Amal El Molla

"FURTHER STUDIES ON GENITAL MYCOPLASMOSIS IN CATTLE AND BUFFALOES"

Thesis presented
by

Enas Mohamed Gamal El-Din Abd El-Samie Sowailim

B.V.Sc. (1993), Cairo University

For The Degree of M.V.Sc of Vet. Science
(Infectious Diseases)

Under Supervision of

Prof. Dr. Amal Abd El-Aziz El-Molla

Prof. of Infectious Diseases
Faculty of Veterinary Medicine,
Cairo University

Dr. Naglaa Ibrahim Hassan

Senior Researcher, Genital Diseases Department
Animal Reproduction Institute, El-Haram, Giza

{ 2002 }

Cairo University
Faculty of Veterinary Medicine,
Department of Internal Medicine
and Infectious Diseases

APPROVAL SHEET

This is to approve that the dissertation presented by **ENAS**
MOHAMED GAMAL ELDIEN for the M.D. Degree (Infectious
Diseases) has been approved by the examining committee:

1. Prof. Dr. Ahmed Abd El-Moniem Zaghawa

Prof. of Infectious Diseases,
Faculty of Veterinary Medicine,
El-Sadat University.

A Zaghawa

2. Prof. Dr. Sabry Aziz Barsoom

Prof. of Infectious Diseases,
Faculty of Veterinary Medicine,
Cairo University.

S Barsoom

3. Prof. Dr. Amal Abd El-Aziz El-Molla

Prof. of Infectious Diseases,
Faculty of Veterinary Medicine,
Cairo University.
(Supervisor)

Amal El Molla

Date: 18/4/2002

ACKNOWLEDEMENT

Words are not enough to express my feelings of great appreciation towards **Prof. Dr. Amal El-Molla**, Professor of Infectious Diseases, Faculty of Veterinary Medicine, Cairo Univeristy, who supervised me through this work, for her emotional and practical support and patience.

Thanks to **Dr. Naglaa Ibrahim Hassan**, Senior Researcher, Genital Diseases Department, Animal Reproduction Institute, Giza, for her supervision.

I am greatly indebted to **Prof. Dr. Zeidan Kholeif and Prof. Dr. Nabil El-Danaf**, Directors of Animal Reproduction Institute, Giza, for supplying all the required equipment.

I would like to send my grateful gratitude to all who helped me to complete the practical part of this work: **Dr. Ibrahim Gad, Dr. Selim Ahmed, Dr. Mohamed Hegazy and Dr. Salama Abdel Hafiz**, Animal Reproduction Institute, Giza.

ACKNOWLEDGEMENT

Also, my special great thanks to **Dr. Magdy Yassin**, Animal Reproduction Institute, Giza, for his endless guidance.

My thanks to directors of the Animal Reproduction Institute, Head of the Genital Diseases Department, **Dr. Hossam El-Refaei**.

Contents

Contents	i
List of table	vii
List of figures	ix
1- introduction	1
2- literature	4
2.1. Mycoplasma in bovine genital tract	4
2.2. Flourescent antibody technique as a serological identification of mycoplasma	16
2.3. Dot-ELISA in serological diagnosis of mycoplasma	22
3- Material and Methods	28
3.1. Material	28
3.1.1. Farms	28
3.1.1.1. Group (A) farms	28
3.1.1.2. Group (B) farms	29
3.1.2. Animals	29
3.1.2.1. Farm animals	29
3.1.2.2. Laboratory animals	30
3.1.3. Samples	30
3.1.4. Culture media	31
3.1.4.1. Mycoplasma isolation media	31

