Department of Surgery

Different Modalities of Management of Early and Late Traumatic Soft Tissue Defects of The Hand

Systematic Review / Meta-Analysis

*Submitted for Partial Fulfillment of Master
Degree in General Surgery*

By

Moustafa Ahmed AbdelAliem

M.B.B.Ch.,

Under supervision of

Prof. Dr. Abdelrahman Mohamed El-maraghy

Professor of General and Endocrine surgery

Faculty of Medicine – Ain Shams University

Prof. Dr. Shaaban Mohamed Abd Almajeed

Professor of General and Endocrine surgery

Faculty of Medicine – Ain Shams University

Dr. Mina Agaiby Estawrow

Lecturer of Plastic and Reconstructive surgery

Faculty of Medicine – Ain Shams University

*Faculty of Medicine
Ain Shams University*

2020

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

سببنا أنك لا تعلم لنا
إلا ما علمتنا أنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

*First and foremost, thanks for **ALLAH** for guiding and helping me to finish this work,*

*I would like to express my deepest thanks and sincere gratitude to **Prof. Abdelrahman Mohamed El-Maraghy**, Professor of General and Endocrine Surgery, Faculty of Medicine, Ain Shams University, for his close supervision, valuable instructions, continuous help and sincere advice.*

*I would like to express my deepest gratitude to **Prof. Shaaban Mohamed Abd Almajeed**, Professor of General and Endocrine Surgery, Faculty of Medicine, Ain Shams University, for his enthusiastic supervision.*

*I have to thank **Dr. Mina Agaiby Estawrow**, Lecturer of Plastic and Reconstructive Surgery, Faculty of Medicine, Ain Shams University, for his continuous unstoppable help.*

Finally, I should appreciate the agreement of the patients to be included in this research, without them no medical research could be done.

Mostafa AbdelAliem

Dedication

*Words can never express my sincere thanks to **My Family** for their generous emotional support and continuous encouragement, which brought the best out of me. I owe them all every achievement throughout my life.*

*I would like to express my everlasting gratitude to all **My Professors, Colleagues and Friends**, so many of them influenced, encouraged and inspired me throughout the years. I wish them the best of all.*

List of Contents

Title	Page No.
List of Tables	i
List of Figures	iii
List of Abbreviations.....	vii
Introduction	1
Aim of the Work.....	5
Review of Literature	
Anatomy of the Hand.....	6
Management of Soft Tissue Defects of the Hand	31
Patients and Methods.....	69
Results of the Study	74
Discussion	122
Summary & Conclusion	132
References	137
Appendix.....	149
Arabic Summary	—

List of Tables

Table No.	Title	Page No.
Table (1):	Extensor compartments of the hand.	27
Table (2):	Nerve supply of the hand.	28
Table (3):	Tic Tac Toe classification system for mutilating injuries of the hand by American Society for Surgery of the Hand (ASSH).....	31
Table (4):	The titles and dates of the 21 papers included and type of each of them.	75
Table (5):	Publications by years.	78
Table (6):	Types of papers.....	79
Table (7):	Level of Evidence.	80
Table (8):	Mean age of the study population.	81
Table (9):	Sex distribution of the study population.	84
Table (10):	Cause of injury of the study population.	86
Table (11):	Site of defect of the study population.	89
Table (12):	Techniques used in the included studies.....	93
Table (13):	Defect size of the study population.	95
Table (14):	Mean follow up duration of the study population.....	96
Table (15):	Important outcomes..	97
Table (16):	Complications.	99
Table (17):	Important conclusions of the included studies.	102
Table (18-A):	Pooling of proportions	106
Table (18-B):	Heterogeneity tests	106
Table (18-C):	Fail-Safe N Analysis.....	108
Table (18-C):	Rank Correlation Test for Funnel Plot Asymmetry	108
Table (18-E):	Regression Test for Funnel Plot Asymmetry	108

List of Tables Cont...

