## "حالة دراسية : تنمية بحيرة مريوط"

by

**SALAH EL DIN SAMIR HAREEDY**

**Thesis Submitted to: Department of Architecture**

**Faculty of Fine Arts**

**Alexandria University**

To Obtain: A **Ph.D. DEGREE** IN ARCHITECTURE

Supervised by

**Professor Dr./ MOHSEN ABOU BAKER BAYAD**

Professor of Architecture and Urban Design

Faculty of Fine Arts – Alexandria University

**Dr./ AHMED NASHAAT DARWEESH**

Assistant Professor of Architecture

Faculty of Fine Arts – Alexandria University

**November 2000**

**SUPERVISOR:**

**Professor Dr./ MOHSEN ABOU BAKER BAYAD**

Professor of Architecture and Urban Design

Faculty of Fine Arts – Alexandria University

**Dr./ AHMED NASHAAT DARWEESH**

Assistant Professor of Architecture

Faculty of Fine Arts – Alexandria University

# DESIGN CRITERIA FOR WATER EDGE AREAS

## "CASE STUDY LAKE MARIOUT"

# المحددات التصميمية لمناطق حواف المياه

## "حالة دراسية : تنمية بحيرة مريوط"

by

**SALAH EL DIN SAMIR HAREEDY**

A dissertation submitted in partial fulfillment
of the requirements for the degree of
**Doctor of Philosophy in Fine Arts (Architecture)**
**in Alexandria University**
**November 2000**

## DOCTORAL COMMITTEE:

**Professor Dr./ MOHSEN ABOU BAKER BAYAD**
Professor of Architecture and Urban Design
Head of the Architecture Department & Associate Dean of the Faculty of Fine Arts – Alexandria University.....**Chairman**

**Professor Dr./ MAGDY MOHAMED MOUSA**
Professor of Architecture and Urban Design and Dean of the Faculty of Fine Arts – Alexandria University.....**Internal Juror**

**Professor Dr./ LAILA ELSAYED EL MASRY**
Professor of Urban Design, Planning and Landscape Architecture and Associate Dean of Graduate Studies of the Faculty of Regional and Urban Planning – Cairo University.....**External Juror**

# ACKNOWLEDGEMENTS

I would like to extend my thanks and gratitude to all my professors to whom I owe a great deal, especially to my supervisor Prof. Dr. Mohsen Bayad for all his guidance and tolerance throughout the long research period. I would also like to thank Prof. Dr. Magdy Mousa, especially that it was he who first directed me to this line of study in earlier days. My deepest thanks to Prof. Dr. Laila El Masry for her illuminative preliminary comments. To Dr. Ahmed Nashaat Darwish goes my thanks for his kind support. To my parents I present my deepest gratitude - which will never be enough - for their moral and practical support and the seed of knowledge they planted in us since childhood. To my wife who not only supported and bore with me, but actually helped me in editing the work. To the family of my younger colleagues in "HEADS" who lived sleepless nights during editing the work. My special thanks to Brigadier General / Aly Haggag for the great help and precious information he offered me. My warmest thanks to all my colleagues and friends who helped and encouraged me all the way. They are - fortunately - so many that I can't mention them by name. Finally, to my son Sherif, may this study contribute to creating a better environment for his generation.

# TABLE OF CONTENTS

**ACKNOWLEDGEMENTS** ..... IV

**TABLE OF CONTENTS** ..... V
**LIST OF FIGURES** ..... XII
**LIST OF CASE STUDIES** ..... XVII
**LIST OF TABLES** ..... XVIII

**INTRODUCTION** ..... XIX

**PART I: THE CONCEPT OF REGENERATIVE DESIGN** ..... 1

**CHAPTER 1**: Between the Degenerative Paleotechnic and a Regenerative Neotechnic ..... 2

**CHAPTER 2**: Natural Processes ... A Model for Sustainability ..... 10
**FORMALIZING THE CONCEPT** ..... 11
General History of Modern Ecological Design ..... 11
Concept's History ..... 11
**PRINCIPLES OF ECOLOGICAL DESIGN AS IDENTIFIED BY VAN DER RYN** ..... 15
Elements of Ecological Design ..... 20
**TO HAVE REGENERATIVE SYSTEMS** ..... 21
**THE NATURAL STATE AND FUNDAMENTALS OF ECOLOGICAL REGENERATION** ..... 22
Ecosystematic Analysis (General Features) ..... 22
Limitation of Analysis and Practical Application ..... 22
**1. MODES OF ECOLOGICAL ORDER** ..... 24
The Structural Order (Structure) ..... 24
The Functional Order (Function) ..... 24
The Locational Patterns ..... 26
Landscape as Process ..... 26
**2. GENERATION PROCESSES OF THE LANDSCAPE** ..... 28
Conversion ..... 28
Distribution ..... 28
Filtration ..... 28
Assimilation ..... 30
Storage ..... 30
Thought ..... 31
Landscape as a Process in the Developing Countries ..... 31

