Evaluating The Antifertility Effects Of Some Plant Extracts And Testosterone In The House Mouse As A Prelude To Its Control

"A thesis submitted for the award of Ph.D. Degree of Science
in Zoology"

By

Maha Mostafa Hussein Abd El-Hamed

M.Sc. in Zoology, 2017

UNDER SUPERVISION OF

Prof. Sohail Samy Soliman

Professor Emeritus of Vertebrate Ecology and Taxonomy,
Department of Zoology, Faculty of Science, Ain Shams University

Prof. Wael Mohammed El-Sayed

Professor of Molecular Toxicology, Department of Zoology, Faculty
of Science, Ain Shams University

Dr. Reham Ibrahim Mohammed

Assistant professor of Pesticides and Environmental Toxicology,
Pesticide Chemistry Department, National Research Center

ACKNOWLEDGMENTS

First of all, I would like to thank GOD who blessed me with a group of kind supervisors and colleagues who supported me to complete this work.

I would like to extend my deepest appreciation and sincere thanks to **Dr. Sohail Samy Soliman**, Professor Emeritus of Vertebrate Ecology and Taxonomy, Department of Zoology, Faculty of Science, Ain Shams University, for supervising this work. His sincere advices, helpful efforts and critical reading of the manuscript are greatly appreciated.

Sincere thanks are directed to **Dr. Wael Mohamed El-Sayed**, Professor of Molecular Toxicology, Department of Zoology, Faculty of Science, Ain Shams University, for his encouragement, patience, support and broad-minded supervision throughout the course of the work.

Sincere thanks and gratitude are due to **Dr. Reham Ibrahim Mohamed**, Assistant Professor of Pesticides and Environmental Toxicology, National Research Centre, for his encouragement, patience, support and broad-minded supervision throughout the course of the work and critical reading of the manuscript

I would like to express deepest appreciation and sincere thanks to **Gehen Waheed**, Demonstrator in zoology department, Faculty of Science, Ain Shams University for her support and guidance during the laboratory work.

Special thanks are due to **Prof. Ashraf Montaser**, Head of the Department of Zoology, Faculty of Science, Ain Shams University, for his interest in the work, and for administrative facilities.

Sincere thanks to my family members and friends for their continuous help and real support throughout my academic life.

Finally, I would like to dedicate this work to the soul of my father; **Mostafa Hussein Abd El-Hameed**, may GOD has mercy on his soul.

Contents

List of abbreviation	I
List of figures.....	II
List of tables	XX
1. Introduction	3
2. Review of literature.....	6
3. Materials and methods.....	19
4. Results.....	46
4.1. Results of plant extracts.....	46
4.2. Results of Testosterone.....	111
4.3. Feeding tests.....	145
5. Discussion.....	158
6. Conclusion.....	178
7. References.....	180
8. English Summary.....	212
9. الملخص.....	٣
10. المستخلص.....	١

LIST OF ABBERRATION

B.V: blood vessel

B.m: Basement membrane

Cp.l: corpus luteum

Epi: epithelium

G.f: Graffian follicle

Int.c: Interstitial cells

Pd.f : Primordial follicle

Pr. f: primary follicle

Pr.Sp: Primary Spermatocyte

Sc. f: secondary follicle

Sc.Sp: Secondary Spermatocyte

Sc: Sertoli cell

Sd: Spermatid

Sg: Spermatogonia

Sm. t: seminiferous tubules

St.c: stereocilia

Sz: Spermatozoa

T.a: Tunica albuginea

Tr. f: tertiary follicle