Table No.	Title	Page No.
Table (19-A):	Pooling of proportions	110
Table (19-B):	Heterogeneity tests	110
Table (19-C):	Fail-Safe N Analysis.....	112
Table (19-D):	Rank Correlation Test for Funnel Plot Asymmetry	112
Table (19-E):	Regression Test for Funnel Plot Asymmetry	112
Table (20-A):	Pooling of proportions	114
Table (20-B):	Heterogeneity tests	114
Table (20-C):	Fail-Safe N Analysis.....	116
Table (20-D):	Rank Correlation Test for Funnel Plot Asymmetry	116
Table (20-E):	Rank Correlation Test for Funnel Plot Asymmetry	116
Table (21-A):	Pooling of proportions	118
Table (21-B):	Heterogeneity tests	118
Table (21-C):	Fail-Safe N Analysis.....	120
Table (21-D):	Rank Correlation Test for Funnel Plot Asymmetry	120
Table (21-E):	Rank Correlation Test for Funnel Plot Asymmetry	120

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Human hand parts.....	8
Figure (2):	Bones of the human hand.....	10
Figure (3):	Palm side view of the right hand.....	11
Figure (4):	Arches of the hand Red: one of the oblique arches Brown: one of the longitudinal arches of the digits Dark green: transverse carpal arch Light green: transverse metacarpal arch.....	12
Figure (5):	The two transverse and single longitudinal arches of the hand	13
Figure (6):	Left: papillary ridges of palm, Right: sexual dimorphism.....	15
Figure (7):	Peeling back the skin, we encounter a sheet of dense connective tissue, the palmar aponeurosis.....	17
Figure (8):	The right axillary artery with continuation into the brachial artery in a posteroanterior projection using digital subtraction.....	19
Figure (9):	The arterial anastomoses around the elbow joint viewed from the anterior aspect	20
Figure (10):	The arteries and nerves of the palm.	21
Figure (11):	Once the palmar aponeurosis is removed, we find muscles as well as the sheaths that surround the tendons of the extrinsic muscles lying on this side of the hand.....	23
Figure (12):	The anatomy of the extensor muscles superficial to deep	24

List of Figures Cont...

Fig. No.	Title	Page No.
Figure (13):	Zones of flexor tendon injuries	25
Figure (14):	Subdivisions of zones 1 and 2 of flexor tendons.....	26
Figure (15):	Nerves of the upper limb	27
Figure (16):	Cutaneous innervation of the wrist and hand.....	30
Figure (17):	Reconstructive Ladder: step wise approach	33
Figure (18):	The functional aesthetic units of the hand.....	37
Figure (19):	Levels of harvesting skin grafts according to skin layers	42
Figure (20):	Showing a skin lesion (basal cell carcinoma) on the dorsum of the hand (A) and an outline of rhomboid flap planned for coverage of post-excision skin defect	44
Figure (21):	Illustrating design of V-Y advancement flap to cover fingertip amputation.....	45
Figure (22):	VY flap.	46
Figure (23):	A 20-year-old female patient who sustained a crush injury to the left index finger with soft tissue loss and necrosis	47
Figure (24):	Illustrating the reverse cross-finger flap	48
Figure (25):	Cross finger flap.	48
Figure (26):	Cross finger flap.	49
Figure (27):	A reverse homodigital island flap	50
Figure (28):	Island flap.	50

List of Figures Cont...

Fig. No.	Title	Page No.
Figure (29):	Defect over the ring finger with extensor expansion injury and flap marking with marked perforator.....	52
Figure (30):	Reverse RFF	54
Figure (31):	A Severe postburn contracture of the radial side of the hand and thumb	55
Figure (32):	RAP flap	56
Figure (33):	UAP flap	57
Figure (34):	Soft tissue defect in the dorsum of the hand.....	58
Figure (35):	PIA flap.....	60
Figure (36):	A Severe hand trauma with skin loss suffered after a rollover motor vehicle accident. B Reconstructed using a groin flap	62
Figure (37):	Maintaining the aesthetics of the hand.....	64
Figure (38):	A Example of a first web space contracture. B Reconstructed using a free LA flap.	66
