SELF-CARE PROGRAM FOR CHILDREN WITH BETA-THALASSEMIA MAJOR

THESIS

Submitted to Faculty of Nursing
University of Alexandria
In Partial Fulfillment of the Requirement
For the Doctorate Degree of Pediatric Nursing

By

Laila Younis Abo-Salem

M.sc N.

Assistant Lecturer,
Department of Pediatric Nursing
High Institute of Nursing, El-Mansoura University

**Faculty of Nursing,
University of Alexandria**

1999

SUPERVISORS

Prof. Dr. GAMALAT EI-SAYED MANSY

Professor of Pediatric Nursing
Vice Dean for Graduate Study and Research
Faculty of Nursing,
University of Alexandria.

Prof. Dr. SHEBL SAID SHEBL

Professor of Pediatrics,
Head of the Hematology / Oncology Department
Faculty of Medicine,
Tanta University

Prof. Dr. SUZAN ROUSHDY ISMAIL

Professor and Chairman of Department of Human Genetics,
Medical Research Institute,
Alexandria University

Dr. YOUSR ABD EL SALAM GAAFAR

Assistant Professor of Pediatric Nursing
Faculty of Nursing,
University of Alexandria.

ACKNOWLEDGEMENT

First and foremost thank to ALLAH whose magnificent help was the main factor in accomplishing this work.

Words cannot express the gratitude I have to All those who offered me their help and advice during this work.

I would like to express my deep appreciation and grateful thanks to Prof. Dr. Gamalat El-Sayed Mansy Professor of Pediatric Nursing, and Vice-Dean for Graduate Studies and Research, Faculty of Nursing, University of Alexandria for her endless help, valuable advice, kind supervision, great support and patience through this work. I feel greatly honored to work under her supervision.

I wish to convey my sincere appreciation and gratitude to Prof. Dr. Shebl Said Shebl, Professor of Pediatrics and Head of Hematology / Oncology Department, Tanta University, for suggestion of this study and for supervision, valuable guidance, the time and effort he generously gave me.

I would also like to express my deep gratitude, thanks and appreciation to Prof. Dr. Suzan Roushdy Ismail, Chairman, Department of Human Genetics, Medical Research Institute, Alexandria University, for her precious remarks and kind supervision.

I am especially grateful to Dr. Yousr Abd El-Salam Gaafar, Assistant Professor of Pediatric Nursing, Faculty of Nursing, University of Alexandria, for her valuable instructions, encouragement and support through this work.

I owe a particular debt to Prof. Dr. Mohammed Mostafa Hafez, Professor of Pediatrics and Dean of Faculty of Medicine, El-Mansoura University. His useful remarks and fruitful contribution in the planning of this study are heartily appreciated.

Last but not least, great thanks to the staff member and nurses of the Hematology / Oncology Department of Tanta University for their kind help and encouragement.

**To All Patients
with beta-Thalassemia
Major**

List of Contents

<u>Chapter</u>	<u>Page</u>
I. Introduction.	1
Review of Literatures.	6
▪ Anatomy and Physiology of Blood.	6
▪ Sites of Hematopoiesis and Production of Red Blood Cells.	8
▪ Iron Metabolism.	10
▪ The Thalassemias.	12
▪ Pathophysiology of β -Thalassemia Major.	14
▪ Clinical Presentation and Laboratory Features of β -Thalassemia Major.	16
▪ Complications.	20
▪ Management of β -Thalassemia Major.	21
▪ Orem's Self-Care Model.	33
▪ Nursing Care of Children with β -Thalassemia Major Using Orem's Self-Care Model.	35
II. Aim of The Study.	64
III. Material and Methods	65
IV. Results.	72
V. Discussion	121
VI. Summary.	134
VII. Conclusion and Recommendation	140
VIII. References	143
