**EPIDEMIOLOGICAL AND GENETIC  
ANALYSIS OF DIARRHEAGENIC  
ESCHERICHIA COLI ISOLATED  
FROM CHILDREN IN TANTA**

**Thesis**

*Submitted for*

*The degree of Philosophy Doctor in Pharmaceutical  
Sciences*

**"Pharmaceutical Microbiology"**

**Presented By**

**AMAL EISSA MOHEB SAAFAN**

Pharmacist in Microbiology Department ,  
Faculty of Pharmacy – Tanta University

**FACULTY OF PHARMACY**

**TANTA UNIVERSITY**

**2003**

# **SUPERVISORS**

*Dr.* **AHMED AHMED ABDEL AZIZ**

Professor and Chairman of Microbiology Department  
Faculty of Pharmacy  
Tanta University

*Dr.* **TAREK EL-SAID EL-BANNA**

Professor of Microbiology & Vice Deān  
Faculty of Pharmacy  
Tanta University

*Dr.* **MAGDA HASSAN ABO SKEENA**

Professor of Pediatrics  
Faculty of Medicine  
Tanta University

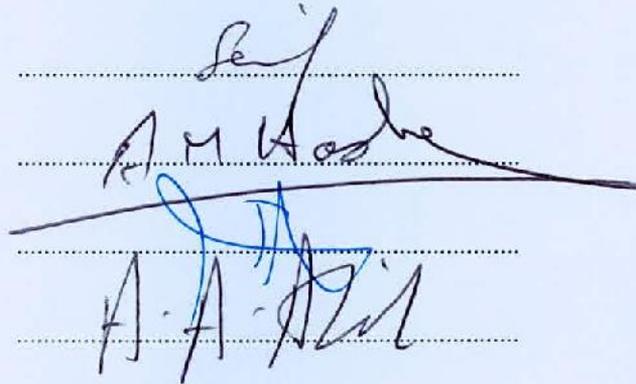

*Dr.* **AMAL MOSTAFA ABO KAMAR**

Assistant Prof. of Microbiology  
Faculty of Pharmacy  
Tanta University

APPROVAL SHEET

**Epidemiological and Genetic Analysis of  
Diarrheagenic *Escherichia coli* isolated from  
Children in Tanta**

*Approved by :*

The image shows three handwritten signatures on a dotted line. The top signature is in black ink and appears to be 'S. El'. The middle signature is in black ink and appears to be 'A. M. H. H. H.'. The bottom signature is in blue ink and appears to be 'A. A. H. H. H.'. A horizontal line is drawn across the middle signature.

*Committee in charge*

Date : 23 / 10 / 2003

## ACKNOWLEDGMENT

First, I would like to express my deepest gratitude and thanks to **ALLAH**, whose magnificent help was the main factor in accomplishing the work.

I would like to express my sincere gratitude and appreciation to Prof. Dr. **AHMED ABDELAZIZ**, Professor and Head of Pharmaceutical Microbiology Dept, Faculty of Pharmacy, Tanta University for his valuable advice, kind guidance and sustained support during the progress of this work.

I am deeply grateful to Prof. Dr. **TAREK EL-BANNA**, Professor of Microbiology and Vice Dean, Faculty of Pharmacy, Tanta university, for suggesting the subject, for sponsoring the work, enriching me with his vast experience, unlimited help, and valuable efforts and advice throughout the study.

I would like to express my profound gratitude and deep appreciation to Prof. Dr. **Magda abo-skeena**, Professor of Pediatrics, Faculty of Medicine, Tanta University for her great help and experienced guidance throughout the period of the work.

Acknowledgment and cordial thanks are to Dr. **AMAL Abo-kamar**, Associate Professor of Pharmaceutical Microbiology, Faculty of Pharmacy, Tanta University for her kind supervision, valuable efforts and encouragement during the conduction of this work.

I would also like to thank Prof. Dr. **Fatma I. Sonbol**, and my colleagues in the Dept. of Microbiology for their willing cooperation.

My great consolation for the great loss of the late Prof. Dr. **Mokhtar S. Ammar**, and I hope to him an eternal life in Paradise.

Acknowledgement is due to technicians of the Dept. of Microbiology and the authorities of the Faculty of Pharmacy, Tanta University for providing all possible facilities.

Finally I would like to thank my family for their patience understanding and continuous encouragement during my work.
