Role of External Fixator in Management of Periarticular and Intraarticular Fractures of Lower Limb

Essay

Submitted for partial fulfillment of
Master Degree
In
Orthopaedic Surgery

B 17739

By

Mohammed Saad Nasef
M.B.B.Ch

Supervised by

Prof. Dr. Mohamed Samy EL-Zahar

Prof. of Orthopaedic Surgery
Banha Faculty of Medicine

Prof. Dr. Gamal Ahmed Hosny

Prof. of Orthopaedic Surgery
Banha Faculty of Medicine

Banha Faculty of Medicine
Banha University

2005

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

(قَالُوا سُبْحَانَكَ لَا عِلْمَ
لَنَا إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْحَكِيمُ)

(البقرة: ٣٢)

ACKNOWLEDGMENT

First of all, I would like to express my prayerful thanks to Allah for everything.

I would express my deepest gratitude, respect and cordial appreciation to **Prof. Dr. MOHAMMED SAMY EL ZAHAR** Professor of Orthopaedic Surgery, Banha Faculty of Medicine, Banha University, for continuous guidance and valuable advice. Although my words may prove inadequate. I greatly appreciate his great contribution to this work.

I feel extremely indebted to **Prof. Dr. GAMAL AHMED HOSNY** Professor of Orthopaedic Surgery, Banha Faculty of Medicine, Banha University. For his continuous help and kind collaboration in the supervision of this work.

Last but not least, all my love and thanks to my son and family for their encouragement, help and support.

CONTENTS

	Page
• Introduction & Aim of the work	I
• Articular fracture	1
• Classifications	7
- Pilon fracture	7
- Plateau fracture	11
- Distal femur fracture	17
- Trochanteric femur fracture	20
- Neck femur fracture	23
- Acetabular fracture	26
• Diagnosis	29
• Types and Biomechanics of external fixator	44
• Role of external fixator in articular fractures	59
• Complications	101
• Conclusion	111
• Summary	115
• References	118
• Arabic summary
