**The Half And Half Nail Phenomenon In  
Patients With Chronic Renal Failure Under  
Maintenance Hemodialysis And Its  
Correlation To Gastroduodenal  
Angiodysplasia**

Master Degree Thesis

BY

**Medhat Abou El-Fetouh**

M. B. B. Ch.

SUPERVISED BY

**Prof. DR. El-Metwally El-Shahawy**

Professor of internal medicine Head of nephrology unit  
Benha Faculty of Medicine

**Dr. Mohammad Salem**

Ass. Professor of internal medicine  
Benha Faculty of Medicine

**Dr. Mohammad Shawki**

Ass. Professor of internal medicine  
Benha Faculty of Medicine

**BENHA FACULTY OF MEDICINE  
ZAGAZIG UNIVERSITY**

1999

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

**"قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا  
مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ الْعَلِيمُ  
الْحَكِيمُ"**

صدق الله العظيم

سورة البقرة آية ٣٢

## *Acknowledgment*

*First and above all, thanks to Allah, the merciful, the compassionate without his help, I could not complete this work.*

*Words stand short when coming to express my deep gratitude and great thanks to Prof. Dr. El-Metwelly El-Shahawy. Professor of Internal Medicine, Head of Nephrology unit, Benha Faculty of Medicine for his continuous encouragement and sincere advise which have been the main factors to complete this work.*

*I am also delighted to introduce my deep respect and thanks to Dr. Mohammad Salem, Ass. Prof. Of Internal Medicine, Benha Faculty of Medicine, for his kind care and great assistance throughout this work.*

*I wish to express my deepest gratitude and cordial thanks to Dr. Mohammad Sharabi, Ass. Prof. Of Internal Medicine, Benha Faculty of Medicine, for his kindness, encouragement, and cooperation in all steps of this work.*

## **List of Tables**

### **Table 1**

Sex distribution among the studied group according to  
development of half and half nails. .... 150

### **Table 2**

Sex distribution of the studied group according to  
development of angiodysplasia ..... 151

### **Table 3**

The age and duration of dialysis among the studied group ..... 152

### **Table 4**

The age among the studied group according to development of  
Half and Half nail ..... 152

### **Table 5**

The age among the studied group according to the  
development of angiodysplasia ..... 152

### **Table 6**

The duration of dialysis among the studied group according to  
development of half and half nail ..... 152

## **List of Tables** (Continuo)

### **Table 7**

The duration of dialysis among the studied group according to development of angiodysplasia ..... 153

### **Table 8**

Gastrointestinal bleeding among the studied group in relation to half and half nail ..... 153

### **Table 9**

Gastrointestinal bleeding among the studied group according to development of angiodysplasia ..... 154

### **Table 10**

Hematological indices among the studied group ..... 155

### **Table 11**

Comparison between patients with and without Half and Half nails according to hematological indices ..... 156

### **Table 12**

Comparison between patients with and without Angiodysplasia according to hematological indices ..... 157

## **List of Tables** (Continuo)

### **Table 13**

Biochemical data among the studied group ..... 158

### **Table 14**

Comparison between patients with and without half and half  
nails according to the biochemical data ..... 158

### **Table 15**

Comparison between patients with and without angiodysplasia  
according to biochemical data ..... 159

### **Table 16**

Renal function of the studied group according to development  
of half and half nail ..... 159

### **Table 17**

Urea & Creatinine of the studied group according to the  
development of angiodysplasia ..... 160

### **Table 18**

Occult blood in stools of the studied group according to the  
development of half and half nail ..... 161

## **List of Tables** (Continuo)

### **Table 19**

Occult blood in stool the studied group according to the  
development of angiodysplasia ..... 162

### **Table 20**

Summary of endoscopic findings among the studied group ..... 163

### **Table 21**

Results of endoscopy among the studied group according to  
their sites ..... 164

### **Table 22**

Occurrence of half and half nail in patients on maintenance  
hemodialysis ..... 165

### **Table 23**

Comparison between patients with and without Half and half  
nail according to the presence of gastroduodenal angiodysplasia .. 165

### **Table 24**

Correlation between gastroduodenal angiodysplasia and half  
and half nail phenomenon ..... 166

## **List of Tables** (Continuo)

### **Table 25**

Sex, clinical and endoscopic data of the studied group ..... 167

### **Table 26**

Age, duration of dialysis and laboratory data of the studied  
group ..... 168

### **Table 27**

Bleeding profile in patients with half and half nail ..... 169

### **Table 28**

Bleeding profile in patients with angiodysplasia ..... 169
