Women's Perception Concerning Their Habitual Abortion

Thesis

*Submitted for Partial Fulfillment of the Master Degree in
Nursing Sciences (Maternity & Gynecological Nursing)*

Under Supervision

Prof. Dr. Kamilia Ragab Abo Shabana

*Professor of Maternity & Gynecological Nursing
Faculty of Nursing-Ain Shams University*

Prof. Dr. Nadia Abdel Hamid Attiat-Allah

*Professor of Maternity & Gynecological Nursing
Faculty of Nursing-Ain Shams University*

Dr. Walaa Fathy Mohammed

*Lecturer of Maternity & Gynecological Nursing
Faculty of Nursing-Ain Shams University*

**Faculty of Nursing
Ain Shams University**

2020

Acknowledgement

First and foremost, I am grateful to ALLAH for giving me the opportunity to complete this study, and give Him thanks and praise.

***Prof. Dr. Kamlia Ragab Abo-shabana**, Professor of Maternity and Obstetric Nursing, Faculty of Nursing, Ain Shams University, **Prof. Dr. Nadia Abdel Hamid Attiat-Allah**, Professor of Maternity & Gynecological Nursing, Faculty of Nursing, Ain Shams University, **Dr. Walaa Fathy**, lecturer of Maternity & Gynecological Nursing, Faculty of Nursing, Ain Shams University, had refused to be acknowledged because they consider supervising master and doctor theses are integral part of their academic professional role and they need to be acknowledged from ALLAH, not from the student.*

Last, I'd like to thank the studied sample for their agreement on participation in the study.

Shimaa Ibrahim Salama Mohamed

List of Tables

Table	Title	Page
Table of Literature Review		
1	Global antiphospholipid syndrome scoring (GAPSS).	19
2	Evidence-based workup for couples with recurrent pregnancy loss (RPL).	45
3	Comparison of three protocols for investigations and treatment of RPL.	49
4	Diagnosis and management of RPL.	66
Table of Results		
1	Frequency distribution regarding general characteristics among studied sample.	99
2	Frequency distribution regarding history among studied sample.	101
3	Frequency distribution concerning obstetric history among studied sample.	102
4	Frequency distribution concerning studied sample correct & incorrect knowledge related to habitual abortion.	106
5	Frequency distribution according to studied sample attitude toward their habitual abortion	111
6	Relation between studied sample general characteristics and their total correct & incorrect knowledge.	114

Table	Title	Page
7	Relation between studied sample history and their total correct & incorrect knowledge.	115
8	Relation between studied sample obstetric history and their total correct & incorrect knowledge.	116
9	Relation between studied sample general characteristics and their attitudes.	117
10	Relation between studied sample history and their attitudes.	118
11	Relation between studied sample obstetric history and their attitudes.	119
12	Correlation between total studied sample knowledge and their attitude.	120

List of Figures

Figure	Title	Page
Figure of Literature Review		
1	Etiology of recurrent pregnancy loss.	2
2	Congenital Uterine Anomalies.	21
3	Three-dimensional ultrasound.	37
4	Hysteroscopy.	39
5	Laparoscopy.	39
Figure of Results		
1	Percentage distribution according to studied sample living births.	103
2	Percentage distribution according to timing of habitual abortion among studied sample.	104
3	Percentage distribution according to known and unknown causes of habitual abortion among studied sample.	105
4	Percentage distribution according to studied sample expectations concerning their future pregnancy.	107
5	Percentage distribution according to studied sample source of knowledge related to habitual abortion.	108

Figure	Title	Page
6	Percentage distribution regarding studied sample perception about causes of habitual abortion.	109
7	Percentage distribution regarding studied sample perception about risk factors of habitual abortion.	110
8	Percentage distribution according to studied sample attitude toward their habitual abortion.	113

List of Appendices

- ❖ Structured interviewing questionnaire **(Appendix I)**
- ❖ Perception tool **(Appendix II)**
- ❖ Likert scale **(Appendix III)**
- ❖ Administrative letter
