## "Salmonellae in Camels and Ostriches"

*A Thesis presented by*  
**Rehab Mohammed Atta Mahmoud**

B.V.Sc., Faculty of Veterinary Medicine,  
Cairo University, 1997

For the Degree of M.V.Sc.  
(Bacteriology-Immunology-Mycology)

*Under Supervision of*

Prof. Dr.

**WAGIH ARMANIOUS GAD EL-SAID**

Prof. of Microbiology  
Faculty of Veterinary Medicine,  
Cairo University

Prof. Dr.  
**Jakeen Kamal Abd**  
**El-Haleem ElJakee**  
Prof. of Microbiology  
Faculty of Veterinary Medicine,  
Cairo University

Dr.  
**Mona Abd El-Mohsen**  
**El-Shabrawy**  
Ass. Prof. in National Research  
Center, Dokki

2004

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

وَقُلْ أَعْلَمُ بِمَا  
يَعْمَلُونَ

سُبْحَانَ اللَّهِ عَمَّا يُشْرِكُونَ

**Approval Sheet**

This is to approve that the dissertation by Rehab Mohammed Atta Mahmoud to Cairo University for the Master Degree (Bacteriology – Mycology and Immunology) has been approved by the examining committee:

1- Prof. Dr. Fawzy Riyad El – Seedy

Professor and Head of Microbiology Department  
Faculty of Veterinary Medicine  
Cairo University (Beni – Suef Branch)

*F. R. El Seedy*

2- Prof. Dr. Ahmed Farid Hassan Farid

Professor of Microbiology  
Faculty of Veterinary Medicine  
Cairo University

*A. Farid*

3- Prof. Dr. Jakeen Kamal Abdel Halim El-Jakee

Professor of Microbiology  
Faculty of veterinary Medicine  
Cairo University.  
(Supervisor)

*Jakee*

Date 16/6/2004

## My Dedication to:

✻ *My Husband*

✻ *My Son*

✻ *My Father*

✻ *My Mother*

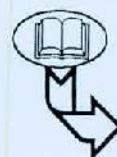

## ACKNOWLEDGEMENT

I am greatly indebted in all my work and success  
to our merciful "Allah".

My sincere thanks are due to **PROF. DR. WAGIH ARMANIOUS GAD EL-SAID**, Professor of Microbiology, Faculty of Veterinary Medicine, Cairo University, for his skillful supervision of the manuscript and for kindly offering his experience and time from many preoccupations and constructive criticism which made the completion of this work.

I wish to express my deepest appreciation and sincere gratitude to **PROF. DR. JAKEEN KAMAL ABD EL-HALEEM EL-JAKEE**, Prof. of Microbiology, Faculty of Veterinary Medicine, Cairo University, not only for her suggesting and supervision of this work, but also for her excellent help, her keen interest and continuous encouragement.

I am much obligated and greatly indebted to **DR. MONA ABD EL-MOHSEN EL-SHABRAWY**, Ass. Prof., National Research Center, for her continuous help, stimulating and valuable supervision, advice, experience and scientific knowledge.

I am especially indebted to Prof. **DR. MEDHAT SADEK**, Ass. Researcher, Sera and Antigens Department, Vet. Serum and Vaccine Research Institute, Abbasia, Cairo, for his sincere and fruitful help in the work at hand.

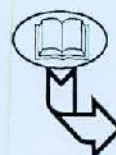

I express my sincere gratitude to **PROF. DR. EMAD RIZK**, Head of Buffalo Diseases Department, Animal Health Research Institute, Dokki, who had given me so much of his advise regarding the facilities of this study.

Great thanks are due to **DR. EMAD MOKHTAR**, for his great help during the practical part of this study.

I would like to express my appreciation to **DR. OSAMA SALIB**, Researcher, Vet. Serum and Vaccine Research Institute, Abbasia, Cairo, for his help when needed.

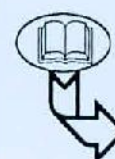

My thanks also extent to **DR. NORHAN NAGY**, Central Laboratory for Control of Veterinary Biologics, Abbasia, Cairo, for her great help.

I am also grateful to **MY COLLEAGUES** with special reference to Dr. **Amal Farouk**, **Father**, **Mother**, **Husband**, **Family** and every one helped me to complete this work.

## LIST OF TABLES

| <i>Table</i> | <i>Title</i>                                                                         | <i>Page</i> |
|--------------|--------------------------------------------------------------------------------------|-------------|
| 1            | Number and type of samples collected from camels                                     | 24          |
| 2            | Number of cloacal swabs collected from ostriches at different ages                   | 25          |
| 3            | Biochemical differentiation of <i>Salmonella</i> biotypes                            | 30          |
| 4            | Biochemical identification of <i>salmonella</i> isolated from the examined samples   | 33          |
| 5            | Somatic and flagellar antigenic structures of <i>Salmonella</i> isolates             | 35          |
| 6            | Incidence of salmonellae in the collected camel samples                              | 37          |
| 7            | Incidence of salmonellae in diseased and apparently healthy camels                   | 39          |
| 8            | Prevalence of salmonellae serotypes among the apparently healthy and diseased camels | 40          |
| 9            | Incidence of salmonellae in camels regarding to sex                                  | 42          |
| 10           | Prevalence of salmonellae serotypes regarding to camel sex                           | 43          |
| 11           | Incidence of salmonellae in slaughtered and alive camels                             | 45          |
| 12           | Prevalence of <i>Salmonella</i> serotypes among alive and slaughtered camels         | 46          |
| 13           | Incidence of salmonellae regarding to camel ages                                     | 48          |
| 14           | Prevalence of salmonellae regarding to camel age                                     | 49          |
| 15           | Incidence of salmonellae recovered from alive up to 1 year old camel samples         | 51          |

| <i>Table</i> | <i>Title</i>                                                                                              | <i>Page</i> |
|--------------|-----------------------------------------------------------------------------------------------------------|-------------|
| 16           | Distribution and incidence of salmonellae isolated from alive up to 1 year old camel samples              | 52          |
| 17           | Incidence of salmonellae recovered from alive more than one year old camel samples                        | 54          |
| 18           | Incidence of <i>Salmonella</i> serotype recovered from alive more than one year old camel samples         | 55          |
| 19           | Incidence of <i>Salmonella</i> among apparently healthy slaughtered camel samples                         | 57          |
| 20           | Prevalence of <i>Salmonella</i> serotypes recovered from the apparently healthy slaughtered camel samples | 58          |
| 21           | Collective table for the prevalence of <i>Salmonella</i> in camels                                        | 59          |
| 22           | The prevalence of salmonellae in ostriches                                                                | 60          |
| 23           | The incidence of <i>Salmonella</i> among different ages of ostriches                                      | 62          |
| 24           | The incidence of <i>Salmonella</i> serotypes regarding to different ages of ostriches                     | 63          |
