بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Acknowledgment

First and foremost, my thanks to Allah for enabling me to accomplish this work and all works over my life.

I want to thank all my teachers and colleagues in the department of forensic medicine and clinical toxicology, faculty of medicine, Cairo University.

I am deeply indebted to my supervisor, Prof. Dr. Dina Ali Shokry; professor and head department of forensic medicine and clinical toxicology faculty of medicine, Cairo University for her continuous support, valuable guidance and great advices.

Deepest gratitude is also to the members of the supervisory committee, Assoc. Prof. Dr. Neveen Ahmmed Eldosoky and Assoc. Prof. Dr. Khaled Abdel Fataah Byoumi without their knowledge and assistance this study would not have been successful.

I would also like to convey thanks to the institute of forensic medicine (Ministry of Justice) with special thanks to Dr. Ashraf elroufay, my colleagues and all staff members of the institute.

My deep thanks and great feelings extend to all my chiefs and staff members of Fedral Ministry of Health, Sudan-my workplace- for their warm kindness and continuous support.

Words fail to express properly my love and gratitude to my dear wife and all members of my family for their help, kind care and reassurance throughout my whole life.
