: Serum ALT of male albino rats injected with AFB ₁ and treated with CHL.	62
Table 3: Serum ALT of male albino rats subjected to whole body γ -irradiation with accumulated doses.	62
Table 4: Serum ALT of male albino rats irradiated with whole body accumulated doses of γ -irradiation and treated with CHL.	63
Table 5: Serum ALT of male albino rats injected with AFB ₁ and subjected to whole body γ -irradiation with accumulated doses.	64
Table 6: Serum ALT of male albino rats injected with AFB ₁ and whole body γ -irradiation accumulated doses and treated with CHL.	65
Table 7: Serum AST of negative and positive control male albino rats.	66
Table 8: Serum AST of male albino rats injected with AFB ₁ and treated with CHL.	67
Table 9: Serum AST of whole body γ -irradiated albino rats with accumulated doses.	67
Table 10: Serum AST of male albino rats irradiated with whole body accumulated doses of γ -irradiation and treated with CHL.	68
Table 11: Serum AST of male albino rats injected with AFB ₁ and subjected to whole body γ -irradiation accumulated doses.	69
Table 12: Serum AST enzyme of male albino rats injected with AFB ₁ subjected to whole body γ -irradiation accumulated doses and treated with CHL.	70
