Acknowledgements

First, I would like to acknowledge the support to my professors, doctors, collaborators, and friends for more than three years. Especially, I wish to express my gratitude and appreciation to my supervisors Prof. Shahinaz Yousef, Prof. Magdy Yousef, and Dr. Mohamed Semeida for their guidances, patience, and continuous encouragements throughout my graduate studies. I would like to thank Prof. Edward Schnahl for his patience, helpful, fruitful discussions and valuable advices. He always helped me with this and his discussions let me recognize how enjoyable to study. I also would like to thank Profs. Heinzl P., Kotrc, P. and Dr. Prosecky T. from Astronomical Institute at Ondrejov in Czech Republic for providing me the observational data and unlimited help. I acknowledge Dr. Mohamed Yousef, Dr. Mohamed Ghareeb and their colleagues in the National Research Institute of Astronomy and Geophysics for giving me their assistance and wonderful experiences to continue my study. I also thank Prof. Naheed Yousef for her careful comments. I would extend my thanks to Profs. Mohamed Marie., the head of the department of Meteorology and Astronomy, Magdy Abd-Elwahab and Mohamed Rassem for their encourages and support. Finally, I express my most sincere gratitude and deep thanking for my lovely wife, sons and daughters for their unlimited patience, continuous encouragements, and supports.
