Effect of Aloin on Mitotic Regulators in Human Breast Cancer Cell Lines

Thesis Submitted by:

Hani Gomaa Abd Elhalim Mohamed

(B.Sc. in Biochemistry/chemistry, Ain Shams University, 2006)

**In Partial Fulfillment of the Degree of Master of Science in
Biochemistry**

Under the Supervision of:

**Prof. Dr. Amr Youssef Ezz El Din
Esmat**

Professor of Biochemistry
Faculty of Science
Ain Shams University

**Prof. Dr. Ahmed Samir
Sultan**

Professor of Biochemistry
Faculty of Science
Alexandria University

Prof. Dr. Mahmoud Mohamed Said

Professor of Biochemistry
Faculty of Science
Ain Shams University

2022

أَتُوبُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

(إِنَّمَا يَخْشَى اللَّهَ مِنْ
عِبَادِهِ الْعُلَمَاءُ ^{قُلْ} إِنَّ اللَّهَ
عَزِيزٌ ^{عَزِيزٌ} غَفُورٌ)

صدق الله العظيم

سورة فاطر الآية (28)

Biography

Name: Hani Gomaa Abd Elhalim Mohamed

Degrees Awarded: Diploma of Applied Studies in
Analytical Biochemistry

Faculty of Science

Biochemistry Department

Alexandria University

June 2009

B.Sc. in Biochemistry/Chemistry

Faculty of Science

Biochemistry Department

Ain Shams University

June 2006

Occupation Medical Analysis specialist

Declaration

***This thesis has not been
submitted for a degree at
this or any other
university***

***Hani Gomaa Abd Elhalim
Mohamed***

Acknowledgements

First and foremost, many thanks are due to Almighty Allah, for giving me the ability and support to undertake this research study and complete it satisfactorily. Without his blessings, this achievement would not have been possible.

It is really difficult for me to find the suitable words that could express my deep gratitude and sincere appreciation towards Prof. Dr. Amr Youssef Ezz El-Din Esmat, Professor of Biochemistry, Faculty of Science, Ain Shams University, for suggesting the point, his perpetual guidance, creative thinking, valuable suggestions, fruitful discussion and profound revision of the thesis and the paper. Without his brilliant scientific ideas, tremendous concern and care, this thesis would not have been accomplished in the present form.

My sincere gratitude is also extended to Prof. Dr. Mahmoud Mohamed Said, Professor of Biochemistry, Faculty of Science, Ain Shams University, for his kind help, profound revision of the thesis and the paper, tremendous tutorial assistance with the statistical analysis, creative thinking, constant guidance, sincere encouragement, valuable advice and criticism.

I would like to express gratitude to Prof. Dr. Ahmed Samir Sultan, Professor of Biochemistry, Faculty of Science, Alexandria University, for providing me with the cell lines and laboratory facilities to carry out the practical part of this work, as well as for his valuable comments and useful advices concerning this work.

Dedication

*This thesis is whole heartedly dedicated
to*

*.....my beloved parents, who have
always been my source of support and
strength.*

..... my wife for her love and support.

*.....every special person, who lit up my
road, heart, and soul.*

Contents

Abstract	I
List of Abbreviations	III
List of Tables	VIII
List of Figures	X
Chapter I: Introduction and Aim of the Work	1
Chapter II: Review of Literature	8
Breast cancer epidemiology.....	8
Risk factors for breast cancer.....	8
Histopathological classification of breast cancer.....	9
Breast cancer staging.....	11
Breast cancer grading.....	11
Receptor status.....	12
Molecular classification of breast cancer.....	13
The cell cycle.....	15
The cell cycle and regulatory proteins	23
Aurora kinases family.....	26
Roles of aurora kinases A and B in mitosis.....	29
Centrosome maturation.....	29
Establishment of the bipolar spindle.....	29
Chromosome alignment and kinetochores anchoring.....	30
Chromosome separation.....	30
Telophase and cytokinesis.....	31
Cell cycle checkpoints.....	34
Aurora kinases degradation.....	39
Aurora kinases and tumorigenesis.....	41
Inner centromere protein (INCENP) [the second member of the CPC].....	45
Survivin.....	48
Centromere protein A (CENP-A).....	51