**CHAPTER 3:** Evaluating Industrial and Pre-industrial Systems ..... 32
**ANALYSIS OF PRESENT AND PAST PALEOTECHNIC PRACTICES** ..... 33
**THE PRE-INDUSTRIAL AGE** ..... 43
Ecosystematic Analysis (General Features) ..... 44
Structure ..... 44
Function ..... 44
Locational Pattern ..... 45

**THE INDUSTRIAL AGE (THE PALEOTECHNIC)** ..... 45

Ecosystematic Analysis (General Features) ..... 46

Structure ..... 46
Function ..... 46
Locational Pattern ..... 47

**CHAPTER 4:** Postindustrial ... Strategies of Regenerative Design ..... 49

**THE POSTINDUSTRIAL AGE (THE NEOTECHNIC)** ..... 50

**STRATEGIES FOR REGENERATIVE DESIGN** ..... 52

**Formalizing** ..... 52

**Strategies** ..... 54

1. Letting Nature Do the Work ..... 54

2. Considering Nature as Both Model and Context ..... 56

3. Aggregating not Isolating ..... 58

4. Seeking Optimum Levels for Multiple Functions, not the Maximum or Minimum Level for Anyone ..... 59

5. Matching Technology to Need ..... 60

6. Using Information to Replace Power ..... 61

7. Providing Multiple Pathways ..... 62

8. Seeking Common Solutions to Disparate Problems ..... 64

9. Managing Storage as a Key to Sustainability ..... 65

10. Shaping Form to Guide Flow ..... 66

11. Shaping Form to Manifest Process ..... 67

12. Prioritizing for Sustainability ..... 70

**ECOSYSTEMATIC ANALYSIS (GENERAL FEATURES) OF POSTINDUSTRIAL AGE** ..... 70

Structure ..... 71
Function ..... 71
Locational Pattern ..... 72

**CHAPTER 5:** Mechanisms, Trends and Potentials ..... 77

**MECHANISMS** ..... 78

**1- ENERGY** ..... 78

A- Regenerative Concept of Energy ..... 78

B- Renewable Regenerative Sources..... 79
C- Design and Energy..... 81
**2- WATER, MATERIAL, AND RECYCLING**..... 88
A- Minimizing Consumption..... 88
Design..... 88
Mixed Uses..... 89
Technology..... 89
Legislations..... 89
Habits..... 89
B- Acquiring Water (Clever collection)..... 90
C- Recycling..... 90
Solid Waste Recycling..... 94
Liquid Waste Recycling..... 94
_ Aquatic Sewage Treatment..... 94
_ Land Sewage Treatment..... 95
_ Neutralizing Pollution..... 99
**3- Production**..... 99
**4- Integration as a Design Concept** ..... 99
**5-Design and its Articles**..... 100
**TRENDS**..... 104
**POTENTIALS**..... 104
**THE GAIA GARDEN CONCEPT**..... 105
The Urban River..... 105
The Urban Forest..... 105
**THE ARCOLOGY CONCEPT**..... 107
**THE E-TOPIA CONCEPT**..... 108
Our Town Tomorrow..... 110
**PARALLEL KNOWLEDGE AND DESIGN**..... 110
**CONCLUSION**..... 112

**PART II: EDGES**..... 113

**CHAPTER 1:** The Ecological Role of Edges versus Human Needs of Development..... 114
**NATURAL QUALITIES OF EDGES AND WATER EDGES**... 115
Marine/Coastal Wetlands..... 116
Inland Wetlands..... 116
Human-made Wetlands..... 120
**GENERAL FEATURES OF WETLANDS**..... 122
**Functions of Wetlands (Processes)**..... 122
1- Hydrologic Flux and Storage..... 122
2- Biogeochemical Cycling and Storage..... 122
3- Biological Productivity..... 123
4- Decomposition..... 123
5- Community Structure and Wildlife Support..... 123
**REGENERATIVE PROCESSES IN THE WETLANDS**..... 123
Conversion..... 123
Distribution..... 123
Filtration – Assimilation - Storage..... 124
Thought..... 124

**VALUES OF WETLANDS** ..... 124
1- Water Quality ..... 124
2- Water Supply, Storage, and Ground Water Recharge .....
3- Flood Protection ..... 124
4- Erosion Control ..... 124
5- Fish & Wildlife Habitat ..... 124
6- Recreation/Aesthetics/Culture/Science ..... 124
7- Commercial Benefits ..... 125
**THE ROLE OF WETLANDS IN ARID AREAS** ..... 125
**TRENDS AND PROBLEMS OF HUMAN DEVELOPMENT** ... 125
**WETLANDS AS AN ATTRACTION POINT OF HUMAN ACTIVITIES** ..... 125
1- Reasons Having to Do with their Qualities ..... 126
2- Reasons Having to Do with Human Needs ..... 126
**EDGES FOR WATER BUT NOT FOR URBAN SPRAWL** ..... 127
**WETLANDS AS VICTIMS OF DEGENERATIVE POLICIES** ..... 127
**MAJOR PROBLEMS AND THREATS OF WATER EDGES** ... 131
Urban Sprawl (Shrinkage) ..... 131
Degenerative Uses (Unsustainable Tourism and Recreation, Housing, Over-Fishing) ..... 131
Pollution – Degradation ..... 131
Impact of Major Projects (dams, roads, etc.) ..... 131
Segregated Uses ..... 131
Global Environmental Effects ..... 131
**MAJOR TRENDS OF DEVELOPING WETLANDS AND EDGES** ..... 131
**CONCLUSION** ..... 132
**CHAPTER 2:** Regenerative Design of Edges ..... 134
**GENERAL TARGETS OF DESIGN** ..... 135
**FORMALIZING DESIGN CRITERIA** ..... 135
**APPLICATIONS** ..... 140
**URBAN AREAS AND NATURAL LOCATIONS UNDER DEVELOPMENT** ..... 140
General ..... 140
Sewage ..... 141
Runoff ..... 142
Topography and Topsoil ..... 142
Architecture and Design of Human Needs ..... 142
Constructed Wetlands ..... 145
**NATURAL LOCATIONS** ..... 147
Marine/Coastal Wetlands ..... 147
Inland Wetlands ..... 152
Estuarine ..... 152
Riverine ..... 153

