HANAA ALY

University College for Women
(Arts, Science, and Education)
Department of Mathematics

On Some Dynamic inequalities on time scales

THESIS
SUBMITTED IN PARTIAL
FULFILLMENT OF REQUIREMENTS
FOR THE DEGREE
OF
MASTER OF SCIENCE (M.Sc.)
(PURE MATHEMATICS)

BY

Fatma Mostafa Khamis Ahmed

Department of Mathematics
University College for Women
Ain Shams University

SUPERVISORS

Prof. Dr. Hassan Mostafa El-Owaidy
Professor of Mathematics
Faculty of Science
Al-Azhar university

Prof. Dr. Gamal A. F. Ismail
Professor of Pure Mathematics
University College for Women
Ain Shams University

Dr. Ahmed Abdel Moneim El-Deeb
Faculty of Science
Al-Azhar university

2019

Ain Shams University
University College for Women
(Arts, Science, and Education)
Department of Mathematics

M.Sc. Thesis
(PURE MATHEMATICS)

Title of Thesis:

On Some Dynamic Inequalities on Time Scales

Thesis supervisors:

Prof. Dr. Hassan Mostafa El-Owaidy
Professor of Mathematics
Faculty of Science
Al-Azhar university

Prof. Dr. Gamal A. F. Ismail
Professor of Pure Mathematics
University College for Women
Ain Shams University

Dr. Ahmed Abdel Moneim El-Deeb
Faculty of Science
Al-Azhar university

Ain Shams University
University College for Women
(Arts, Science, and Education)
Department of Mathematics

COURSES

The student has passed the following courses in partial fulfillment of requirement for M. Sc. degree:

- | | | |
|---|---|-------------|
| 1. Numerical Analysis. | . | 3h per week |
| 2. Complex Analysis. | . | 3h per week |
| 3. Numbers Theory. | | 3h per week |
| 4. Partial Differential Equations. | | 3h per week |
| 5. Differential Geometry. | | 3h per week |
| 6. Spectral Theory and its Applications. | | 3h per week |
| 7. Advances Differential Equations | | 3h per week |
| 8. Linear and Nonlinear Difference Equations. | | 3h per week |

Head of Mathematics Department

ACKNOWLEDGEMENTS

Acknowledgements

First and foremost, my great thanks are due to " **ALLAH** " for showing me the right path to introduce this work. A special word of thanks goes to my supervisors **Prof. Dr. Hassan El-Owaidy**, Department of Mathematics, Faculty of Science, Al-Azhar University, **Prof. Dr. Gamal A. F. Ismail**, Department of Mathematics, Women's College, Ain Shams University and **Dr. Ahmed Abdel-Moneim El-Deeb**, Department of Mathematics , Faculty of Science, Al-Azhar University, for their inspiring guidance, and suggesting the point, valuable discussion, and their kind treatment for our teamwork and for using their library, and for the amazing amount of time and effort they put into researching various topics, answering my many questions and proofreading several various of this thesis. Without their help I would not have been able to complete my study. Finally, I wish to express my sincere thanks and gratitude to my beloved parents, my friends and my family for their help and encouragement from the beginning of the research, and providing inspiration throughout the year.

Cairo, Egypt
2019

Fatma M. Kh. Ahmed