3.1.4.1.1. Heart infusion medium-HN	31
3.1.4.1.2. Brian heart infusion	31
3.1.4.2. Biochemical characterization media	31
3.1.4.2.1. Glucose medium	31
3.1.4.2.2. Modified arginine medium	31
3.1.5. Supplements, stock solutions and buffers	32
3.1.5.1. Horse serum	32
3.1.5.2. Fresh yeast extract	32
3.1.5.3. Phenol red preparation	32
3.1.5.4. Penicillin-G sodium	32
3.1.5.5. Deoxy ribonucleic acid (DNA)	32
3.1.5.6. Thallium acetate	33
3.1.5.7. Phosphate buffered saline	33
3.1.5.8. Digitonin	33
3.1.6. Chemicals and reagents of rapid screening using	
Dot-ELISA	33
3.1.6.1. Nitrocellulose discs	33
3.1.6.2. Antigens	34
3.1.6.3. Antisera	34
3.1.6.4. Anti-Rabbit IgG	34
3.1.6.5. Blocking digestion buffer	34

3.1.6.6. Deoxy ribonuclease (Dnase)	34
3.1.6.7. Lysozyme	34
3.1.6.8. Bovine serum albumen	35
3.1.6.9. TBS	35
3.1.6.10. TBS Tween	35
3.1.6.11. 4-chloro-1-naphthol	35
3.1.7. Chemicals and reagents used for identification of mycoplasma by FAT	35
3.1.7.1. Cultures	35
3.1.7.2. Antisera	35
3.1.7.3. Conjugate	36
3.1.7.4. Phosphate buffer saline	36
3.1.7.5. Plastic cylinders	36
3.1.7.6. Controls	36
3.1.7.7. Microscopy	36
3.2. Methods	37
3.2.1. Collection of samples	37
3.2.1.1. Vaginal swabs	37
3.2.1.2. Preputial swabs	37
3.2.1.3. Fresh semen samples	37
3.2.1.4. Aborted foeti samples	38

3.2.1.5. Frozen semen samples	38
3.2.2. Culture procedures	40
3.2.3. Purification of mycoplasma isolates	40
3.2.4. Maintenance of mycoplasma isolates	42
3.2.5. Differentiation of mycoplasma and acholeplasma isolates using digitonin sensitivity test	42
3.2.6. Identification of mycoplasma isolates	44
3.2.6.1. Biochemical identification	44
3.2.6.1.1. Glucose fermentation test	44
3.2.6.1.2. Arginine deamination test	44
3.2.6.2. Sero-identification of mycoplasma isolates	44
3.2.7. Preparation of mycoplasma antigens	46
3.2.8. Anisera production	47
3.2.9. Rapid diagnosis by Dot-ELISA	47
3.2.10. Diagnosis by FAT	50
3.2.10.1. Agar block technique	50
3.2.11. Statistical analysis	53
4- Results	54
4.1. Primary isolation of mycoplasma from cattle	54
4.2.1. Isolation of mycoplasma from cattle-bulls prepuce in relation to the breeding system	57

4.2.2. Isolation of mycoplasma from cattle-bulls semen in relation to the breeding system	60
4.3. Primary isolation of mycoplasma from buffalos	63
4.4.1. Isolation of mycoplasmas from buffalo-bulls prepuce in relation to the breeding system	66
4.4.2. Isolation of mycoplasmas from buffalo-bulls semen in relation to the breeding system	69
4.5. Comparison of mycoplasmas isolation in cattle and buffalos	72
4.6.1. isolation of mycoplasmas from cattle in relation to the hygienic conditions	75
4.6.2. Isolation of mycoplasmas from buffalos in relation to the hygienic conditions	78
4.7. Effect of seasonal variations on the recovery rates of mycoplasmas in cattle and buffalos	81
4.8. Identification of mycoplasma isolates by digitonin sensitivity test	84
4.9. Biochemical characterization of mycoplasma isolates	87
4.10. Serological identification of mycoplasma isolates by growth inhibition test	90
4.11. Serological identification of mycoplasma isolates by	

Dot-ELISA	93
4.12. Serological identification of mycoplasma isolates by FAT	99
4.13. Comparison between recovery rates of mycoplasma by growth inhibition test and FAT	102