**PART III: EGYPT: FACTS AND POSSIBILITIES OF APPLICATIONS** ..... 156

**CHAPTER 1:** The Local Situation ..... 157

**PALEOTECHNIC PRACTICES VS. NEOTECHNIC PRACTICES** ... 158

**Energy** ..... 158

General ..... 158

Design ..... 158

Potentials and Obstacles ..... 159

**CASE STUDY: ALTERNATIVE TECHNOLOGIES IN EGYPT'S TOURISTIC COASTAL DEVELOPMENT [RED SEA AREA (HURGHADA - SAFAGA) - 1984-1996]** ..... 160

**Water** ..... 161

Acquiring ..... 161

Recycling ..... 162

**CASE STUDY: SEWAGE PROBLEM IN AGAMY – ALEXANDRIA** ..... 163

Potentials and Obstacles ..... 164

**Material And Production** ..... 164

Production ..... 164

Recycling ..... 165

**Human Factors** ..... 166

Political ..... 166

**CASE STUDY : THE ENVIRONMENTAL SCREENING FORMS** ..... 167

**Suggestion** ..... 167

Technological - Cultural ..... 168

Socio-economic ..... 168

Potentials and Obstacles ..... 168

**Design** ..... 169

**CASE STUDY : THE MONTAZAH SHARM EL SHEIKH CASE STUDY – SHARM EL SHEIKH – SOUTHERN SINAI – EGYPT** ..... 169

1- Characteristics of the Existing Environment ..... 176

2- Landscape Planning Concerns ..... 176

3- Landscape Planning Strategy ..... 176

4- Components of an Integrative Land Use - Landscape Planning Concept ..... 177

a. The Housing Belt ..... 177

b. Inner spine ..... 178

c. Golf course ..... 178

5- An Integrative Ecological Recycling and Natural Energy Scheme ..... 178

Criteria and Limitation of Design ..... 179

Know-how ..... 180

Long-term vs. Short-term ..... 180

Potentials and Obstacles ..... 180

**CHAPTER 2:** Local Trends of Growth for Edges ..... 181
**THE IMPORTANCE OF EDGES IN EGYPT**..... 182
Production - Consumption ..... 182
Ecological..... 182
Recreation - Visual..... 184
Conflict of Demands..... 185
**CURRENT AND EXPECTED TRENDS OF GROWTH**..... 185
Pattern..... 185
Capital local Projects from a Regenerative Perspective..... 185
The Role of Public Participation..... 188
**A SUITABLE MANNER FOR LOCAL CONDITIONS**..... 194
**CHAPTER 3:** Designers' Guidelines and Manual..... 195
**GENERAL**..... 196
**GENERAL DESIGN CONSIDERATIONS AND PRINCIPLES**..... 196
**APPLCATION OF DESIGN CONSIDERATIONS ON DIFFERENT SCALES**..... 206
The Sub-continental Planning Level..... 206
The National Planning Level..... 206
The Regional Planning Level..... 206
The Sub-region Level..... 206
The Project Level..... 206
The Site Level..... 207
The Construction Level..... 2072
**GENERAL DESIGN CONSIDERATIONS (MISCELLANEONS)**..... 207
**ACTUAL APPLICATION OF REGENERATIV DESIGN**..... 208
**PART IV: CASE STUDY: LAKE MARIOUT REGION**..... 219
**THE ECOLOGICAL FACTS - HISTORY AND PRESENT**..... 220
History..... 220
Description..... 223
**ECOSYSTEMATIC DESCRIPTION AND ANALYSIS**..... 224
**Natural**.....
**Ecological Modes**.....
Structure..... 224
Function..... 224
Locational Pattern..... 229
**Natural Processes**..... 231
**Human**..... 235
Socio-economic..... 235
Cultural..... 238
Interactions..... 239
**CURRENT GROWTH TRENDS**..... 246
**SOLUTIONS AND POSSIBILITIES**..... 247
**COMPARISON WITH TOSHKA**..... 251
